Photo-editing and Presentation Douglas Holleley, 2009 This book introduces photographers, print-makers, and other graphic artists to the creative possibilities of image editing and presentation. The focus is on how meaning can be created and shaped if the emphasis is placed on the totality of the visual experience rather than by looking at each single image in isolation. In the first instance, there is a discussion of a variety of ways images can be grouped together. This act has implications for how the work should subsequently be presented. To this end there is a discussion of various presentation techniques, and how each different forum can further amplify the desired effect. Finally there is a hands-on look at a variety of presentation techniques such as artist book publishing, exhibition design and portfolio construction that will help the reader to present his or her work in a professional manner. By employing the principles outlined in this book readers can expect that the content of their work will be more coherent and accessible, not only to an audience, but also more

importantly to themselves. Douglas Holleley PhD is the author of the critically acclaimed Digital Book Design and Publishing, a widely used text on the subject of self-publishing. In the Limelight Steve Eichner, Gabriel Sanchez, 2020-10-20 Dive into the 1990s New York club scene with never-before-seen photos by its most prolific photographer, Steve Eichner. Eichner was a fixture of 1990s New York City nightlife and served as both its official and unofficial photographer in an era before cellphones and selfies. In this book, readers go beyond the velvet ropes and into the

spaces that witnessed some of the decade's most incredible and sought-after parties. Previously unpublished, these intoxicating full-color photographs capture the over-the-top costumes, non-stop dancing, glitter, confetti, sex, drugs, and music that made 90s New York unlike any other place. Celebrities abound, from Leonardo DiCaprio, Dennis Hopper, and Tupac to Joan Rivers, Michael Musto, and Donald Trump. Eichner takes you to many of the city's hot spots, including the Limelight, the Tunnel, Webster Hall, Club Expo, and Club USA. Texts by famous club owner Peter Gatien and BuzzFeed photo essay editor Gabriel H. Sanchez offer a historic and cultural perspective on an era when New York City was more affordable and every night saw artists, bankers, drag queens, musicians, and poets reveling together.

Focus On Composing Photos Peter Ensenberger, 2013-04-17 As digital cameras and software packages become more advanced, seemingly by the minute, it has become easier than ever to overlook the basic elements which have always resulted in the best photographs, no matter how fancy (or primitive) the camera itself. Composition is the single most important aspect of creating great images, no matter what level of photographer you happen to be. No amount of digital wizardry can turn a badly composed image into a picture you would want to display. While many books on composition tend to overcomplicate the subject, this book breaks down everything you need to know into small, digestible chunks of information that you will actually remember once you're out and about taking pictures. Instead of plodding through long and complex pages of text, this book supplements the necessary information, such as the basics of the rule of thirds and how to get good highlights and shadows, with tons of gorgeous, full color images that actually show you what to do and how to do it, rather than just telling you what to try. You'll be amazed at the gorgeous images you'll create, whether your passion is for photographing your family, pets, travel adventures, nature, or anything

else.
