**Perimetry Update 1998/1999** Michael Wall, John M. Wild, 1999 The topics presented at the XIIIth Symposium embraced all aspects of perimetric science. A total of ten sessions were held and covered: fundamentals of perimetry, visual psychophysics, new perimetric techniques, new algorithms for estimating threshold, perimetric variability, color perimetry, optic nerve head imaging, and visual field investigation in glaucoma and in retinal and neurological disorders. The new perimetric techniques included frequency doubling technology, flicker perimetry and pupil perimetry. The new algorithms included the Swedish Interactive Threshold Algorithm (SITA) and Tendency Orientated Perimetry (TOP). The session on perimetric variability addressed some of the issues contributing to short-term fluctuation, and also contained papers on the use of univariate linear regression of point-wise sensitivity against time to follow-up for the identification of progressive visual field loss. The session on color perimetry was almost exclusively concerned with Short Wavelength Automated Perimetry (SWAP), particularly in glaucoma and high risk ocular hypertension. However, one group described a seemingly promising additional use for SWAP; namely, in the detection of diabetic macular edema. The presentations within the imaging session described the latest morphometric and topographic parameters derived by optic nerve head and nerve fiber layer analysis, and compared these structural measures with those of the functional assessment.

**Your Right to Resell** Mi Pa, 2015-04-03 While some people know exactly what Resell Rights are, some have a very vague idea about it. There are so many different kinds of resell rights that any marketer will be bewildered at the time of either creating his own product with resale rights or to work with a product which already exists. Even though this is not a very simple topic, we will try to explain this as easily as possible in this article. Resale Rights are somewhat of a confusing topic for many people. Learning how to properly determine the rights that you actually get when you purchase a product with resell rights can be a complete nightmare.

**Global Challenges to CSR and Sustainable Development** Stephen Vertigans, Samuel O. Idowu, 2021-03-28 This book examines and analyzes the challenges programmes for Corporate Social Responsibility (CSR) and sustainable development are facing in global management practice. It looks at the dichotomy of a general and popular demand for responsible and resilient management, and the counterplayers that impact the positive effect of such efforts. The book assembles latest research looking at the root causes for this opposition, and new case studies that showcase the dilemma and possible solutions to overcome it. Overall, the book juxtaposes short terminism within CSR programmes and longer term sustainable development, mis-allocation of resources and failed promises associated with CSR, and sketches pathways how CSR and sustainable development can be directed towards the most pressing issues.

**Die Internet Drachen Asiens** Andre Sternberg, 2019-10-23 Während seiner Asien Reise erklärte US-Präsident Barack Obama: Die Geschicke Amerikas und des asiatisch-pazifischen Raums sind enger miteinander verbunden als je zuvor. Chinas größerer globaler Einfluss hat viele Analysten veranlasst, zu prognostizieren, dass China bis

2020 mit den USA als globaler Supermacht konkurrieren wird. Der chinesische Drache steht für Macht und Exzellenz, Tapferkeit und Kühnheit, Heldentum und Ausdauer, Adel und Göttlichkeit. Ein Drache besiegt Hindernisse, um Erfolg zu haben. Es ist energisch, entschlossen, optimistisch, gut informiert und ehrgeizig. In diesem Buch werden wir uns die Unternehmer Drachen oder Führer in Asien anschauen und was ihnen geholfen hat, so erfolgreich zu sein. Was sind die genauesten Merkmale dieser Wirtschaftsführer? Zunächst einmal sind diese Unternehmer in der Regel selbstbewusster und aufrichtiger als die normale Person. Sie können in jedem sozialen oder beruflichen Umfeld sogar etwas lauter sein als andere in der Organisation und sich in ihren jeweiligen Nischen behaupten. Die Fähigkeit, Ihre Meinung zu äußern, ist ein entscheidendes Merkmal des Unternehmertums – Sie können kein Mauerblümchen sein, wenn 1000 Blumen gedeihen sollen. Erfolgreiche Unternehmer sind von Natur aus einfallreich und neugierig. Im Durchschnitt stellen sie viel mehr Fragen und schrecken nicht davor zurück, im Kontext des Gruppen Lernens eingehender zu forschen. Sie sind ebenfalls versierter als andere Menschen und führen häufig Diskussionen, die nicht nur dazu dienen, ihre Netzwerke zu stärken, sondern ihnen auch dabei helfen, kritisch wichtige Informationen preis zu geben. Mit weit geöffneten Augen und Ohren suchen sie in der Landschaft nach Möglichkeiten und bemerken alles, was sie umgibt. *The Complete Cash Lovers Guide to Blog Marketing* R.K., Hot New Marketing Guide Takes You By The Hand And Reveals How To Quickly Create Massively Profitable Blogs!
