The Friday Pilots Don Shepperd,2014-11-10 This is a book of first-person stories written by old pilots, those who flew the old airplanes in the old air force. These are personal stories of growing up in a different America, their lives before political correctness, back when airplanes were dangerous but flying was fun. The group calls themselves the Friday Pilots. They gather at McMahon's Prime Steakhouse in Tucson, Arizona, every Friday for lunch. There are those who finished careers as generals and colonels and majors and captains and even first lieutenants. They laugh. They exchange stories, some true. They have become legends in their own minds. There are fighter pilots, bomber pilots, airline pilots, corporate pilots, and astronauts. They have run large companies and been on boards. They have been rich and they have been poor. They have landed gear up and gear down. They have ridden huge rockets into space. They have crashed and burned. They have been to war. They have been blown from the skies, have run through jungles, and have parachuted into oceans. They have been captured and imprisoned as POWs and horribly tortured. There are heroes at the table, but none will admit it. They will tell you they have flown with those who were. It seems everyone talks about writing a book. The Friday Pilots have done something few do: they have written their stories for their families and friends. Strap in, hold on, and enjoy the ride!

The Happy Bottom Riding Club Lauren Kessler,2000-05-23 Pancho Barnes was a force of nature, a woman who lived a big, messy, colorful, unconventional life. She ran through three fortunes, four husbands, and countless lovers. She outflew Amelia Earhart, outsmarted Howard Hughes, outdrank the Mexican Army, and out- maneuvered the U.S. government. In The Happy Bottom Riding Club, award-winning author Lauren Kessler tells the story of a high-spirited, headstrong woman who was proud of her successes, unabashed by her failures, and the architect of her own legend. Florence Pancho Barnes was a California heiress who inherited a love of flying from her grandfather, a pioneer balloonist in the Civil War. Faced with a future of domesticity and upper-crust pretensions, she ran away from her responsibilities as wife and mother to create her own life. She cruised South America. She trekked through Mexico astride a burro. She hitchhiked halfway across the United States. Then, in the late 1920s, she took to the skies, one of a handful of female pilots. She was a barnstormer, a racer, a cross-country flier, and a Hollywood stunt pilot. She was, for a time, the fastest woman on earth, flying the fastest civilian airplane in the world. She was an intimate of movie stars, a script doctor for the great director Erich von Stroheim, and, later in life, a drinking buddy of the supersonic jet jockey Chuck Yeager. She ran a wild and wildly successful desert watering hole known as the Happy Bottom Riding Club, the raucous bar and grill depicted in The Right Stuff. In The Happy Bottom Riding Club, Lauren Kessler presents a portrait, both authoritative and affectionate, of a woman who didn't play by women's rules, a woman of large appetites--emotional, financial, and sexual--who called herself the greatest conversation piece that ever existed.

The Pilot's Wife Anita Shreve,2015-06-09 Anita Shreve's hauntingly beautiful #1 bestseller and Oprah's Book Club selection about tragedy, grief, betrayal, and the 'impossibility of knowing another person.' As a pilot's wife, Kathryn has learned to expect both intense exhilaration and long periods alone, but nothing has prepared her for a late-night knock that lets her know her husband has died in a crash. Until now, Kathryn Lyons's life has been peaceful if unextraordinary: a satisfying job teaching high school in the New England mill town of her childhood; a picture-perfect home by the ocean; a precocious, independent-minded fifteen-year-old daughter; and a happy marriage whose occasional dull passages she attributes to the unavoidable deadening of time. As Kathryn struggles with her grief, she descends into a maelstrom of publicity stirred up by the modern hunger for the details of tragedy. Even before the plane is located in waters off the Irish coast, the relentless scrutiny of her husband's life begins to bring a bizarre personal mystery into focus. Could there be any truth to the increasingly disturbing rumors that he had a secret life?

The Goldfish Club Danny Danziger,2012-04-12 Mayday. Mayday. Mayday . . . Every member of the Goldfish Club has been forced to broadcast these terrifying words from a stricken aircraft, making them one of the most unusual fellowships in the world. Formed during the Second World War to foster comradeship among pilots who had been forced to bail out over water, the Goldfish Club has taken on new airmen (and one woman) ever since and there are hundreds of tales to be told. All are different. All are utterly gripping. Award winning journalist and author Danny Danziger has brought together some of the most powerful stories of this extraordinary brotherhood. A few will leave you open-mouthed, others may reduce you to tears, but all are a fascinating testament to the resilience of the human spirit.

Becoming a Cfi Radek Wyrzykowski,2021-04-15 This book identifies the key psychological elements of flight instruction and the importance of their use in practice. It is written with all aviation enthusiasts in mind. It is for those pilots who already provide flight instruction and would like to take it to the next level or for those in training to be flight instructors. It is also for student pilots who want to see what they should expect from their flight instructor and everybody who wants to see what flight instruction is about. Based on the scientific study of student behavior and the author's 20 years of experience as a CFI. The "Becoming a CFI" offers practical advice to identify the critical elements in effective aviation education. It also analyzes Fundamentals of Instructing by focusing on those elements which are crucial to understand and use. Author and aviation educator Radek Wyrzykowski provides rare insights into the process of flight instruction by using his real-life experiences and actions over the years, from his student pilot certificate through becoming a Chief Flight Instructor for one of the large flight schools in the northeast.

