High-Risk Patrol Gerald W. Garner,2020-05-28 This book provides a general orientation for survival, using the author's "everyone goes home" approach as in previous editions, to keep the police officer safe and secure. It details the specifics the intelligent police professional must master in order to survive the many types of risky situations he will be exposed to over a career. The book is painstakingly thorough in its approach to officer survival in an era where peacekeepers are required to be highly transparent and accountable in all their actions. Every use of force by a law enforcement officer will be closely scrutinized. This is one reason why it is important that today's officer has access to every viable tactic and technique that may prevent the need for force in the first place. The book details everything from searching an arrested individual to searching a building; arresting a 300-pound outlaw biker to a surly teenager. Techniques and strategies discussed in the book include personal preparation for risk reduction, vehicle stops and contacts, defusing disturbances, domestic violence, burglaries and structure searching, barricades and hostage-takers, vehicle pursuits, ambush attacks, emotionally disturbed and mentally ill persons, prisoner control and transport, terrorist threats, off-duty confrontations, and reducing the emotional risks involved. At the end of each vital chapter, a quick and concise "Risk Reduction Checklist" is presented. These chapter summaries are excellent for review and merit rereading by the police professional intent on surviving to a healthy retirement. An Appendix has been included containing informative accounts of police deaths, culled from the "Law Enforcement Officers Killed and Assaulted Report" put together by the Federal Bureau of Investigation. Other accounts are also found at the end of each chapter. Each one makes a point by way of grim example, yet every tragedy described can help save the life of an alert police officer who might otherwise become one more statistic. This unique and comprehensive text will be invaluable to all law enforcement professionals, investigators, policymakers, and police academics.

Alert James Patterson,Michael Ledwidge,2015-08-03 In this New York Times bestseller, Detective Michael Bennett must race against time to save New York City from chaos by tracking down the source of two mysterious attacks. New Yorkers aren't easily intimidated, but someone is doing their best to scare them, badly: why? After two inexplicable high-tech attacks, the city that never sleeps is on edge. Detective Michael Bennett, along with his old pal, the FBI's Emily Parker, have to catch the shadowy criminals who claim responsibility-but they're as good at concealing their identities as they are at wreaking havoc. In the wake of a shocking assassination, Bennett begins to suspect that these mysterious events are just the prelude to the biggest threat of all. Soon he's racing against the clock, and against the most destructive enemy he's faced yet, to save his beloved city-before everyone's worst nightmare becomes a reality.

Red Alert--An NYPD Red Mystery James Patterson,Marshall Karp,2018 The richest of New York's rich gather at The Pierre's Cotillion Room to raise money for those less fortunate. A fatal blast rocks the room, stirring up horrifying memories of 9/11. Is the explosion an act of terrorism-or a homicide? A big-name female filmmaker is the next to die, in a desolate corner of New York City. Detectives Zach Jordan and Kylie MacDonald of the elite NYPD task force investigate, and the intimate details of the director's life remind them of their own impossible situation-their personal relationship seems as unsolvable as the murders. The crimes keep escalating as a shadowy killer masterfully plays out his vendetta-and threatens to take down NYPD Red in the bargain.

Police United States. National Advisory Commission on Criminal Justice Standards and Goals,1973 This report provides suggestions for overall improvement in delivery of police services for greater protection against crime. The National Advisory Commission on Criminal Justice Standards and Goals considers the patrolman the primary force in reducing and preventing crime and thus directs its report recommendations toward increasing police effectiveness. Suggestions for improvements in police functions are presented in the areas of community, planning and organization, technology and support services, fiscal management, and coordination with other criminal justice agencies. These proposals appear in the form of more than 120 specific standards and recommendations that spell out where, why, and how these improvements can and should be made in the police segment of the criminal justice system. Report on police is a reference work for the practitioner -- patrolman to police chief -- as well as for the interested layman. Before implementing any of the changes advocated, police departments are advised to detail the legal limits of police authority and develop guidelines for the exercise of that authority. In order to improve cooperation between the police and the community it is suggested that police agencies establish a specialized unit for maintaining communication with citizens. Each police department should encourage and participate in neighborhood security programs and establish procedures to facilitate processing of complaints. Suggestions for more effective utilization of manpower include continued consolidation, stricter personnel requirements, increased employee benefits, and the employment of more women, minorities, and civilians in police work.

Decolonising Justice for Aboriginal youth with Fetal Alcohol Spectrum Disorders Harry Blagg,Tamara Tulich,Robyn Williams,Raewyn Mutch,Suzie

Edward May,Dorothy Badry,Michelle Stewart,2020-12-29 This book reflects multidisciplinary and cross-jurisdictional analysis of issues surrounding Fetal Alcohol Spectrum Disorders (FASD) and the criminal justice system, and the impact on Aboriginal children, young people, and their families. This book provides the first comprehensive and multidisciplinary account of FASD and its implications for the criminal justice system – from prevalence and diagnosis to sentencing and culturally secure training for custodial officers. Situated within a ‘decolonising’ approach, the authors explore the potential for increased diversion into Aboriginal community-managed, on-country programmes, enabled through innovation at the point of first contact with the police, and non-adversarial, needs-focussed courts. Bringing together advanced thinking in criminology, Aboriginal justice issues, law, paediatrics, social work, and Indigenous mental health and well-being, the book is grounded in research undertaken in Australia, Canada, and New Zealand. The authors argue for the radical recalibration of both theory and practice around diversion, intervention, and the role of courts to significantly lower rates of incarceration; that Aboriginal communities and families are best placed to construct the social and cultural scaffolding around vulnerable youth that could prevent damaging contact with the mainstream justice system; and that early diagnosis and assessment of FASD may make a crucial difference to the life chances of Aboriginal youth and their families. Exploring how, far from providing solutions to FASD, the mainstream criminal justice system increases the likelihood of adverse outcomes for children with FASD and their families, this innovative book will be of great value to researchers and students worldwide interested in criminal and social justice, criminology, youth justice, social work, and education.
