**Just Morgan** Susan Beth Pfeffer,2015-01-06 “The right thing never just happens; you have to make it happen.” Morgan knows her parents left her in boarding school so they could travel the world, which is why hardly anything changes when they’re killed in an accident during her freshman year at Fairfield. But every orphan needs a guardian, and Morgan’s is her uncle Tom, a famous and somewhat eccentric author. Tom’s New York City apartment has plenty of space for Morgan, and her room is the nicest one she’s ever seen, but her uncle, uncomfortable suddenly raising a fourteen-year-old girl, seems distant and preoccupied. Alone in an unfamiliar world, Morgan imagines what her school roommate, the popular and sarcastic Trinck, would think of everything. Would she approve of Morgan’s newly discovered love of reading or the friends she makes in New York? Slowly, Morgan makes a place for herself that is all her own and reflects on the person she is becoming—whether Trinck would like it or not.

**The Knights of Fuzz** Timothy Gassen,1996 The Garage and Psychedelic Music Explosion, 1980-1995 A completely updated and revised edition of the essential reference to garage and psychedelic music produced between 1980 and 1995. Includes a new section of colour photographs and hundreds of rare archive pictures and album cover reproductions.

**Satchmo** Louis Armstrong,1986 In all my whole career the Brick House was one of the toughest joints I ever played in. It was the honky-tonk where levee workers would congregate every Saturday night and trade with the gals who'd stroll up and down the floor and the bar. Those guys would drink and fight one another like circle saws. Bottles would come flying over the bandstand like crazy, and there was lots of just plain common shooting and cutting. But somehow all that jive didn't faze me at all, I was so happy to have some place to blow my horn. So says Louis Armstrong, a tough kid who just happened to be a musical genius, about one of the places where he performed and grew up. This raucous, rich tale of his early days in New Orleans concludes with his departure to Chicago at twenty-one to play with his boyhood idol King Oliver, and tells the story of a life that began, mythically, on July 4, 1900, in the city that sowed the seeds of jazz.

**A Private View** Anita Brookner,2012-08-15 Brookner explores the complications that arise when one solitary man comes up against a woman who seems determined to invade his solitude. George Bland is an aging bachelor whose existence has been virtually a mirror image of his name--up until now. For into George's life walks Katy Gibb, young, abrasively self-assured, who incites in George the most alarming feelings.

**Boston Made** Dr. Robert M. Krim,Alan R. Earls,2021-02-23 A fascinating look at how Boston became and remains a global center for innovation--told through 50 world-changing inventions. “Robert Krim is a long-time champion of the Boston area’s history of innovation, finding remarkable examples of ingenuity and creativity going back centuries and continuing today. He shows how a culture of innovation can make a small place a beacon of hope for the world, by developing the fresh ideas and useful discoveries that make a difference in every part of life.” —Rosabeth Moss Kanter, Harvard Business School professor and author of Think Outside the Building: How Advanced Leaders Can Change the World One Smart Innovation at a Time Since the 1600s, Boston has been at the forefront of world-changing innovation from starting the country's first public school to becoming the first state to end slavery and giving birth to the telephone. Boston was the site of the first organ transplant and more recent medical and biotech breakthroughs that have saved the lives of thousands. That's not to mention pioneering advances in everything from rockets to robotics. In total, Boston-area inventors have contributed more than four hundred stand-out social, scientific, and commercial innovations and uncounted numbers that are less well known. Boston Made tells the absorbing stories of 50 of these - and why they are no accident. In fact, fresh waves of innovation have brought the city back from four major economic collapses. Dr. Robert Krim lays out a set of innovation drivers, including strong entrepreneurship, local funding, and networking. From boom to decline and back to boom, Boston has maintained an ability to reinvent, and build anew. Dr. Krim with technologist Alan Earls have developed and outlined a new interpretation of how a resilient city has flourished. At a time when the national and global economy is reeling from pandemic shockwaves, the authors have laid out what a dynamic world-class city has done in the face of adversity to find a fresh and successful path forward.

