Notable Books, Notable Lessons Andrea S. Libresco, Jeannette Balantic, Mary Battenfeld, 2017-09-21 This book provides teachers, librarians, and education methods professors with strategies, lesson plans, and activities that enable them to use literature as a springboard to social studies thematic instruction. With the amount of time and resources allocated to teaching social studies being significantly reduced, social studies lessons need to be incorporated into other subjects. *Notable Books, Notable Lessons: Putting Social Studies Back in the K–8 Curriculum* offers the tools to teach students social studies concepts that are increasingly relevant and essential in today's diverse, globalized world—lessons that are vital in order to prepare students to think critically and participate in our multicultural democracy. Providing information that elementary and middle school teachers and librarians, district-level curriculum directors and principals, staff developers, and social studies and literacy methods professors will find extremely useful, this book uses the National Council for the Social Studies (NCSS)/Children's Book Council (CBC)'s current and past lists of Notable Books at the elementary and middle school levels to offer easy-to-follow lesson plans that integrate social studies instruction with reading and language arts. The lesson plans pose compelling questions to facilitate discussion and critical thinking and suggest engaging activities that are connected to the social studies concepts. The book also includes sample student handouts for the selected pieces of literature.

Reporting on Latino/a/x Communities Teresa Puente, Jessica Retis, Amara Aguilar, Jesus Ayala Rico, 2022-05-10 This book offers a critical and practical guide for journalists reporting on issues affecting the Latinx community. Reporting on Latino/a/x Communities emphasizes skills and best practices for covering topics such as economics, immigration and gender. The authors share honest stories about challenges Latino/a/x journalists face in newsrooms, including imposter syndrome and lack of representation in news, along with strategies to face and tackle systematic barriers. Stories from leaders in the media industry are also featured, including journalists and media professionals from ABC News, Los Angeles Times, Alt.Latino at NPR, and mitú. Additionally highlighted are experimental and non-traditional new initiatives and outlets leading the future of news media for Latino/a/x audiences. This book is an invaluable guide for any student or journalist interested or involved in the news media and questions of Latino/a/x representation.

Seven Mobile Apps in Seven Weeks Tony Hillerson, 2016-08-01 Answer the question Can we build

this for ALL the devices? with a resounding YES. Learn how to build apps using seven different platforms: Mobile Web, iOS, Android, Windows, RubyMotion, React Native, and Xamarin. Find out which cross-platform solution makes the most sense for your needs, whether you're new to mobile or an experienced developer expanding your options. Start covering all of the mobile world today. Understanding the idioms, patterns, and quirks of the modern mobile platforms gives you the power to choose how you develop. Over seven weeks you'll build seven different mobile apps using seven different tools. You'll start out with Mobile Web; develop native apps on iOS, Android, and Windows; and finish by building apps for multiple operating systems using the native cross-platform solutions RubyMotion, React Native, and Xamarin. For each platform, you'll build simple, but non-trivial, apps that consume JSON data, run on multiple screen sizes, or store local data. You'll see how to test, how to build views, and how to structure code. You'll find out how much code it's possible to share, how much of the underlying platform you still need to know, and ultimately, you'll get a firm understanding of how to build apps on whichever devices your users prefer. This book gives you enough first-hand experience to weigh the trade-offs when building mobile apps. You'll compare writing apps on one platform versus another and understand the benefits and hidden costs of cross-platform tools. You'll get pragmatic, hands-on experience writing apps in a multi-platform world.

What You Need: You'll need a computer and some experience programming. When we cover iOS, you'll need a Mac, and when we cover Windows Phone you'll need a computer with Windows on it. It's helpful if you have access to an iPhone, Android phone, and Windows Phone to run the examples on the devices where mobile apps are ultimately deployed, but the simulators or emulator versions of those phones work

great.
