Master of Sorrows Justin Travis Call,2020-02-25 You've heard the story before: an orphaned boy, raised by a wise old man, comes to a fuller knowledge of his magic and uses it to fight the great evil threatening his world. But what if that hero were destined to become the new dark lord? The Academy of Chaenbalu has stood against magic for centuries. Hidden from the world, acting from the shadows, it trains its students to detect and retrieve magic artifacts, which it jealously guards from the misuse of others. Because magic is dangerous: something that heals can also harm, and a power that aids one person may destroy another. Of the academy's many students, only the most skilled can become avatars—warrior thieves, capable of infiltrating the most heavily guarded vaults—and only the most determined can be trusted to resist the lure of magic. More than anything, Annev de Breth wants to become one of them. But Annev carries a secret. Unlike his classmates who were stolen as infants from the capital city, Annev was born in the village of Chaenbalu, was believed to be executed, and then unknowingly raised by his parents' killers. Seventeen years later, he struggles with the burdens of a forbidden magic, a forgotten heritage, and a secret deformity. When Annev is subsequently caught between the warring ideologies of his priestly mentor and the Academy's masters, he must finally decide whether to accept the truth of who he really is ... or embrace the darker truth of what he may one day become.

Journey's End Kevin Wilson,2010-06-10 The final, climactic volume of Wilson's acclaimed bomber war trilogy. In February 1945, British and American bombers rained down thousands of tons of incendiaries on the city of Dresden, creating one of the greatest firestorms in history. Their bombs killed an estimated 25,000 people, and wiped one of the most beautiful cities in Europe from the map. The controversy that erupted shortly afterwards, and which continues to this day, has long overshadowed the other events of the bomber war, and blighted the memory of the young men who gave their lives to fight in the skies over Germany. This book neither condemns the bombing of Dresden, nor excuses it, but simply puts it in its proper context as a devastating set of raids in a much larger campaign. To the crews who flew over Germany night after night there were other much more

pressing worries: the V2 rockets that threatened their loved ones at home, the brand new German jet fighters that could strike them at speeds of over 600mph, the deadly flak over the cities of the Ruhr Valley. The bomber war had entered its final unforgiving months, and no quarter was given on either side. Kevin Wilson has interviewed over a hundred people for this book, some of whom flew on the Dresden raids, and many more who experienced other aspects of bombing, both in the air and on the ground. JOURNEY'S END chronicles the brutal endgame of a conflict that caused devastation and tragedy on both sides.

Drawing on his years of experience at the heart of New Labour he gives us his unique perspective on how best to understand the electorate, how to communicate policy and how to adapt in a rapidly changing world.

Contact Warhol Peggy Phelan,Richard Meyer,2018-10-23 Andy Warhol's daily practice of photography during the last decade of his life, examined and documented for the first time. “A picture means I know where I was every minute. That's why I take pictures.” —Andy Warhol From 1976 until his death in 1987, Andy Warhol was never without his camera. He snapped photos at discos, dinner parties, flea markets, and wrestling matches. Friends, boyfriends, business associates, socialites, celebrities, passers by: all captured Warhol's attention—at least for the moment he looked through the lens. In a way, Warhol's daily photography practice anticipated our current smart phone habits—our need to record our friends, our families, and our food. Warhol printed only about 17 percent of the 130,000 exposures he left on contact sheets. In 2014, Stanford's Cantor Center for the Arts acquired the 3,600 contact sheets from the Warhol Foundation. This book examines and documents for the first time these contact sheets and photographs—Warhol's final body of work Peggy Phelan and Richard Meyer analyze the contact sheets, never before seen, and their importance in Warhol's oeuvre. Accompanying their text and other essays are reproductions of contact sheets, photographs, and other visual material. The contact sheets present Warhol's point of view, unedited; we know where he was every minute because a photograph remembers it. Copublished with the Cantor Arts Center
