Phonics for Pupils with Special Educational Needs Book 1: Building Basics Ann Sullivan, 2018-10-12
Phonics for Pupils with Special Educational Needs is a complete, structured, multisensory programme for teaching reading and spelling, making it fun and accessible for all. This fantastic seven-part resource offers a refreshingly simple approach to the teaching of phonics, alongside activities to develop auditory and visual perceptual skills. Specifically designed to meet the needs of pupils of any age with special educational needs, the books break down phonics into manageable core elements and provide a huge wealth of resources to support teachers in teaching reading and spelling. Book 1: Building Basics introduces basic sounds and explores their relationship with letters. It focuses on sounds and letters where there is a

simple 1:1 correspondence between the two, and explores the sounds in simple words that follow the pattern of vowel-consonant or consonant-vowel-consonant. Sounds are grouped into seven sets, with each set containing more than 50 engaging activities, including: sound story, dynamic blending, reading race, spot the word and spelling challenge. Thorough guidance is provided on how to deliver each activity, as well as a lesson planner template, handy word lists and posters for teachers and teaching assistants to use to support learning. Each book in the series gradually builds on children's understanding of sounds and letters and provides scaffolded support for children to learn about every sound in the English language. Offering tried and tested material which can be photocopied for each use, this is an invaluable resource to simplify phonics teaching for teachers and teaching assistants and provide fun new ways of learning phonics for all children. This book is accompanied by a companion resource, 'Phonics for Pupils with Complex SEND ', to be used alongside the Phonics for Pupils with Special Educational Needs programme. The activities from Books 1-6 of the programme are adapted to be accessible for non-verbal pupils, including AAC users, and those with physical disabilities.

Reading for Kids (and Adults!) Lynda Delo, 2011-12-21 Reading For Kids (and Adults!) is a phonics based reading program for all ages. It has over 260 pages packed full of reproducible worksheets, flashcards, and stories to develop reading skills in students. This book is designed for anyone to use to help someone learn to read. If you can speak English and read this paragraph, you have all the skills necessary to use this book. The Reading For Kids (and Adults!) beginning phonics reading program is a ten lesson, systematic approach to teaching reading. It is suitable for teaching in a tutoring situation where a teacher only spends one or two hours a week with their students or daily as in a classroom or home school. From the very first

lesson, where only five letters and their most common sounds are taught, students begin to read real text. Each lesson builds on previous lessons. The activities and reading material in each lesson includes only words and sentences from the previous lessons. This allows students to slowly build their phonetic base while reading in real context. The Reading For Kids (and Adults!) beginning phonics reading program teaches the most common sound for each of the English alphabet's twenty-six letters and covers three basic skill levels: Level A Sound-letter recognition Level B Blending, segmenting and sight words Level C Creating meaning and comprehension.

Learn to Read with Phonics Pre Reader Book 2

Sally Jones, Amanda Jones, 2013-06-13 A new revolutionary phonic reading scheme. Learn To Read With Phonics teaches reading rapidly, in as little as six months PROVEN! Children love reading about the humorous adventures of Sam and his friends and colouring in the cartoon pictures. They hardly realise that within each fun story are disguised phonic sounds. Learning to read with Guinea Pig has never been so easy or so much fun. This exciting scheme has been written by a Surrey teacher and tutor catering for the needs of the children she teaches. The scheme works well with young children starting out on reading. At the same time, it is ideal for older children who have failed to reach targets in literacy, for those who have experienced particular learning difficulties or where English is a second language. This scheme helps the student catch up fast. Pre-reader Book 1 and Book 2 are designed to start children reading

who have not done any reading before. They are a starting point for learning to read with phonics. They introduce the child to the 26 sounds of the alphabet and teaches them to build up 3 and then 4 letter words using games like snap, bingo, flip books and a sentence maker. Clear instructions are given.
