James R. Dylan

**Photobooth** Babbette Hines,2002-09 In 1925 Siberian immigrant Anatol Josepho had an idea for a curtain-enclosed booth where people could take affordable portraits anonymously and automatically. The photobooth was born. This book presents over 700 photobooth pictures from the last 75 years, a portrait of everyday people and a testament to the ongoing fascination with both the process and the result.

<u>Photobooth</u> Meags Fitzgerald,2014 For almost a century chemical photobooths have occupied public spaces; giving people the opportunity to quickly take inexpensive, quality photos. In the last decade these machines have started to rapidly disappear, causing an eclectic group of individuals from around the world to come together and respond. Illustrator, writer and long-time photobooth lover, Meags Fitzgerald has chronicled this movement and the photobooth's fortuitous history in a graphic novel. Having traveled in North America, Europe and Australia, she's constructed a biography of the booth through the eyes of technicians, owners, collectors, artists and fanatics. Fitzgerald explores her own struggle with her relationship to these fleeting machines, while looking to the future.

American Runway Booth Moore, Council of Fashion Designers of America, 2018-02-06 New York Fashion Week has served many purposes throughout its long history, but it has always remained at the center of the American fashion world. During World War II, Fashion Week challenged the dominance of French couture; in the 1970s and 1980s, it was a showcase for American sportswear stars who became household names; in the 2000s, it was the stage for celebrity designers using the runway as a vehicle for entertainment; and now, it is the place to see and be seen by contemporary reality TV and social media stars. Now, this illustrious history is told as it's never been told before, in a book packed with designer interviews, backstage ephemera, and exclusive photographs culled from all 75 years of New York Fashion Week. Part historical overview, part scrapbook, and part fashion-industry field guide, American Runway will bring to life the people, places, and over-the-top

runway productions of New York Fashion Week—and will sate the appetites of die-hard fashion fans and casual fashionistas alike.

Carnival Strippers Susan Meiselas, Deirdre English, Sylvia Wolf, 2003 From 1972 to 1975, Susan Meiselas spent her summers photographing and interviewing women who performed striptease for smalltown carnivals in New England, Pennsylvania and South Carolina. As she followed the girl shows from town to town, she portrayed the dancers on stage and off, photographing their public performances as well as their private lives. She also taped interviews with the dancers, their boyfriends, the show managers and paying customers. Meiselas' frank description of the lives of these women brought a hidden world to public attention. Produced during the early years of the women's movement, Carnival Strippers reflects the struggle for identity and selfesteem that characterized a complex era of change. This revised edition contains a new selection of Meiselas' black-and-white photographs together with the original interview excerpts. Additionally, an audio CD featuring a collage of participants' voices and a 1977 interview with the photographer are included. Essays by Sylvia Wolf and Deirdre English reflect on the importance of this body of work within the history of photography and the history of feminism.

American Photobooth Nakki Goranin, 2008-01-29 A fascinating history of an

American institution that includes an extraordinary collection of photobooth images. "That a perceptive, dedicated, and sensitive artist like Näkki Goranin has rescued from oblivion so many amazing self-portraits created by amateurs confronting themselves in the fleeting privacy of humble photobooths is yet another miracle for which we can be grateful."—from the foreword by David Haberstich Generally relegated to the realm of kitsch, the history and cultural importance of the photobooth has long been overlooked. Here, Näkki Goranin documents the invention, technological evolution, and commercial history of the photobooth with extensive illustrations culled from twentyfive years of collecting. Complementing this history is a powerful collection of heartbreaking, funny, and absolutely beautiful photobooth images. These often solitary figures—seeking freedom, confession, a thrill—are evocative of a lost time and place. Haberstich writes, "For anyone who assumes that photobooth pictures are perfunctory, utilitarian records at best, the range of emotions and moods portrayed by the subjects of [this] collection is a revelation."

<u>Hilhaven Lodge</u>, 2003 Red-hot Hollywood director Brett Ratner (Rush Hour I and II, Red Dragon and the forthcoming Superman), lives in Ingrid Bergram's old Hillhaven Lodge, where he houses his old-fashioned b/w photo booth. Into this booth Ratner has enticed a cornucopia of white-hot celebrities, personalities and legends, all of whom voluntarily vogued, posed and made silly faces without the help of stylists and makeup artist. The result is a

hilarious and revealing look at such people as Michael Jackson, Britney Spears, Liv Tyler, Colin Farrell, Mariah Carey, Edward Norton and Salmay Hayek and more.

A Gust of Photo-Philia Alexandra Moschovi,2020-12-15 The first transnational history of photography's accommodation in the art museum Photography was long regarded as a "middle-brow" art by the art institution. Yet, at the turn of the millennium, it became the hot, global art of our time. In this book—part institutional history, part account of shifting photographic theories and practices—Alexandra Moschovi tells the story of photography's accommodation in and as contemporary art in the art museum. Archival research of key exhibitions and the contrasting collecting policies of MoMA, Tate, the Guggenheim, the V&A, and the Centre Pompidou offer new insights into how art as photography and photography as art have been collected and exhibited since the 1930s. Moschovi argues that this accommodation not only changed photography's status in art, culture, and society, but also played a significant role in the rebranding of the art museum as a cultural and social site.

