**My White Planet** Mark Jarman, 2008-04-12 Mark Anthony Jarman is one of Canada's most original and compelling writers of short fiction. *My White Planet* is his latest collection of fourteen new stories, many of which have previously won or been short-listed for literary magazine awards. Jarman's use of language and metaphor is unique in the Canadian literary pantheon. With extraordinary linguistic energy, he pushes the boundaries of fiction and story-telling. Every sentence reverberates with subtle meaning and every reading of a Jarman story brings out ever deeper layers of complexity and nuance. Here is a protean writer who bends form and enters into worlds and people with panache and a verve that is breath-taking. The range of his fiction is stunning: troops undertake a nightmarish march following Custer's last stand; a father's dogs tear apart his son and he is accused of cowardice and neglect; seven marooned men at a remote polar station save the life of a naked young woman; domestic squabbles and infidelity abound amidst west coast chainsaws and floatplanes; a dropout skateboarder falls off a railway bridge and drowns in the river; a city bus ride ends up crossing the entire country; a time traveler witnesses Louis Riel's botched execution of Thomas Scott; a young woman removes her bra from under her shirt and her male friend is paralysed by possible meanings; an outsider plays old timer hockey in the wilds of New Brunswick; Victorian fashion is mixed up with the violent deaths of Custer, Louis Riel and Sitting Bull; a flight attendant is able to read passengers' minds. A master of literary conceit and a hewer of breakneck language, Mark Anthony Jarman defies categorization and offers us instead a narrative freshness that surprises and offers up a world of wonders.

*Subpar Parks* Amber Share, 2021-07-13 **\*\*A New York Times Bestseller!\*\*** Based on the wildly popular Instagram account, *Subpar Parks* features both the greatest hits and brand-new content, all celebrating the incredible beauty and variety of America's national parks juxtaposed with the clueless and hilarious one-star reviews posted by visitors. *Subpar Parks*, both on the popular Instagram page and in this humorous, informative, and collectible book, combines two things that seem like they might not work together yet somehow harmonize perfectly: beautiful illustrations and informative,

amusing text celebrating each national park paired with the one-star reviews disappointed tourists have left online. Millions of visitors each year enjoy Glacier National Park, but for one visitor, it was simply Too cold for me! Another saw the mind-boggling vistas of Bryce Canyon as Too spiky! Never mind the person who visited the thermal pools at Yellowstone National Park and left thinking, "Save yourself some money, boil some water at home." Featuring more than 50 percent new material, the book will include more depth and insight into the most popular parks, such as Yosemite, Yellowstone, the Grand Canyon, and Acadia National Parks; anecdotes and tips from rangers; and much more about author Amber Share's personal love and connection to the outdoors. Equal parts humor and love for the national parks and the great outdoors, it's the perfect gift for anyone who loves to spend time outside as well as have a good read (and laugh) once they come indoors.

*Under a White Sky* Elizabeth Kolbert, 2022-04-05 NATIONAL BESTSELLER • The Pulitzer Prize-winning author of *The Sixth Extinction* returns to

humanity's transformative impact on the environment, now asking: After doing so much damage, can we change nature, this time to save it? RECOMMENDED BY PRESIDENT OBAMA AND BILL GATES • SHORTLISTED FOR THE WAINWRIGHT PRIZE FOR WRITING • ONE OF THE TEN BEST BOOKS OF THE YEAR: The Washington Post • ONE OF THE BEST BOOKS OF THE YEAR: Time, Esquire, Publishers Weekly, Kirkus Reviews • "Beautifully and insistently, Kolbert shows us that it is time to think radically about the ways we manage the environment."—Helen Macdonald, The New York Times With a new afterword by the author That man should have dominion "over all the earth, and over every creeping thing that creepeth upon the earth" is a prophecy that has hardened into fact. So pervasive are human impacts on the planet that it's said we live in a new geological epoch: the Anthropocene. In *Under a White Sky*, Elizabeth Kolbert takes a hard look at the new world we are creating. Along the way, she meets biologists who are trying to preserve the world's rarest fish, which lives in a single tiny pool in the middle of the Mojave; engineers who are turning carbon emissions to stone in Iceland; Australian researchers who are trying to develop a "super coral" that can survive on a hotter globe; and physicists who are contemplating shooting tiny diamonds into the stratosphere to cool the earth. One way to look at human civilization, says Kolbert, is as a ten-thousand-year exercise in defying nature. In *The Sixth Extinction*, she explored the ways in which our capacity for destruction has reshaped the natural world. Now she examines how the very sorts of interventions that have imperiled our planet are increasingly seen as the only hope for its salvation. By turns inspiring, terrifying, and darkly comic, *Under a White Sky* is an utterly original examination of the challenges we face.

**What If We Stopped Pretending?** Jonathan Franzen, 2021-01-21 The climate change is coming. To prepare for it, we need to admit that we can't prevent it.

**Bulletin of the Atomic Scientists**, 1972-10 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world.
