**Dead Man's Cell Phone** Sarah Ruhl, 2010-02 An incessantly ringing cell phone in a quiet caf. A stranger at the next table who has had enough. And a dead man - with a lot of loose ends. So begins *Dead Man's Cell Phone*, a wildly imaginative new comedy by playwright Sarah Ruhl, recipient of a MacArthur "Genius" Grant and Pulitzer Prize finalist for her play *The Clean House*. A work

about how we memorialize the dead - and how that remembering changes us - it is the odyssey of a woman forced to confront her own assumptions about morality, redemption, and the need to connect in a technologically obsessed world. Sarah Ruhl's plays have been produced at theaters around the country, including Lincoln Center Theater, the Goodman Theatre, Arena Stage, South Coast Repertory, Yale Repertory Theatre, Berkeley Repertory Theatre, among others, and internationally. She is the recipient of the Susan Smith Blackburn Prize (for *The Clean House*, 2004), the Helen Merrill Emerging Playwrights Award, and the Whiting Writers' Award. *The Clean House* was a Pulitzer Prize finalist in 2005. She is a member of 13P and New Dramatists.

Larissa Hjorth, Dean Chan, 2009-06-24 This collection explores the relationship between digital gaming and its cultural context by focusing on the burgeoning Asia-Pacific region. Encompassing key locations for global gaming production and consumption such as Japan, China, and South Korea, as well as increasingly significant sites including Australia and Singapore, the region provides a wealth of divergent examples of the role of gaming as a socio-cultural phenomenon. Drawing from micro ethnographic studies of specific games and gaming locales to macro political economy analyses of techno-nationalisms and trans-cultural flows, this collection provides an interdisciplinary model for thinking through the politics of gaming production, representation, and consumption in the region.

**The Camera Phone Book** Aimee Baldrige, 2007-06-12  
Marketing experts predict that by 2009, nearly 90% of all cell phones will contain a camera, as manufacturers race to create cheaper, easier-to-use models with more sophisticated cameras, more pixels, flash units and even multiple lenses. Already revolutionizing audiovisual communication, it's a trend that will only grow more explosively—and who better than National Geographic to create a how-to book aimed directly at the millions who carry a camera phone everywhere and want to make the most of it? Created by two top professionals, this generously illustrated nuts-and-bolts guide is the first of its kind to treat these units as genuine cameras instead of novelties, and the only one to include a full-color photo-essay demonstrating the full capabilities of the latest camera phones. In five easy-to-read chapters, the book explains how to choose good equipment; take better pictures; and store, print and send the best images. Readers will find practical tips on preventing or repairing water damage, protecting easily-scratched lenses inside pockets and purses, and retrieving accidentally-erased images. They'll also learn to access the events, advice, and opportunities of the burgeoning camera phone community, from film festivals to news organizations, moblogs, and more. Featuring the technical savvy of CNet.com's Aimee Baldrige and the creative skill of National Geographic

photographer Robert Clark, a camera phone pioneer, this compact yet comprehensive reference combines up-to-the-minute expertise with superb examples, at an inexpensive price that makes it a perfect gift book—or an ideal impulse buy.

**An Integrated Play-based Curriculum for Young Children** Olivia N. Saracho, 2013-03-01 Play provides young children with the opportunity to express their ideas, symbolize, and test their knowledge of the world. It provides the basis for inquiry in literacy, science, social studies, mathematics, art, music, and movement. Through play, young children become active learners engaged in explorations about themselves, their community, and their personal-social world. **An Integrated Play-Based Curriculum for Young Children** offers the theoretical framework for understanding the origins of an early childhood play-based curriculum and how young children learn and understand concepts in a social and physical environment. Distinguished author Olivia N. Saracho then explores how play fits into various curriculum areas in order to help teachers develop their early childhood curriculum using developmentally and culturally appropriate practice. Through this integrated approach, young children are able to actively engage in meaningful and functional experiences in their natural context. Special Features Include: Vignettes of children's conversations and actions in the classroom Suggestions for activities and classroom materials Practical examples and guidelines End-of-chapter summaries to enhance and extend the reader's understanding of young children By

presenting appropriate theoretical practices for designing and implementing a play-based curriculum, *An Integrated Play-Based Curriculum for Young Children* offers pre-service teachers the foundational knowledge about the field, about the work that practitioners do with young children, and how to best assume a teacher's role effectively.