**Greater Boston's Blizzard of 1978** Alan R. Earls,2008 The great blizzard of 1978 is an event seared in the memory of anyone who lived through it. Most of Greater Boston was quickly overwhelmed by the storm, which shut down all forms of transit, stranded thousands of cars and motorists along Route 128, and virtually shut down most of the state for a week. But for many coastal communities, the impact of the storm, which brought record high tides and pounding surf, was pure devastation. The common thread shared by almost everyone in the region was positive memories of neighbors and strangers helping each other and finding new bonds of community. Greater Boston's Blizzard of 1978, illustrated with approximately 200 photographs from government archives and private collections, brings alive the fading experiences of February 1978 for those who were there and those who can only imagine.

**Build APIs You Won't Hate** Phil Sturgeon,2015-08-12 API development is becoming increasingly common for server-side developers thanks to the rise of front-end JavaScript frameworks, iPhone applications, and API-centric architectures. It might seem like grabbing stuff from a data source and shoving it out as JSON would be easy, but surviving changes in business logic, database schema updates, new features, or deprecated endpoints can be a nightmare. After finding many of the existing resources for API development to be lacking, Phil learned a lot of things the hard way through years of trial and error. This book aims to condense that experience, taking examples and explanations further than the trivial apples and pears nonsense tutorials often provide. By passing on some best practices and general good advice you can hit the ground running with API development, combined with some horror stories and how they were overcome/avoided/averted. This book will discuss the theory of designing and building APIs in any language or framework, with this theory applied in PHP-based examples.

**Death Before Bedtime** Edgar Box,1979

**So Close to Home** Michael J Tougias,2016-05-03 On May 19, 1942, a U-boat in the Gulf of Mexico stalked its prey fifty miles from New Orleans. Captained by twenty nine-year-old Iron Cross and King's Cross recipient Erich Wurdemann, the submarine set its sights on the freighter Heredia with sixty-two souls on board. Most aboard were merchant seamen, but there were also a handful of civilians, including the Downs family: Ray and Ina, and their two children, eight-year-old Sonny and eleven-year-old Lucille. Fast asleep in their berths, the Downs family had no idea that two torpedoes were heading their way. When the ship exploded, chaos ensued—and each family member had to find their own path to survival. Including original, unpublished material from Commander Wurdemann’s war diary, the story provides balance and perspective by chronicling the daring mission of the U-boat—and its commander’s decision-making—in the Gulf of Mexico. An inspiring historical narrative, So Close to Home tells the story of the Downs family as they struggle against sharks, hypothermia, drowning, and dehydration in their effort to survive the aftermath of this deadly attack off the American coast.

**Fortinbras Has Escaped** Eric Malpass,2001 When the Pentecost home is completely cut off by floods, Gaylord is excited by the endless possibilities for fun and drama. Poppa and Grandpa are simply annoyed at the inconvenience, while Momma becomes

resourceful and practical. Into this confusion come three uninvited guests, shattering the Pentecost's cosy isolation. The widowed Helena Darling arrives in a mink with her Pekinese, Feydeau, only to stir the passions of Grandpa; while her nephew, Rufus, finds love with the vibrant Hilda Twegg. And looking on with amazed disbelief at the behaviour of the grown-ups is the endearing Gaylord and Fortinbras, his white mouse? This continues the story of the Pentecost family told so far in Morning's at Seven and The Long Long Dances.

**Cheap at Half the Price** Jeffrey Archer,2017-05-02 In Cheap at Half the Price, by #1 New York Times bestselling author and master of the short story Jeffrey Archer, the conniving Consuela Rosenheim hunts down her ideal birthday present – and next husband – in London. Will she accomplish her biggest swindle yet, or will she finally get her just desserts? The wily woman is, as Archer opens, “naturally superior to men,” and a pure joy for Archer fans new and old.

