(Re)Writing Craft Tim Mayers,2007-04-16 *(Re)Writing Craft* focuses on the gap that exists in many English departments between creative writers and compositionists on one hand, and literary scholars on the other, in an effort to radically transform the way English studies are organized and practiced today. In proposing a new form of writing he calls craft criticism, Mayers, himself a compositionist and creative writer, explores the connections between creative writing and composition studies programs, which currently exist as separate fields within the larger and more amorphous field of English studies. If creative writing and composition studies are brought together in productive dialogue, they can, in his view, succeed in inverting the common hierarchy in English departments that privileges interpretation of literature over the teaching of writing.

The Write Crowd Lori A. May, 2014-12-18 Writing may be a solitary profession, but it is also one that relies on a strong sense of community. The Write Crowd offers practical tips and examples of how writers of all genres and experience levels contribute to the sustainability of the literary community, the success of others, and to their own well-rounded writing life. Through interviews and examples of established writers and community members, readers are encouraged to immerse themselves fully in the literary world and the community-at-large by engaging with literary journals, reading series and public workshops, advocacy and education programs, and more. In contemporary publishing, the writer is expected to contribute outside of her own writing projects. Editors and publishers hope to see their writers active in the community, and the public benefits from a more personal interaction with authors. Yet the writer must balance time and resources between deadlines, day jobs, and other commitments. The Write Crowd demonstrates how writers may engage with peers and readers, and have a positive effect on the greater community, without sacrificing writing time.
