

Philadelphia Local News

Andrea Wenzel

Making Local News Phyllis Kaniss,1997-12-08 Why do crimes and accidents earn more news coverage than development and policy issues affecting thousands of people? Filled with revealing interviews with both journalists and city officials, Making Local News is the first comprehensive look at how the economic motives of media owners, professional motives of journalists, and the strategies of media-wise politicians shape the news we see and hear, thereby influencing urban policy. Making Local News by Phyllis Kaniss . . . is significant. . . . If we can continue to get smarter about that which journalism leaves out or distorts in its coverage of politics, we may eventually get smarter about politics itself.—Mitchell Stephens, The Philadelphia Inquirer View A convincing analysis of the factors and forces which color how and why local issues do, or do not, become newsworthy. —Michael H. Ebner, Journal of Interdisciplinary History This work serves as a reminder of the importance of a medium that is often overlooked until economic realities threaten its very existence. —Choice Kaniss is truly a pioneer in the study of local news.—Susan Herbst, Contemporary Sociology

Chasing My Cure David Fajgenbaum,2019-09-10 LOS ANGELES TIMES AND PUBLISHERS WEEKLY BESTSELLER • The powerful memoir of a young doctor and former college athlete diagnosed with a rare disease who spearheaded the search for a cure—and became a champion for a new approach to medical research. “A wonderful and moving chronicle of a doctor’s relentless pursuit, this book serves both patients and physicians in demystifying the science that lies behind medicine.”—Siddhartha Mukherjee, New York Times bestselling author of The Emperor of All Maladies and The Gene David Fajgenbaum, a former Georgetown quarterback, was nicknamed the Beast in medical school, where he was also known for his unmatched mental stamina. But things changed dramatically when he began suffering from inexplicable fatigue. In a matter of weeks, his organs were failing and he was read his last rites. Doctors were baffled by his condition, which they had yet to even diagnose. Floating in and out of consciousness, Fajgenbaum prayed for a second chance, the equivalent of a dramatic play to second the game into overtime. Miraculously, Fajgenbaum survived—only to endure repeated near-death relapses from what would eventually be identified as a form of Castleman disease, an extremely deadly and rare condition that acts like a cross between cancer and an autoimmune disorder. When he relapsed while on the only drug in development and realized that the medical community was unlikely to make progress in time to save his life, Fajgenbaum turned his desperate hope for a cure into concrete action: Between hospitalizations he studied his own charts and tested his own blood samples, looking for clues that could unlock a new treatment. With the help of family, friends, and mentors, he also reached out to other Castleman disease patients and physicians, and eventually came up with an ambitious plan to crowdsource the most promising research questions and recruit world-class researchers to tackle them. Instead of waiting for the scientific stars to align, he would attempt to align them himself. More than five years later and now married to his college sweetheart, Fajgenbaum has seen his hard work pay off: A treatment he identified has induced a tentative remission and his novel approach to collaborative scientific inquiry has become a blueprint for advancing rare disease research. His incredible story demonstrates the potency of hope, and what can happen when the forces of determination, love, family, faith, and serendipity collide. Praise for Chasing My Cure “A page-turning chronicle of living, nearly dying, and discovering what it really means to be invincible in hope.”—Angela Duckworth, #1 New York Times bestselling author of Grit “[A] remarkable memoir . . . Fajgenbaum writes lucidly and movingly . . . Fajgenbaum’s stirring account of his illness will inspire readers.”—Publishers Weekly

Rebuilding the News C. W. Anderson,2013-01-18 Breaking down the walls of the traditional newsroom, Rebuilding the News traces the evolution of news reporting as it moves from print to online. As the business models of newspapers have collapsed, author C. W. Anderson chronicles how bloggers, citizen journalists, and social networks are implicated in the massive changes confronting journalism. Through a combination of local newsroom fieldwork, social-network analysis, and online archival research, Rebuilding the News places the current shifts in news production in socio-historical context. Focusing on the Philadelphia Inquirer, the Philadelphia Daily News, Anderson presents a gripping case study of how these papers have struggled to adapt to emerging economic, social, and technological realities. As he explores the organizational, networked culture of journalism, Anderson lays bare questions about the future of news-oriented media and its evolving relationship with “the public” in the digital age.

