Gulu Real Art Studio Martina Bacigalupo,2013 This book shows a series of portraits found in the trash bin of the Gulu Real Art Studio, the oldest photographic studio in Gulu, Northern Uganda. The studio only has a machine that makes four ID images at a time, a number that most clients cannot afford, so the photographer takes single analog pictures, punches out the head with a special device, and discards the rest. In these faceless prints, one's focus shifts to the subject's individual posture and clothing, forming a typological portrayal of a community. Martina Bacigalupo also interviewed clients of Gulu, and their stories, many deeply moving, describe the political, economic, and social conditions common to contemporary East Africa.

The Art of iPhone Photography Bob Weil, Nicki Fitz-Gerald, 2013-08-21 The Art of iPhone Photography explores how 45 of today's best iPhoneographers from around the world conceived, composed, and created some of their finest and best-known pieces—all in their own words. Key features of the book include: A wide variety of styles and subjects: Landscapes, street photography, abstracts, architecture, portraits, collages, concept pieces, etc. Detailed tutorials: Example artworks from authors and contributing photographers accompanied by descriptions of how each piece was created from both a creative and technical standpoint Explanations for practical use of nearly 100 apps, including BlurFX, Camera+, Iris Photo Suite (now Laminar), Juxtaposer, Photogene2, Pixlr-o-matic, ScratchCam FX, Snapseed, Superimpose, and TouchRetouch iPhoneography gallery: A stunning showcase of works by notable iPhoneographers Always on, always at hand, and inconspicuously deployed, today's smartphones empower us to record the world in ever newer and more personal ways. By leveraging the photo-editing applications found on the iPhone, professional and amateur photographers alike are able to create not only editorial imagery, but also creative art. Nicki Fitz-Gerald and Bob Weil, at iPhoneographyCentral.com, have built a community dedicated to the burgeoning collaboration between art and technology that is iPhoneography. Their site, and now this book, offer extensive, in-depth tutorials both for budding iPhoneographers looking to advance their craft, and professionals attempting to harness a new toolkit in service of their vision. What they bring to the table is their belief that 'revealing the man behind the curtain' does not diminish the teacher. Technique does not the artist make, but it does enable the newcomer to find his or her own voice. With thousands of apps available and more flooding the market daily, every new iPhoneographer wonders, What apps should I use? The answer to that question is so complex, with so many variables, that an illustrated tutorial such as this becomes an invaluable tool. There is really nothing like it. It does not offer the advice of a single artist or showcase images from a small artistic segment. Indeed, it offers up stories, knowledge, tips, and secrets from many of the key players in the formation of this movement, showcasing more than 40 artists and tutorials and 80 pages of iPhonic art. - Daria Polichetti, Co-Founder of Los Angeles Mobile Arts Festival

The Studio Reader Mary Jane Jacob,Michelle Grabner,2010-06-15 The image of a tortured genius working in near isolation has long dominated our conceptions of the artist’s studio. Examples abound: think Jackson Pollock dripping resin on a cicada carcass in his shed in the Hamptons. But times have changed; ever since Andy Warhol declared his art space a “factory,” artists have begun to envision themselves as the leaders of production teams, and their sense of what it means to be in the studio has altered just as dramatically as their practices. The Studio Reader pulls back the curtain from the art world to reveal the real activities behind artistic production. What does it mean to be in the studio? What is the space of the studio in the artist’s practice? How do studios help artists envision their agency and, beyond that, their own lives? This forward-thinking anthology features an all-star array of contributors, ranging from Svetlana Alpers, Bruce Nauman, and Robert Storr to Daniel Buren, Carolee Schneemann, and Buzz Spector, each of whom locates the studio both spatially and conceptually—at the center of an art world that careens across institutions, markets, and disciplines. A companion for anyone engaged with the spectacular sites of art at its making, The Studio Reader reconsiders this crucial space as an actual way of being that illuminates our understanding of both artists and the world they inhabit.