J.A.P. EDWARD LANDERS,2013-12 JAP is a story about a young man who somehow, through a series of accidents intentions, mistakes and drive became a Naval Aviator, no mean feat by any accounts. Having survived the grim reaper several times during his eight years of flying on active duty with the Navy he has come to believe, sort of, that he is a good aviator and can take care of just about anything that arises in the realm of flying. He has disgustedly left active duty flying with the Navy as the result of witnessing inept officers who should never have made the grade continue to fly and serve without any leadership skills or command authority amounting to anything effective. Most of them were, in the young man's opinion, timid beings who were only concerned with keeping their status quo resulting in their refusal to make decisions let alone lead in any forward power projections. His decision to leave the Navy and throw his lot in with the airline pilot's career was based on his perception that an airline captain just had to be made of stronger stuff. That idea was also doomed to an early failure when he actually started to fly with the pilots who make up the airborne operation of the airline. He found the same weaknesses on the part of the airline pilots that he had witnessed in the Navy pilots he had flown with. Still struggling to find perfection the young man (named Kruger in the book) tries flying with the Naval Reserve pilots only to find, once more, that those pilots were even worse than the two groups that he had flown with earlier. Kruger's worst

nightmare finally comes to pass when he finds himself making some bad mistakes and decisions just like all of the other pilots he has ever encountered. He has become a JAP or just another pilot like all of the others. In spite of all of the disappointments he encounters he still has fun and fulfillment flying and is convinced that he could really do no job other than flying. Flying has always been described as hours and hours of boredom punctuated by moments of stark terror. Kruger's experiences follow that pattern except the boring hours are interesting also. Kruger had always considered that the most exhilarating and exciting time you could ever experience was when you were right on the dangerous edge of things; when you had less than a fifty percent chance of surviving the situation you were in and when you finally came out on top, alive and well albeit that your heart was trying to go into tachycardia and your breathing could only be described as panting. There is no rush better than this. There are no punches pulled in the book. The author tells it like it really was without cutting corners or glossing over the facts. It is what it was. People are people and no one is perfect. We all have warts no matter how good we look and usually the ones who boast the most and are the models of perfection are the ones who have the most faults. As the Bible says, Judge not least ye be judged. Kruger finds that to be very true and, as a result he mulls each flight in his mind in an effort to try to perfect what he has just done. There are no heroes in the book but there are a lot of truths if you can find them.

Pin-Up Pilot Claire Raye,2020-05-29 Alexa Purdy has sworn off men and he's her worst nightmare. Arrogant and flirtatious, and now International Airlines' newest pilot, Jake Campbell has a panty-dropping smile and a body to match. But he's no match for Alexa's cold heart. Plagued by a bad reputation and a bitter divorce, Alexa is determined to make a name for herself outside of the bedroom. As International Airlines' only female pilot, she's had to work twice as hard and she won't let someone like Jake bring her down. But she's surprised to find he's nothing like she expected him to be. Even more surprising is her growing attraction to him and his obvious attraction to her-an attraction that causes her to question whether swearing off men is such a good idea after all. But when Jake's past resurfaces, she realizes getting close to him may be her biggest mistake of all.

Sierra Hotel Kent McInnis,2021-10-01 A Question of Honor and Duty. First Lieutenant Rob Amity is an Air Force instructor pilot based Stateside during Vietnam. Most of his fellow instructors have flown combat missions, but he hasn't... nor does he particularly want to. This makes him the odd man out in the ready room, torn between his loyalty to his comrades and his objections to the war. Throw in a vindictive senior officer known as Captain Military and his feelings for Suzy, his former girlfriend who is now the wife of his best friend and commander, and you have a bad situation that can only get worse. Seeking solace, Rob gives in to the many temptations of the officers' club and the flightline. The more he can focus on the high-octane life of a fighter pilot—flying, drinking, and sex—the less he has to think about everything else. That's the theory, anyway. In practice, it nearly becomes his undoing. Following a horrible tragedy, Rob returns home to rest and recuperate. He finds the world he left for the Air Force changed—even his friends and family. Wracked with guilt and faced with hostility simply for the uniform he wears, he must decide between pleasing those around him with false niceties or staying true to his own thoughts and feelings. Take a seat and strap yourself in, because *Sierra Hotel* is a full-throttle dive into the world of the United States Air Force during the conflict in Vietnam. Written with the kind of authenticity that only comes with experience, Kent McInnis brings his story to life in lurid detail, with in-flight scenes so real, you'll swear you can smell the jet fuel.

"Cap" Cornish, Indiana Pilot Ruth Ann Ingraham,2014-06-15 Clarence Cap Cornish was an Indiana pilot whose life spanned all but five years of the Century of Flight. Born in Canada in 1898, Cornish grew up in Fort Wayne, Indiana. He began flying at the age of nineteen, piloting a Jenny aircraft during World War I, and continued to fly for the next seventy-eight years. In 1995, at the age of ninety-seven, he was recognized by Guinness World Records as the world's oldest actively flying pilot. The mid-1920s to the mid-1950s were Cornish's most active years in aviation. During that period, sod runways gave way to asphalt and concrete; navigation evolved from the iron rail compass to radar; runways that once had been outlined at night with cans of oil topped off with flaming gasoline now shimmered with multicolored electric lights; instead of being crammed next to mailbags in open-air cockpits, passengers sat comfortably in streamlined, pressurized cabins. In the early phase of that era, Cornish performed aerobatics and won air races. He went on to run a full-service flying business, served as chief pilot for the Fort Wayne News-Sentinel, managed the city's municipal airport, helped monitor and maintain safe skies above the continental United States during World War II, and directed Indiana's first Aeronautics Commission. Dedicating his life to flight and its many ramifications, Cornish helped guide the sensible development of aviation as it grew from infancy to maturity. Through his many personal experiences, the story of flight nationally is played out.