The Media and the Mayor's Race Phyllis C. Kaniss,1995 A study of the way a key group of reporters and their news organizations cover a political campaign in Philadelphia. Three methods were used: participant-observation, content analysis, and interviewing. The ultimate intention was not simply to measure and analyze the news coverage of one particular race but to shed light on the underlying processes and organizational structures that influence news coverage of local elections.

Death by Deadline Larry Kane,2011-07-01 Death By Deadline is a mystery thriller that takes you deep into the heart of local TV News, with heroes, villains, and a look at how the battle to be first with a story can climax in unbelievable catastrophe. Can local news kill people? That's the essential question as the author takes you through a mosaic of politics. the underworld, government, and the life of a big city as seen through the prism of courageous journalists and their corrupt and devious counterparts. Death by Deadline is a story of murder, mayhem, and hope. accompanied by unforgettable characters, and some of the most unusual newsroom humor that you will ever read. This is not for the fainthearted, but is IS for people who want to walk the fine line between solid reporting and the tragedy of journalistic deceit. The people are not real. Can it happen? Maybe, on some dark day in the future, unless it is too late. Too late is a real possibility. But in the meantime, the thread of corruption, sexual tension, heroes and villains fighting an internal struggle, produces a newsroom full of tightrope walkers in a novel with so many surprises, that the reader must be prepared to face the unthinkable.

A Molecule Away from Madness: Tales of the Hijacked Brain Sara Manning Peskin,2022-02-08 Longlisted for the PEN/E.O. Wilson Literary Science Writing Award Riveting stories of the brain on the brink, from an acclaimed cognitive neurologist. Our brains are the most complex machines known to humankind, but they have an Achilles heel: the very molecules that allow us to exist can also sabotage our minds. Here are gripping accounts of unruly molecules and the diseases that form in their wake. A college student cannot remember if she has eaten breakfast. By dinner, she is strapped to a hospital bed, convinced she is battling zombies. A man planning to propose marriage instead becomes violently enraged, gripped by body spasms so severe that he nearly bites off his own tongue. One after another, poor farmers in South Carolina drop dead from a mysterious epidemic of dementia. With an intoxicating blend of history and intrigue, Sara Manning Peskin invites readers to play medical detective, tracing each diagnosis from the patient to an ailing nervous system. Along the way, Peskin entertains with tales of the sometimes outlandish, often criticized, and forever devoted scientists who discovered it all. Peskin never loses sight of the human impact of these conditions. Alzheimer’s Disease is more than the gradual loss of a loved one; it can be a family’s multigenerational curse. The proteins that abound in every cell of our bodies are not simply strings of oxygen, hydrogen, nitrogen, and carbon; they are the building blocks of our personalities and relationships. A Molecule Away from Madness is an unputdownable journey into the deepest mysteries of our brains.

On Camera and Off Lisa Thomas-Laury,2017 On Camera and Off is a memoir by Lisa Thomas-Laury, a television news anchor on Philadelphia's Channel 6. The book covers her rise in TV journalism and her long struggle to beat the severe challenge of POEMS syndrome, a hard-to-diagnose nerve disorder that can be crippling and ultimately life-threatening