**J Dilla's Donuts** Jordan Ferguson,2014-04-24 From a Los Angeles hospital bed, equipped with little more than a laptop and a stack of records, James “J Dilla” Yancey crafted a set of tracks that would forever change the way beatmakers viewed their artform. The songs on Donuts are not hip hop music as “hip hop music” is typically defined; they careen and crash into each other, in one moment noisy and abrasive, gorgeous and heartbreaking the next. The samples and melodies tell the story of a man coming to terms with his declining health, a final love letter to the family and friends he was leaving behind. As a prolific producer with a voracious appetite for the history and mechanics of the music he loved, J Dilla knew the records that went into constructing Donuts inside and out. He could have taken them all and made a much different, more accessible album. If the widely accepted view is that his final work is a record about dying, the question becomes why did he make this record about dying? Drawing from philosophy, critical theory and musicology, as well as Dilla's own musical catalogue, Jordan Ferguson shows that the contradictory, irascible and confrontational music found on Donuts is as much a result of an artist's declining health as it is an example of what scholars call “late style,” placing the album in a musical tradition that stretches back centuries.

**New England Folk** Mrs. C. Richmond Duxbury,1900

**The Five Boons of Life** Mark Twain,2016-01-06 Samuel Langhorne Clemens (November 30, 1835 - April 21, 1910), better known by his pen name Mark Twain, was an American author and humorist. He wrote The Adventures of Tom Sawyer (1876) and its sequel, Adventures of Huckleberry Finn (1885), the latter often called The Great American Novel. Twain grew up in Hannibal, Missouri, which provided the setting for Huckleberry Finn and Tom Sawyer. After an apprenticeship with a printer, he worked as a typesetter and contributed articles to the newspaper of his older brother, Orion Clemens. He later became a riverboat pilot on the Mississippi River before heading west to join Orion in Nevada. He referred humorously to his singular lack of success at mining, turning to journalism for the Virginia City Territorial Enterprise. In 1865, his humorous story, The Celebrated Jumping Frog of Calaveras County, was published, based on a story he heard at Angels Hotel in Angels Camp, California, where he had spent some time as a miner. The short story brought international attention, and was even translated into classic Greek. His wit and satire, in prose and in speech, earned praise from critics and peers, and he was a friend to presidents, artists, industrialists, and European royalty. Though Twain earned a great deal of money from his writings and lectures, he invested in ventures that lost a great deal of money, notably the Paige Compositor, a mechanical typesetter, which failed because of its complexity and imprecision. In the wake of these financial setbacks, he filed for protection from his creditors via bankruptcy, and with the help of Henry Huttleston Rogers eventually overcame his financial troubles. Twain chose to pay all his pre-bankruptcy creditors in full, though he had no legal responsibility to do so. Twain was born shortly after a visit by Halley's Comet, and he predicted that he would go out with it, too. He died the day after the comet returned. He was lauded as the greatest American humorist of his age, and William Faulkner called Twain the father of American literature. Twain began his career writing light, humorous verse, but evolved into a chronicler of the vanities, hypocrisies and murderous acts of mankind. At mid-career, with Huckleberry Finn, he combined rich humor, sturdy narrative and social criticism. Twain was a master at rendering colloquial speech and helped to create and popularize a distinctive American literature built on American themes and language. Many of Twain's works have been suppressed at times for various reasons. Adventures of Huckleberry Finn has been repeatedly restricted in American high schools, not least for its frequent use of the word nigger, which was in common usage in the pre-Civil War period in which the novel was set.

A time of Golden Dragons is the most auspicious possible. In fascinating text and beautiful paintings, Song Nan and Hao Yu Zhang trace the dragon's history. Perhaps inspired by giant crocodiles, the image of the dragon affects every aspect of life in China, including the marking of dragon years, the flying of dragon kites, and the eating of dragon cakes at dragon boat races. A splendid introduction to the richness of Chinese culture, this is a book to cherish this special year and for years to come.
