Spy ,1989-08 Smart. Funny. Fearless.It's pretty safe to say that Spy was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented --Dave Eggers. It's a piece of garbage --Donald Trump.

Police Pictures Sandra S. Phillips,Mark Haworth-Booth,Carol Squiers,1997 From pictures of Lincoln's assassins to Weegee's blood-drenched murder victims, this book explores both the manipulation of images and the policing function of photography. Published in conjunction with the San Francisco Museum of Modern Art fall 1997 exhibition, Police Pictures challenges the ability of image to represent truth.

Photo Forensics Hany Farid,2019-02-26 The first comprehensive and detailed presentation of techniques for authenticating digital images. Photographs have been doctored since photography was invented. Dictators have erased people from photographs and from history. Politicians have manipulated photos for short-term political gain. Altering photographs in the predigital era required time-consuming darkroom work. Today, powerful and low-cost digital technology makes it relatively easy to alter digital images, and the resulting fakes are difficult to detect. The field of photo forensics—pioneered in Hany Farid's lab at Dartmouth College—restores some trust to photography. In this book, Farid describes techniques that can be used to authenticate photos. He provides the intuition and background as well as the mathematical and algorithmic details needed to understand, implement, and utilize a variety of photo forensic techniques. Farid traces the entire imaging pipeline. He begins with the physics and geometry of the interaction of light with the physical world, proceeds through the way light passes through a camera lens, the conversion of light to pixel values in the electronic sensor, the packaging of the pixel values into a digital image file, and the pixel-level artifacts introduced by photo-editing software. Modeling the path of light during image creation reveals physical, geometric, and statistical regularities that are disrupted during the creation of a fake. Various forensic techniques exploit these irregularities to detect traces of tampering. A chapter of case studies examines the authenticity of viral video and famously questionable photographs including “Golden Eagle Snatches Kid” and the Lee Harvey Oswald backyard photo.

Geotag your photos and map your contacts Download a list of photos and make a contact sheet Make your own Flickr-style tag cloud to visualize the frequency of common tags Build a color picker with a dynamic color wheel of Flickr photos Feed photos to your web site and subscribe to custom Flickr feeds using RSS Talk to the Flickr API using your web browser, Perl, or PHP; authenticate yourself and other users; and build custom API applications

Born in Brooklyn... . Raised in the Cav! John E. Flanagan,2002-02-15 Heres about the book: Twenty-one years after leaving Vietnam for the first time, the author attends a reunion of former pilots who flew helicopters in Vietnam. Reuniting with his classmates and some of his fellow pilots he flew with in Vietnam brings back a rush of memories and stories of times past. The following years reunions build on the first as more and more of the pilots he served with are reunited. The reunions stir memories and deeds of times past are recounted in a steady stream of war stories. He soon realizes that he doesnt want these stories -- these war stories -- lost and decides to write them down before he forgets the details. As the stories unfold more memories come back and he records them too. His intent was not to document the history of the US involvement in the Vietnam War, nor be a definitive history of the famous B Troop 1st Squadron, 9th US Cavalry Regiment. His intent was to record his personal memory of the events some 30 plus years ago from his perspective. He talks about growing up in Brooklyn, living in his grandmothers house on 40th Street, his gang of friends from Saint Michaels Church, and of the events that led to his decision to volunteer for the draft. Tracing the draft process he tells of narrowly avoiding being drafted in the Marine Corps. He continues to tell the story of his journey through the armys classification and assignment system that results with him being selected for helicopter pilot training. The life of a warrant officer candidate presented a number of challenges that needed to be overcome if his plan to beat the army system was to be realized. He tells of some of the more interesting incidents in his flight training and preparation for combat. Things changed after earning his wings and arriving in Vietnam. Somewhere along the line the reality of the situation presents itself and John volunteers for the famous reconnaissance squadron of the 1st Cavalry Division. The 1st of the 9th was known for its ferocity in combat and its high casualty rate especially among flight crews. History records that this single unit was responsible for a large percentage of the entire divisions enemy kills. His description of some of the sights and sounds of life in B Troop will surely remind other veterans of their time in Vietnam. He will certainly stir the memories of others that served in the air cavalry and perhaps even others who were supported by them. The stories are real. The people are real. John Flanagan writes them, as he would tell them to you in person. Sometimes funny, sometimes serious, sometimes rambling, sometimes clearly, but always truthfully and as he remembers them. The result of these writings are Born in Brooklyn - Raised in the Cav. The Aviation Museum at Fort Rucker Alabama, the 1st Cavalry Museum at Fort Hood Texas, keeps this book in stock. A reviewer said: I learned to better appreciate the Army helo pilot, January 30, 2004 Reviewer: E M from san diego, ca USA Well, it certainly is a long journey from the dreary streets of Brooklyn to the miserable and dangerous fields and skies of Viet Nam at war. Major Flanagan has travelled this route and shares his adventure with the reader. He is a real American hero... as are all his brethren flying warrant officers. Yet he tells his story without bravado or arrogance. He is simply telling the story of his experience in Viet Nam as a young 19 year old plucked from the streets of Brooklyn and injected into the chaos of war . He writes of his training as well as his wartime experiences. Often his enemy was the weather as much as the NVA on the ground. Major Flanagan writes in a simple, readable style without pretension; his memories are direct, straightforward and sprinkled with a dash of Irish wit and humor. If one wants to know the life of an Army helo pilot on the front lines of the Viet Nam war, this is a book to read. Beyond the daily life of the helo pilot, we also learn