The Photograph Graham Clarke,1997 In this rich and fascinating work, Clarke gives a clear and incisive account of the photograph's historical development, elucidating the insights of the most engaging thinkers on the subject, including Roland Barthes and Susan Sontag. Snapshot Photography Catherine Zuromskis, 2021-08-24 An examination of the contradictions within a form of expression that is both public and private, specific and abstract, conventional and countercultural. Snapshots capture everyday occasions. Taken by amateur photographers with simple point-andshoot cameras, snapshots often commemorate something that is private and personal; yet they also reflect widely held cultural conventions. The poses may be formulaic, but a photograph of loved ones can evoke a deep affective response. In Snapshot Photography, Catherine Zuromskis examines the development of a form of visual expression that is both public and private. Scholars of art and culture tend to discount snapshot photography; it is too ubiquitous, too unremarkable, too personal. Zuromskis argues for its significance. Snapshot photographers, she contends, are not so much creating spontaneous records of their lives as they are participating in a prescriptive cultural ritual. A snapshot is not only a record of interpersonal intimacy but also a means of linking private symbols of

domestic harmony to public ideas of social conformity. Through a series of case studies, Zuromskis explores the social life of snapshot photography in the United States in the latter half of the twentieth century. She examines the treatment of snapshot photography in the 2002 film One Hour Photo and in the television crime drama Law and Order: Special Victims Unit; the growing interest of collectors and museum curators in "vintage" snapshots; and the "snapshot aesthetic" of Andy Warhol and Nan Goldin. She finds that Warhol's photographs of the Factory community and Goldin's intense and intimate photographs of friends and family use the conventions of the snapshot to celebrate an alternate version of "family values." In today's digital age, snapshot photography has become even more ubiquitous and ephemeral—and, significantly, more public. But buried within snapshot photography's mythic construction, Zuromskis argues, is a site of democratic possibility.

Photography's Last Century Jeff L. Rosenheim, 2020-03-09 Beginning with Paul Strand's landmark From the Viaduct in 1916 and continuing through the present day, Photography's Last Century examines defining moments in the history of the medium. Featuring nearly 100 masterworks from one of the most important private holdings of photography, the book includes works by Diane Arbus, Richard Avedon, Walker Evans, László Moholy-Nagy, Man Ray, and Cindy Sherman, as well as a diverse group of important lesser-known practitioners. A fascinating interview with Ann Tenenbaum provides a personal account of the works, while the main text offers an essential history of photography that

addresses the implications of calling this period the medium's "last" century.

<u>Creating Mood & Special Effects</u> Luis E. Gonzalez,2012-07-25 Creating special effects adds another dimension to any photographic project. Here you can add backgrounds, alter the position of the main subject and offer your viewers a perspective to which they may not be used to seeing. It gives them a different way of looking at a subject.

Making the Modern Turkish Citizen Özge Baykan Calafato, 2022-01-27 Featuring over 100 colour images, this book explores the photographic selfrepresentations of the urban middle classes in Turkey in the 1920s and the 1930s. Examining the relationship between photography and gender, body, space as well as materiality and language, its six chapters explore how the production and circulation of vernacular photographs contributed to the making of the modern Turkish citizen in the formative years of the Turkish Republic, when nation-building, secularization and modernization reforms took centre stage. Based on an extensive photographic archive, the book shows that individuals actively reproduced, circulated and negotiated the ideal citizenimage imposed by the Kemalist regime, reflecting not only state-imposed directives but also their class aspirations and other, wider social and cultural developments of the period, from Western fashion trends and movies to the increasing availability of modern consumer items. Calafato also reveals that the freedom from state control afforded by personal cameras

allowed the desired image to be sometimes tweaked by incorporating elements from Ottoman and Turkic traditions, by pushing the boundaries of gender norms or by introducing playfulness. Making the Modern Turkish Citizen offers a valuable portrait of the ongoing political and social changes on the lives of the Turkish middle class, and of how they saw and wanted to present themselves, privately and publicly.

Photography Liz Wells, 2000 Surveying the spectrum of photography from the mid-nineteenth century to the present, Photography: A Critical Introductionis the first book to examine key debates in photographic theory and place them in their proper social and political contexts. While most histories of photography invariably focus on the works of the great photographers, this book is written especially to provide a coherent introduction to the nature of photographic seeing and its personal and cultural significance through history. Contributors lucidly examine a range of major photographic theories, histories, genres and issues, covering such topics as key debates in photographic theory and history; documentary photography and photojournalism; personal and popular photography; photography and commodity culture; photography and the human body; photography as art; and photography in the age of electronic imaging. This completely revised and updated second edition includes detailed case studies; key references, biographies of key thinkers, and margin notes; a full glossary of terms, comprehensive end-of-chapter bibliographies, and resource information, including guides to public archives

and useful web sites. The lavish illustrations include images by Bill Brandt, Lee Friedlander, Hannah Hoch, Roshini Kempadoo, Dorothea Lange, Lee Miller, Alexander Rodchenko, Jacob Riis, Sebastio Salgado, Andres Serrano and Jo Spence.