**Redeeming Productivity** Reagan Rose, 2022-10-04

Feeling overwhelmed and unproductive? The answer isn't to do more. What image forms in your mind when you think of productivity? An assembly line? Spreadsheets? Business suits or workplace uniforms? In the ancient world, productivity didn't conjure images like these. Instead, it referred to crop yield and fruit bearing. This

agrarian imagery helps us understand productivity through a biblical lens. Jesus taught, By this my Father is glorified, that you bear much fruit (John 15:8). Who doesn't want to have a truly productive life—to bear much fruit? But how does this happen in the places we hold dear—the home, workplace, and in our communities? We often feel overworked and overrun, defeated and discouraged. The world says be productive so that you can get all you can out of this life. The Bible says be productive so you can gain more of the next life. In Redeeming Productivity, author Reagan Rose explores how God's glory is the purpose for which He planted us. And he shows how productivity must be firmly rooted in the gospel. Only through our connection to Christ—the True Vine—are we empowered to produce good fruit. This book shows how we can maintain the vitality of that connection through simple, life-giving disciplines. Readers will discover manageable applications like giving God the first fruits of our days. Additionally, Reagan discusses how our perspective on suffering is transformed as we see trials as God's pruning for greater productivity.

**iGen** Jean M. Twenge, 2017-08-22 As seen in Time, USA TODAY, The Atlantic, The Wall Street Journal, and on CBS This Morning, BBC, PBS, CNN, and NPR, iGen is crucial reading to understand how the children, teens, and young adults born in the mid-1990s and later are vastly different from their Millennial predecessors, and from any other generation. With generational divides wider than ever, parents, educators, and employers have an urgent need to understand today's rising

generation of teens and young adults. Born in the mid-1990s up to the mid-2000s, iGen is the first generation to spend their entire adolescence in the age of the smartphone. With social media and texting replacing other activities, iGen spends less time with their friends in person—perhaps contributing to their unprecedented levels of anxiety, depression, and loneliness. But technology is not the only thing that makes iGen distinct from every generation before them; they are also different in how they spend their time, how they behave, and in their attitudes toward religion, sexuality, and politics. They socialize in completely new ways, reject once sacred social taboos, and want different things from their lives and careers. More than previous generations, they are obsessed with safety, focused on tolerance, and have no patience for inequality. With the first members of iGen just graduating from college, we all need to understand them: friends and family need to look out for them; businesses must figure out how to recruit them and sell to them; colleges and universities must know how to educate and guide them. And members of iGen also need to understand themselves as they communicate with their elders and explain their views to their older peers. Because where iGen goes, so goes our nation—and the world.

**Families at Play** Sinem Siyahhan, Elisabeth Gee, 2018-02-02 How family video game play promotes intergenerational communication, connection, and learning. Video games have a bad reputation in the

mainstream media. They are blamed for encouraging social isolation, promoting violence, and creating tensions between parents and children. In this book, Sinem Siyahhan and Elisabeth Gee offer another view. They show that video games can be a tool for connection, not isolation, creating opportunities for families to communicate and learn together. Like smartphones, Skype, and social media, games help families stay connected. Siyahhan and Gee offer examples: One family treats video game playing as a regular and valued activity, and bonds over Halo. A father tries to pass on his enthusiasm for Star Wars by playing Lego Star Wars with his young son. Families express their feelings and share their experiences and understanding of the world through playing video games like The Sims, Civilization, and Minecraft. Some video games are designed specifically to support family conversations around such real-world issues and sensitive topics as bullying and peer pressure. Siyahhan and Gee draw on a decade of research to look at how learning and teaching take place when families play video games together. With video games, they argue, the parents are not necessarily the teachers and experts; all family members can be both teachers and learners. They suggest video games can help families form, develop, and sustain their learning culture as well as develop skills that are valued in the twenty-first century workplace. Educators and game designers should take note.
