Isamu Noguchi S Modernism Amy Lyford,2013-06-08 In a study that combines archival research, a firm grounding in the historical context, biographical analysis, and sustained attention to specific works of art, Amy Lyford provides an account of Isamu Noguchi's work between 1930 and 1950 and situates him among other artists who found it necessary to negotiate the issues of race and national identity. In particular, Lyford explores Noguchi's sense of his art as a form of social activism and a means of struggling against stereotypes of race, ethnicity, and national identity. Ultimately, the aesthetics and rhetoric of American modernism in this period both energized Noguchi's artistic

production and constrained his public reputation--

Eyes on Labor Carol Quirke, 2012-08-30 *Eyes on Labor* narrates an essential chapter in American cultural history, offering a fascinating broad-stroke history of the relationship of photography to the complex and troubled history of 20th-century labor and unionization movements.

Beyond Memory Diane Neumaier, 2004 Photography possesses a powerful ability to bear witness, aid remembrance, shape, and even alter recollection. In *Beyond Memory: Soviet Nonconformist Photography and Photo-Related Works of Art*, the general editor, Diane Neumaier, and twenty-three contributors offer a rigorous examination of the medium's role in late Soviet unofficial art. Focusing on the period between the mid-1950s and the late 1980s, they explore artists' unusually inventive and resourceful uses of photography within a highly developed Soviet dissident culture. During this time, lack of high-quality photographic materials, complimented by tremendous creative impulses, prompted artists to explore experimental photo-processes such as camera and darkroom manipulations, photomontage, and hand-coloring. Photography also took on a provocative array of forms including photo installation, artist-made samizdat (self-published) books, photo-realist painting, and many other surprising applications of the flexible medium. *Beyond Memory* shows how innovative conceptual moves and approaches to form and content--echoes of Soviet society's coded communication and a Russian sense of absurdity--were common in the Soviet cultural underground.

Collectively, the works in this anthology demonstrate how late-Soviet artists employed irony and invention to make positive use of difficult circumstances. In the process, the volume illuminates the multiple characters of photography itself and highlights the leading role that the medium has come to play in the international art world today. Beyond Memory stands on its own as a rigorous examination of photography's place in late Soviet unofficial art, while also serving as a supplement to the traveling exhibition of the same title.

Complete Guide to Digital Photo Editing Jesse L. Miller, Mark Zimmerman, 2014-12-15 Guide to Digital Photo Editing

Varvara Stepanova, the Complete Work Aleksandr Nikolaevich Lavrent'ev, Varvara Fedorovna Stepanova, 1988 In this first extensive study of her life and work, Varvara Stepanova (1894-1958) emerges as a remarkable artist whose versatility, energy, and contribution to the Russian avant-garde matched and in some cases exceeded that of her husband, Alexander Rodchenko. The book is written and designed by Aleksander Lavrentiev, who is the grandson of Rodchenko and Stepanova and the curator of their archive. Lavrentiev's text is accompanied by excerpts from Stepanova's own diary, with its fresh insights and lively commentary on Soviet art, and a memoir by her daughter. But the real discovery is the 370 illustrations - 45 in color - nearly all of which are published here for the first time, which reveal an artist startling in her accomplishments. Like Rodchenko, Stepanova was among the founders of Constructivism, a contributor to the famous Moscow 5 x 5 = 25 exhibition held in 1921, and significant in shaping

Russian's visual culture during the turbulent years following the revolution. Lavrentiev covers every aspect of Stepanova's production against the complex background of the period. The comments in the little oilskin notebook that she kept almost continuously during the 1920s keenly revive the events of the time; the illustrations allow us to discover and enjoy the wide range of Stepanova's talents as expressed in paintings and geometric constructions, sets and costumes, fashion designs, posters, and typography. John Bowlit, who has edited the text and written a critical introduction to the book, is a leading authority and well-known writer on Russian art and culture. He is Director of the Institute of Modern Russian Culture at the University of Southern California.

Photomontage (Second) (World of Art) Dawn Ades, 2021-10-05 A fully updated new edition of this classic in-depth study of the pioneering art form of photomontage by renowned art historian Dawn Ades. Manipulation of the photograph is as old as photography itself. It has embodied and enlivened political propaganda, satire, and commercial art and helped visualize the "brave new world" of the future through surreal and fantastic images. Photomontage has been embraced by artists from the late nineteenth century to today, including the Dadaists, John Heartfield, El Lissitzky, Hannah Höch, and Alexander Rodchenko. In this updated classic, art historian Dawn Ades addresses the aesthetic, social, and historical implications of the varied manifestations and uses of manipulated photographs. Revered by artists, critics, and readers alike, this new

edition is brought up-to-date to reflect technological developments and changes in visual culture, discussing the work of contemporary artists Kathy Bruce, Linder, Cold War Steve, and others. Photomontage also includes refreshed image reproductions as well as new full-color illustrations.
