Draw Your Weapons Sarah Sentilles, 2017-07-04 A single book might not change the world. But this utterly original meditation on art and war might transform the way you see the world—and that makes all the difference. “How to live in the face of so much suffering? What difference can one person make in this beautiful, imperfect, and imperiled world?” Through a dazzling combination of memoir, history, reporting, visual culture, literature, and theology, Sarah Sentilles offers an

impassioned defense of life lived by peace and principle. It is a literary collage with an urgent hope at its core: that art might offer tools for remaking the world. In *Draw Your Weapons*, Sentilles tells the true stories of Howard, a conscientious objector during World War II, and Miles, a former prison guard at Abu Ghraib, and in the process she challenges conventional thinking about how war is waged, witnessed, and resisted. The pacifist and the soldier both create art in response to war: Howard builds a violin; Miles paints portraits of detainees. With echoes of Susan Sontag and Maggie Nelson, Sentilles investigates images of violence from the era of slavery to the drone age. In doing so, she wrestles with some of our most profound questions: What does it take to inspire compassion? What impact can one person have? How should we respond to violence when it feels like it can't be stopped? Praise for *Draw Your Weapons* "A collage of death, savagery, torture, and trauma across generations and continents, Sarah Sentilles's *Draw Your Weapons* is painful to read, hard to put down, and impossible to forget."—O: The Oprah Magazine "In her dynamic, impressionistic (and cleverly titled) book, Sentilles focuses on language and images—particularly photography—and considers what role they play in peace and war. Eschewing a traditional narrative, Sentilles focuses on two men—one a World War II conscience objector who makes violins, and the other an Abu Ghraib prison guard who paints detainee portraits. In brief, delicately layered pieces rather than a narrative, Sentilles has created a collage that explores art, violence, and what it means to live a principled life."—The National Book Review "It's the kind of book that, after reading just half, you have to stop and catch your breath, because reading it changes you, not just in terms of what you know—it changes the way you think and how you feel—so much so that, halfway in, I wanted to go back and start again because I felt I was already a different person to the person I was when I began."—Turnaround

This book offers a six-stage, student centered inquiry-based pedagogy that addresses complex questions and invites construction of complicated answers. Why the Jews? Why were there so many followers? Did the Jews resist? Each of the twenty-three inquiries presented in the book centers on an essential question and includes pedagogical strategies, compelling sources, and multiple suggestions to assess student learning.

Sanctifying Art Deborah Sokolove, 2013-07-10 As an artist, Deborah Sokolove has often been surprised and dismayed by the unexamined attitudes and assumptions that the church holds about how artists think and how art functions in human life. By investigating these attitudes and tying them to concrete examples, Sokolove hopes to demystify art--to bring art down to earth, where theologians, pastors, and ordinary Christians can wrestle with its meanings, participate in its

processes, and understand its uses. In showing the commonalities and distinctions among the various ways that artists themselves approach their work, Sanctifying Art can help the church talk about the arts in ways that artists will recognize. As a member of both the church and the art world, Sokolove is well-positioned to bridge the gap between the habits of thought that inform the discourse of the art world and those quite different ideas about art that are taken for granted by many Christians. When art is understood as intellectual, technical, and physical as well as ethereal, mysterious, and sacred, we will see it as an integral part of our life together in Christ, fully human and fully divine.

The Routledge Handbook to Music under German Occupation, 1938-1945 David Fanning, Erik Levi, 2019-12-06 Following their entry into Austria and the Sudetenland in the late 1930s, the Germans attempted to impose a policy of cultural imperialism on the countries they went on to occupy during World War II. Almost all music institutions in the occupied lands came under direct German control or were subject to severe scrutiny and censorship, the prime objective being to change the musical fabric of these nations and force them to submit to the strictures of Nazi ideology. This pioneering collection of essays is the first in the English language to look in more detail at the musical consequences of German occupation during a dark period in European history. It embraces a wide range of issues, presenting case studies involving musical activity in a number of occupied European cities, as well as in countries that were part of the Axis or had established close diplomatic relations with Germany. The wartime careers and creative outputs of individual musicians who were faced with the dilemma of either complying with or resisting the impositions of the occupiers are explored. In addition, there is some reflection on the post-war implications of German occupation for the musical environment in Europe. Music under German Occupation is

written for all music-lovers, students, professionals and academics who have particular interests in 20th-century music and/or the vicissitudes of European cultural life during World War II.

Afterwar Nancy Sherman, 2015 Drawing on in-depth interviews with service women and men, Nancy Sherman weaves narrative with a philosophical and psychological analysis of the moral and emotional attitudes at the heart of the afterwars. Afterwar offers no easy answers for reintegration. It insists that we widen the scope of veteran outreach to engaged, one-on-one relationships with veterans.

