**Create Your Own Photo Book** Petra Vogt,2012-05-25 These days, photographs live on hard drives and DVDs in the company of several thousand other images, coming to light on a computer screen only for a short moment, if ever. In that respect our computer is a one-image-at-a-time exhibition of our photographic work. But as photographers, we like to print our best images, frame and show them at home or at an exhibition, or present a collection of prints in a portfolio. This book will guide you through the process of creating a printed and bound portfolio of your photographs, or even a bookstore-quality coffee table book. Learn about every step of the process, from selecting a book publishing service all the way through designing and proofing your photo book. You'll get practical advice on how to work with software provided by services such as Blurb or Viovio, and will learn about relevant concepts of book design, color management, and digital printing. *Create your Own Photo Book* is the perfect guide for the aspiring amateur photographer as well as the seasoned pro.

**The Off-Camera Flash Handbook** Vanessa Joy,2020-01-06

If your past attempts at learning flash have all ended in failure (not to mention tears and/or blind rage), then *The Off-Camera Flash Handbook* is about to change everything for you. For years, photographer Vanessa Joy has been using off-camera flash to create gorgeous portraits that look like they were shot in the most beautiful natural light at the perfect time of day. Well, guess what? That consistent look was not created thanks to the most amazing luck with the weather. No. It was created by a pro photographer who mastered her use of off-camera flash. And with her down-to-earth and practical explanations, that's exactly what Vanessa teaches you in this book.

Vanessa breaks down off-camera flash into an easy-to-understand approach, and instead of focusing on the gear and the settings (which are also included, of course), she focuses on the kinds of shots you want to make. This book is about learning to use off-camera flash easily and quickly so that you can create beautiful, natural-looking light in any situation, at any time you need it...regardless of the weather or time of day.

The book is divided into three parts. Part One covers the fundamentals of off-camera flash, and it does so without blasting you with a firehose of information. Instead, Vanessa gives you the basics you need so that you can start shooting right away without becoming overwhelmed with technical jargon.

Once you're set up and ready to go, Vanessa jumps right into Part Two with specific photo scenarios and real-world situations where you'll learn key techniques for using your flash to create consistent, beautiful photographs. For each scenario, Vanessa provides the goal for the shoot, a gear list, the step-by-step shooting instructions, and images that show both the progress of the shoot and the behind-the-scenes shots or lighting diagrams of the setup. She also discusses problems you may encounter, variations on the shot, and additional practical scenarios for each situation.

Just a few examples include:

- Recreating the golden hour at any time
- Shooting groups
- Making indoors look like outdoors
- Enhancing natural light
- Using flash at events
- Working in harsh sunlight
- Creating silhouettes
- Shooting at sunset
- Fixing an ugly-light room
- And much more

Finally, Part Three tackles the questions you'll likely have once you've got the basics under your belt and you're already creating great photos with your off-camera flash—things like high-speed sync, sync speed, a practical understanding of the inverse square law, etc. There is also a helpful FAQ section at the end of the book.

**Rage Against the Minivan** Kristen Howerton, 2020-06-09 "Howerton writes unflinchingly about what it means to be raising children in today's world and how to liberate ourselves from the myth of perfect motherhood."—Glennon Doyle, author of *Untamed* and *Love Warrior*, founder of Together Rising In this smart and subversively funny memoir, Kristen Howerton navigates the emotional and sometimes messy waters of motherhood and challenges the idea that there's a "right" way to raise kids. Recounting her successes, trials, mishaps, and hard-won wisdom, this mother of four advocates for letting go of the expectations, the guilt, and the endless race to be the perfect parent to the perfect child in the perfect family. This book is for ● the parent who loves their kids like crazy but feels like parenting is making them crazy, too ● the parent who said "I will never . . ." and now they have ● the parent who looks like they have it all together but feels like a hot mess on the inside ● the parent who looks like a hot mess on the outside, too ● the parent who asks Am I good enough? Doing enough? Doing it right? What's wrong with me? What's wrong with these children? Are they eighteen yet? With her signature blend of vulnerability, sarcasm, and insight, Howerton shares her unexpected journey from infertility to adoption to pregnancy to divorce to dealing with the shock and awe of raising teens. As a mom of a multiracial family and as a marriage and family therapist, she tackles the thorny issues parents face today, like hard conversations about racism, disciplining other people's kids, the reality of Dad Privilege, and (never) attaining that elusive work/life balance. *Rage Against the Minivan* is a permission slip to let it go and allow yourself to be a "good enough" parent, focused on raising happy, kind, loving humans.
