Fundamentals of Plan Making Edward J. Jepson, Jr.,Jerry Weitz,2020-12-14 Urban and regional planning programs aspire to prepare practitioners to write and implement comprehensive plans. Yet, academic planning programs often place greater emphasis on theory than practice. To help address this gap, Fundamentals of Plan Making gives planning students an understanding of research and methods of analysis that apply to comprehensive planning. Its informative text and examples will help students develop familiarity with various data sources and acquire the knowledge and ability to conduct basic planning analyses such as population projections, housing needs assessments, development impact analyses, and land-use plans. Students will also learn how to implement the various citizen participation methods used by planners and develop an appreciation of the values and roles of practicing planners. In this revised second edition, Edward Jepson and Jerry Weitz bring their extensive experience as practicing planners and teaching faculty to give planning students the practical, hands-on tools they need to create and implement real plans and policies. With an entirely new census data set, expanded discussions of sustainability and other topics, as well as new online resources—including a companion website—the book is now more accessible and more informative, and its updated chapters on transportation, housing, environment, economic development, and other core planning elements also make it a handy reference for planning practitioners.

Leading a Congregation to Relevance C. Dean Waterman, 2022-10-17 What is the measure of a successful congregation? For most, success is in the numbers, but the new scorecard is relevance, which is deeper, and more impactful. The fundamentals that bring relevance are not new but have been abandoned by many congregations for the newest methods and trends in church growth. Within these pages is a new model for bringing these important fundamentals together. They may be taken as a whole or implemented individually, but when done so they bring a renewed focus to a congregation which results in lives changed, and new relevance to those within the congregation, and in the community it exists in.

**How to Launch a New Church Site** Jess Rainer, 2023-09-05 Explore the Ten Crucial Questions about Launching a New Church Site One of the most powerful and effective ways to reach our world for Jesus is to plant new churches. Establishing a new church site

focuses a congregation outward--on the spiritual needs of the people in the surrounding community. That, in turn, energizes church members and fuels healthy church growth in both the sending church and the start-up church. Jess Rainer, an experienced church planter, will guide you through the key conversations that church leaders and members must have when launching a new church site. Do we have the vision? Who will be on the launch team? How much will it cost to get the new site going? What's the plan? Where are the people? Are we ready to launch? How to Launch a New Church Site is an indispensable tool to help you examine with your congregation the possibility of starting a new church site.

**Worship Songs and The Law** Stephen Robert Cass, 2022-08-25 Church leadership: Did you know that only 42.4% of churches in North America are paying song copyright holders for their work? Do you know why church music licenses exist, who collects these fees and distributes the money? Did you know that there's a clause in copyright law specifically for churches in the US? Let me tell you about the opportunities that this brings to songwriting and church ministries. Do you know how independent songwriters and music publishers share in the revenue generated from church song licenses? Worship songwriters: Would you like to know the exact method to document your songs and register them for the maximum royalties? Give this money to the church or build your songwriting ministry. All these questions are answered in this comprehensive special report that promotes spreading the gospel and honoring the creative people who help to make all church ministries possible. Pass this report on to songwriters, musicians, worship pastors, and church leadership so they are informed about current copyright laws and the practices of paying for the use of intellectual property. Stephen Robert Cass is an author, songwriter, worship leader, and musician playing and leading worship since 1970. He has over 70 titles in his song catalog at Christian Copyright Licensing International.

