Hard to Say Yes Heather Young-Nichols, 2021-10-15 I've been burned one too many times. Fresh off a breakup with a man I was supposed to want and I have no interest in trying that again. While other people my age are graduating from college and starting their careers, I've been working since I

was a teen and raising my son. Even with the most engaged co-parent, things have never been easy. When Tegan Schwartz moves to town and shows his interest in me, I immediately push him away. There's no space in my life for another man who wants me but doesn't really love me. I've dealt with that since I was fourteen. No thanks. But Tegan is relentless, insisting he isn't like the others. I've fallen for that before, too. Still, he doesn't give up and begins to weasel his way into my life. Even with the small progress, I keep him far away from my son. Until it's clear our feelings are growing and I have to decide if I can merge my two lives. Can I risk my heart one last time or will I lose Tegan forever? _____

Palaces of Pleasure Lee Jackson, 2019-06-25 An energetic and exhilarating account of the Victorian entertainment industry, its extraordinary success and enduring impact The Victorians invented mass entertainment. As the nineteenth century's growing industrialized class acquired the funds and the free time to pursue leisure activities, their every whim was satisfied by entrepreneurs building new venues for popular amusement. Contrary to their reputation as dour, buttoned-up prudes, the Victorians reveled in these newly created 'palaces of pleasure'. In this vivid, captivating book, Lee Jackson charts the rise of well-known institutions such as gin palaces, music halls, seaside resorts and football clubs, as well as the more peculiar attractions of the pleasure garden and

international exposition, ranging from parachuting monkeys and human zoos to theme park thrill rides. He explores how vibrant mass entertainment came to dominate leisure time and how the attempts of religious groups and secular improvers to curb 'immorality' in the pub, variety theater and dance hall faltered in the face of commercial success. The Victorians' unbounded love of leisure created a nationally significant and influential economic force: the modern entertainment industry.

Product Experience Hendrik N. J. Schifferstein, Paul Hekkert, 2011-04-28 *Product Experience* brings together research that investigates how people experience products: durable, non-durable, or virtual. In contrast to other books, the present book takes a very broad, possibly all-inclusive perspective, on how people experience products. It thereby bridges gaps between several areas within psychology (e.g. perception, cognition, emotion) and links these areas to more applied areas of science, such as product design, human-computer interaction and marketing. The field of product experience research will include some of the research from four areas: Arts, Ergonomics, Technology, and Marketing. Traditionally, each of these four fields seems to have a natural emphasis on the human (ergonomics and marketing), the product (technology) or the experience (arts). However, to fully understand human product experience, we need to use different approaches and we need to build bridges between these various fields of expertise. Most comprehensive collection of psychological research behind product design and usability Consistently addresses the 3 components of human-product experience: the human, the product, and the experience International contributions from experts in the field
