Violence in Post-Conflict Societies Anders Themnér, 2011-05-10 This book compares post-civil

war societies to look at the presence or absence of organized violence, analysing why some ex-combatants return to organised violence and others do not. Even though former fighters have been identified as a major source of insecurity, there have been few efforts to systematically examine why some ex-combatants re-engage in organized violence, while others do not. This book compares the presence or absence of organized violence in different ex-combatant communities – former fighters that used to belong to the same armed faction and who share a common, horizontal identity based on shared war-and peacetime experiences – in the Republic of Congo (ex-Cobras, Cocoyes and Ninjas) and Sierra Leone (ex-Armed Forces Revolutionary Council, Civil Defense Force and Revolutionary United Front). The main determinants of ex-combatant violence are whether former fighters have access to elites and to second-tier individuals – such as former mid-level commanders – who can act as intermediaries between the two. By utilizing relationships based on selective incentives and social networks, these two kinds of remobilizers are able to generate the needed enticements and feelings of affinity, trust or fear to convince ex-combatants to resort to arms. These findings demonstrate that the outbreak of ex-combatant violence can only be understood by more clearly incorporating an actor perspective, focusing on three levels of analysis: the elite, midlevel and grass-root. This book will be of much interest to students of peacebuilding, civil wars, post-conflict reconstruction, war and conflict studies, security studies and IR.

The Geopolitics of Hunger, 2000-2001 Action Against Hunger,2001 In 34 papers, authors draw on research and firsthand field experience in many parts of the world to explore the use of hunger as a political weapon. They also discuss strategies to counter inequitable food distribution in such situations, consider the role of humanitarian organizations, and review policies that could be used to combat hunger. Action Against Hunger is an international organization, founded in 1979 in France, that works to assist victims of human-made famines. This book is the group's second report on global issues of hunger. Annotation copyrighted by Book News Inc., Portland, OR

Impossible Love Craig Keener, Médine Moussounga Keener, 2016-04-05 Gripping True Story of War and Romance, Hope and Miracles When the odds are impossible, love goes to work. In this thrilling

true-life story, readers follow the path of friendship that grows into a romance that spans continents and survives devastating hardship. Craig Keener, a respected white scholar, was cautious after a broken relationship. Médine, a well-educated African woman, met Craig through a campus ministry and the two became friends. Long after they parted for their respective worlds, Craig realized his love for her and began the arduous--and often supernatural--journey to be reunited. Médine faced terror and disease as a refugee in the war-torn Congo; Craig did not know most days if she was alive or dead. Their tender story of love beating the odds inspires readers to believe that God's own great love for each of us will always overcome.

Ronin Craig Woodfield, 2013-08-20 Set in an age of feuding samurai, wandering swordsmen and fearless warrior monks, Ronin is a skirmish wargame that captures the flavour and excitement of such Akira Kurosawa films as Seven Samurai and Yojimbo. Whether they prefer the loyal samurai retainers of a feudal lord or a horde of desperate bandits, players choose from one of several factions and build forces to battle for dominance and survival in 16th-century Japan. They may also recruit swords-for-hire to supplement their forces – masterless ronin, martial arts masters and secretive ninja will lend their skills to any commander who can afford them. A full points system, incorporating a wide range of equipment and skills, allows for detailed customisation of characters, while scenarios and a campaign system permit them to gain experience and develop over

time. The fast-paced rules simulate the cut and thrust of hand-to-hand combat and require the player to make tactical decisions in the middle of a fight, immersing them in an era of war.

Algorithms in Bioinformatics Steven L.

Salzberg, Tandy Warnow, 2009-09-19 These proceedings contain papers from the 2009 Workshop on

Algorithms in Bioinformatics (WABI), held at the University of Pennsylvania in Philadelphia,

Pennsylvania during September 12–13, 2009. WABI

2009 was the ninth annual conference in this series, which focuses on novel algorithms that address important problems in genomics, molecular biology, and evolution. The conference emphasizes research that describes computationally efficient algorithms and data structures that have been implemented and tested in simulations and on real data. WABI is sponsored by the European Association for Theoretical Computer Science (EATCS) and the International Society for Computational Biology (ISCB). WABI 2009 was supported by the Penn Genome Frontiers Institute and the Penn Center for Bioinformatics at the University of Pennsylvania. For the 2009

conference, 90 full papers were submitted for review by the Program Committee, and from this strong field of submissions, 34 papers were chosen for presentation at the conference and publication in the proceedings. The final program covered a wide range of topics including gene interaction networks, molecular phylogeny, RNA and protein structure, and genome evolution.

The Genesis Curse Ben Gill, 2014-07-18 After almost half a millennium, the Blade of the Gods has surfaced and by a quirk of fate woke its current guardian Terry Gulin, the human clockwork doll known as the Dark Harlequin, from his astral wanderings. When the Blade is stolen from one of its remote Jesuit missions in Mexico, the Catholic Church will stop at nothing to get it back. The Templar, the Church's covert organization acting as judge, jury, and executioner of the paranormal are sent to investigate and retrieve the Aztec artifact. But the Blade has set other powerful forces in motion. Like an evil beacon, the ancient blade draws other, even more deadly, mystical entities from the shadows that are closing in and will destroy anyone that stands between them and the powerful Blade of the Gods. Terry and his band of friends are caught in a fight for their lives against the unknown evil forces that plan to use

the Blade to destroy the world. Faced with overwhelming odds, Terry must use all his otherworldly powers to save his new love Angelina and his comrades, and gain the time he needs to hide the Blade of the Gods where it will never be found. But when friends become enemies and enemies become friends, Terry places his trust in his gypsy allies Aurelia and Mikhail to keep his friends safe. The formidable gypsy bodyguards are put to the test while Terry's new-found friends Joe and Cheri find they must use their fledging psychic and magical powers to keep their band safe. Caught in a cruel, centuries-old game of ancient Gods and dark magic, the Dark Harlequin faces losing all he loves. Will Terry be able to protect them all from their unseen enemies, or will he be left again with nothing but blood and vengeance?