**Megacity Mobility** Zongzhi Li, Adrian T. Moore, Samuel R. Staley, 2021-12-15 World population growth and economic prosperity have given rise to ever-increasing demands on cities, transportation planning, and goods movement. This growth, coupled with a slower pace of transportation capacity expansion and deteriorated facility restoration, has led to rapid changes in the transportation planning and policy environment. These stresses are particularly acute for megacities where degradation of mobility and facility performance have reached alarming rates. Addressing these transportation challenges requires innovative solutions. Megacity Mobility grapples with these challenges by addressing transportation policy, planning, and facilities in a multimodal context. It discusses innovative short- and long-term solutions for meeting current and future mobility needs for the world's most dynamic cities by addressing the influence of urban land use on mobility, 3D spiderweb transportation planning, travel demand management, multimodal transportation with flexible capacity, efficient capacity utilization driven by new technologies, innovative transportation funding and financing, and performance-based budget allocation using asset management principles. It discusses emerging issues, highlights potential challenges affecting proposed solutions, and provides policymakers, planners, and transportation professionals a road map to achieving sustainable mobility in the 21st century. Zongzhi Li is a professor and the director of the Sustainable Transportation and Infrastructure Research (STAIR) Center at Illinois Institute of Technology (IIT). Adrian T. Moore is vice president of policy at Reason Foundation in Washington, D.C., with focuses on privatization, transportation and urban growth, and more. Samuel R. Staley is the director of the DeVoe L. Moore Center in the College of Social Sciences and Public Policy at Florida State University.

**Religion Online** August E. Grant, Amanda F. C. Sturgill, Chiung Hwang Chen, Daniel A. Stout, 2019-03-07 Religion Online provides new insights about religiosity in a contemporary context, offering a comprehensive look at the intersection of digital media, faith communities, and practices of all sorts. Recent research on Apple users, video games, virtual worlds, artificial intelligence, digital music, and sports as religion supports the idea that media and religion, once considered separate entities, are in many cases the same thing. New media and religious practice can no longer be detached; this two-volume set discusses how religionists are embracing the Internet amidst cultural shifts of secularization, autonomous religious worship, millennials' affinity for new media, and the rise of fundamentalism in the global south. While other works describe case studies, this book explains how new media are interwoven into the very fabric of religious belief, behavior, and community. Chapters break down the past, present, and projected future of the use of digital media in relation to faith traditions of many varieties, extending from mainline Christianity to new religious movements. The book also examines the impacts of digital media on beliefs and practices around the world. In exploring these subjects, it calls on the study of culture, namely anthropology, to conceptualize a technological period as significant as the industrial revolution.

**The Worship Pastor** Zac M. Hicks, 2016-10-11 Modern worship leaders are restless. They have inherited a model of leadership that equates leading worship with being a rock star. But leading worship is more than a performance, it's about shaping souls and making disciples. Every worship leader is really a pastor. *The Worship Pastor* is a practical and biblical introduction to this essential pastoral role. Filled with engaging, illustrative stories it is organized to address questions of theory and practice, striving to balance conversational accessibility with informed instruction. Part One presents a series of evocative vignettes—intriguing and descriptive titles and metaphors of who a Worship Pastor is and what he or she does. It shows the Worship Pastor as Church-Lover, Disciple Maker, Corporate Mystic, and Doxological Philosopher. Part Two covers specific roles related to ministry within the worship service itself—the Worship Pastor as Theological Dietician, Caregiver, Mortician, Emotional Shepherd, War General, Prophetic Guardian, Missional Historian, and Liturgical Architect. Part Three looks at ministry beyond the worship service—the Worship Pastor as Visionary Teacher, Evangelist, Artist Chaplain, and Team Leader. While some worship leaders are eager to embrace their pastoral role, many are lost and confused or lack the resources of time or money to figure out what this role looks like. Pastor Zac Hicks gives us a clear guide to leading worship, one that takes the pastoral call seriously.

**Palestinian Citizens of Israel** Sharri Plonski, 2017-12-13 The contest to maintain and reclaim space is firmly tied to the identity and culture of a displaced population. *Palestinian Citizens of Israel* is a study of Palestinian communities living inside the Jewish state and their attempts to disrupt and reshape the physical and abstract boundaries that contain them. Through extensive fieldwork and numerous interviews, Sharri Plonski conducts a comparative analysis of resistance movements anchored in three key sites of the Palestinian experience: the defence of housing rights in Jaffa; the protest against settlement in the Galilee region; and the campaign for Bedouin land rights in the Naqab desert. Her research investigates the dialectical relationship between power and resistance as it relates to socio-spatial segregation and the struggle for national recognition. Plonski's examination of Palestinian activism and transgression offers valuable insight into the structures and reaches of power from within the Israeli state. This book will be of interest to students and scholars of both Middle East Studies and Palestinian-Israeli politics.