**Behind Barbed Wire** Deborah G. Lindsay, 2020 Most people associate concentration camps with Nazi Germany. Behind Barbed Wire examines how these notorious World War II camps actually reflected a previous use of the system, a system that began almost a century earlier. In truth, Adolf Hitler had studied the American Indian Reservations as he plotted his regime's attack on European Jews and other minorities. Remarkably, in the years between the reservations and the Nazi camps, the United States, along with several other Western powers, implemented concentration camps throughout the globe, each instance employing more and more barbaric measures with harsher and harsher outcomes. Behind Barbed Wire explains how these nations dubiously justified camp operations by citing military counterinsurgency tactics, containment policies, and simply the ability to prosecute war more easily. This brief history addresses the subliminal reasons for relocating hundreds of thousands of civilians, why the system became so prevalent, and how concentration camps existed under the cover of armed conflict. It argues that, most often, camps can be facilitated only under the guise of war. Anyone with an interest in military history, World War II, concentration camps, and the plight of the Jews will discover how all these topics converge into a compelling story of war, bigotry, and military might. Behind Barbed Wire also sheds light on the concentration camp

systems that have been employed since the fall of the Nazi dictatorship. With current geopolitical issues focusing on elitism, xenophobia, deplorable, terrorism, and military necessity, this book offers some understanding about the unintended consequences of policy.

*State Aid Law of the European Union* Herwig C. H. Hofmann, Claire Mischeau, 2016-08-18 Rules controlling State aid and subsidies on the EU and the WTO level can have a decisive influence on both regulatory and distributive decision-making. This field of law has grown exponentially in importance and complexity over the past decades. Rules on State aid and subsidies control are one of the key instruments to ensure that public spending and regulatory measures do not lead to discriminatory distortions of competition. As a consequence, hardly any part of national law is free from review under criteria of State aid and subsidy regulation. In turn, State aid and subsidies law is linked to economic, constitutional, administrative law of the EU and the Member States as well as to public international law. This book brings together leading experts from academia, the judiciary, civil servants from the European Commission, and practising lawyers to provide expert opinion and commentary on the diverse dimensions of the complex and vital area of law. Critically analysing and explaining developments and current approaches in State aid law and subsidies, the chapters take into account not only the legal dimensions but also the economic and political implications. They address the EU law applicable to State aid in the aftermath of the recent State Modernisation reform, and coverage includes: an in-depth analysis of the notion of State aid as interpreted by the Court's cases-law and the Commission's practice; the rules on compatibility of State aid with the internal market; the rules governing the procedure before the Commission; the litigation before the Court of Justice of the European Union; and analysis of the other trade defence instruments, including WTO subsidy law and EU anti-subsidy law.

**'A Justifiable Obsession'** Penny Bryden,2013-04-28 'A Justifiable Obsession' traces the evolution of Ontario's relationship with the federal government in the years following the Second World War. Through extensive archival research in both national and provincial sources, P.E. Bryden demonstrates that the province's successive Conservative governments played a crucial role in framing the national agenda - although this central relationship has received little attention compared to those that have been more volatile. As such, Bryden's study sheds light on an important but largely ignored chapter in Canadian political history. Bryden focuses on the politicians and strategists who guided the province through the negotiation of intergovernmental economic, social, and constitutional issues, including tax policies, the design of the new social welfare net, and efforts to patriate the constitution. Written in a lucid, engaging style that captures the spirit of the politics of postwar Canada, 'A Justifiable Obsession' is a significant contribution to our understanding of Ontario's politics and political culture.

**Coffee certification in East Africa: impact on farms, families and cooperatives** Ruerd Ruben,Paul Hoebink,2023-09-04 Certification of coffee producers is frequently suggested as a promising strategy for improving the position of smallholder farmers in the market. After the launch of the first Fairtrade label in 1988, several other standards have been promoted either by voluntary agencies (Utz-certified) or by private coffee companies. Each coffee label relies on different strategies for enhancing sustainable production and responsible trade. Coffee certification in East Africa is of a rather recent nature but has been rapidly expanding, representing currently 26 percent of the world's sustainable certified coffee supply. Marketing channels, cooperative organisation and

household structures show notable differences between Kenya, Uganda and Ethiopia. Empirical studies on the effects of standards for smallholders are scarce. This book intends to deepen our understanding on the role and functions of coffee certification regimes, based on three innovative approaches: (1) longitudinal field survey data capturing changes in coffee farming systems and effects on household welfare; (2) in-depth interviews and behavioural experiments regarding risk attitudes, trust and investments at cooperative level; and (3) detailed discourse analyses regarding gender roles and female bargaining power within coffee households. The chapters included in this book provide new and original evidence about the impact of coffee certification based on large-scale field surveys and in-depth interviews.
