Professional Image Editing Made Easy with Affinity Photo Jeremy Hazel, 2023-05-31 Utilize Jeremy Hazel's vast Affinity Photo expertise to confidently solve problems in your photo edits by understanding the workflow structure and arming yourself with the most effective photo editing techniques in Affinity Photo Key Features Learn to use masking, selection, brushes, blend mode, and color tools in the photo editing workflow Unveil advanced personas used in the editing pipeline like tone mapping, liquification, and more Create your own brushes and build your artistic pallet in Affinity Photo Book Description In this book, you'll explore the Affinity Photo program through practice-based learning as you make popular photo edits, learning the tools and techniques in conjunction with the workflow concept. Instead of comprehensive description of the tools, you'll learn through practical application and understand why they work, not just how they work. This is neither a technical manual nor a workbook but a project-based hybrid approach that provides a deeper understanding of how to use each tool to achieve your goal. Starting with the fundamentals of navigating the interface, understanding layers, and making your first edit, this Affinity Photo book gradually increases the complexity of projects. You'll go from single-layer edits, composites, and RAW development to putting together a complex composition using the tools that you've learned along the way. Additionally, you'll learn the best practices used by expert photo editors for a flawless finish. By the end of this book, you'll have a good body of work, be able to evaluate the edits you want to make, and achieve desired results with Affinity Photo. What you will learn Develop a repeatable methodology for use in your photo editing style Understand the most frequently utilized techniques by professional editors Compete a body of work for use and reference in future projects Develop your own libraries of assets, macros and tone mapping presets for your style Recreate popular editing styles utilized in print and film Recondition older family photos Understand and deconstruct other editing styles to expand your knowledge Who this book is for If you are a beginner to any form of photo editing or are a Photoshop user switching from Adobe, this book is for you. This book is also for small business owners who want to do brand-specific editing on stock photos but have limited experience in photo editing. Beginner-level editors, photographers, and people looking to get into product photography and advertising will be able to make the most out of this book.

Photoshop Elements 6: The Missing Manual Barbara Brundage, 2007-10-23 With Photoshop Elements 6, the most popular photo-editing program on Earth just keeps getting better. It's perfect for scrapbooking, email-ready slideshows, Web galleries, you name it. But knowing what to do and when is tricky. That's why our Missing Manual is the bestselling book on the topic. This fully revised guide explains not only how the tools and commands work, but when to use them. Photoshop Elements 6 is packed with new features. You get a new Quick Edit function, Windows Vista compatibility, improved RAW conversion, a handy Quick Selection Tool, and more. In fact, there's so much to the latest version that it can be quite confusing at times. Photoshop Elements 6: The Missing Manual carefully explains every feature the program has to offer by putting each one into a clear, easy-to-understand context -- something no other book does! Learn to import, organize, and fix photos quickly and easily. Repair and restore old and damaged photos, and retouch any image. Jazz up your pictures with dozens of filters, frames, and special effects. Learn which tools the pros use -- you'll finally understand how layers work! Create collages and photo layout pages for greeting cards and other projects. Get downloadable practice images and try new tricks right away. This guide progresses from simple to complex features, but if you're ready for the more sophisticated tools, you can easily jump around to learn specific techniques. As always, author Barbara Brundage lets you know which Elements features work well, which don't, and why -- all with a bit of wit and good humor. Don't hesitate.