The Doctor, the Hitman, and the Motorcycle Gang Annie McCormick,2020-03-17 A prominent New Jersey doctor and members of a notorious outlaw motorcycle gang The Pagans transform the doctor's office into a drug ring pumping thousands of highly addictive opioid pain pills onto the streets in exchange for cash. Everything was going smoothly until one person discovered their plan: the doctor's wife. When she threatened to divorce him, the doctor's unholy alliance with his partners in crime turned deadly and the doctor hired a hitman to kill her. The Doctor, The Hitman and The Motorcycle Gang is the true story of the murder of April Kauffman, a beloved and vivacious local radio personality and veterans' advocate who was found shot to

death in her suburban New Jersey home in May of 2012. In the months leading up to her death, she had uncovered a tangled web of deceit surrounding her husband. She feared he was trying to kill her and that he may harm her family. Nearly six years later, authorities charged her husband, Dr. James Kauffman, with her murder. Just this week, a jury convicted a former leader of the Pagans Motorcycle Club with helping to carry out the murder. McCormick includes never before seen or heard details from the investigation through her years of covering the case and she documents the relentless search for justice by April's family, friends, and her daughter--

Antiracist Journalism Andrea Wenzel,2023-11-14 Across the United States, newsrooms are grappling with systemic racism in their organizations and the media industry. Many have implemented diversity, equity, and inclusion (DEI) initiatives or made other attempts to confront past and present biases in pursuit of greater equity. Are such efforts merely performative, or are any transforming norms and power structures? What would it take to hold newsrooms truly accountable? Andrea Wenzel provides a critical look at how local media organizations in the Philadelphia area are attempting to address structural racism. She focuses on two established, majority-white newsrooms, the Philadelphia Inquirer and the public radio station WHYY, and two start-ups where at least half the staff identify as Black, Indigenous, or people of color (BIPOC), Resolve Philly and Kensington Voice. Drawing on more than five years of field research, Wenzel charts how these outlets have pursued a range of interventions—such as tracking the diversity of sources, examining reporting and editing practices, and working with community members to gain input—to varying degrees of success. Wenzel argues that institutional and systemic transformation will be possible only through the establishment of structures that facilitate holding those with more power responsible for listening to and addressing the needs and concerns of those with less. Offering recommendations for building infrastructure that enables sustainable accountability, Antiracist Journalism is an important book for everyone interested in making local journalism more equitable.

The Dynamics of Regional Cable News Peter Kohler,Barry L. Sherman,International Radio and Television Society,1995-09-01

Philadelphia Television Bill Shull,2015 The history of Philadelphia television is the history of television in America. Philo Farnsworth, credited with inventing television, performed some of his earliest experiments at the Franklin Institute and at 1230 Mermaid Lane. Those experiments led to the city's first television station, W3XE. Channel 3 was also the first local station in the country to broadcast in color. WCAU-TV Channel 10 constructed the first building in the world designed specifically as a television station. WFIL created one of the most iconic shows in television history, American Bandstand, as well as Action News, which has helped Channel 6 stay on top of the ratings for most of the last 40 years. Dick Clark, Ed McMahon, Ernie Kovacs, Tom Snyder, David Brenner, Maury Povich, Kelly Ripa, Brian Williams, and others are among those who have worked in Philadelphia television throughout its history.

Let's Be Reasonable Jonathan Marks,2023-01-31 A conservative college professor's compelling defense of liberal education Not so long ago, conservative intellectuals such as William F. Buckley Jr. believed universities were worth fighting for. Today, conservatives seem more inclined to burn them down. In Let's Be Reasonable, conservative political theorist and professor Jonathan Marks finds in liberal education an antidote to this despair, arguing that the true purpose of college is to encourage people to be reasonable—and revealing why the health of our democracy is at stake. Drawing on the ideas of John Locke and other thinkers, Marks presents the case for why, now more than ever, conservatives must not give up on higher education. He recognizes that professors and administrators frequently adopt the language and priorities of the left, but he explains why conservative nightmare visions of liberal persecution and indoctrination bear little resemblance to what actually goes on in college classrooms. Marks examines why advocates for liberal education struggle to offer a coherent defense of themselves against their conservative critics, and demonstrates why such a defense must rest on the cultivation of reason and of pride in being reasonable. More than just a campus battlefield guide, Let's Be Reasonable recovers what is truly liberal about liberal education—the ability to reason for oneself and with others—and shows why the liberally educated person considers reason to be more than just a tool for scoring political points.
