Crossing Borders Lynne Sharon Schwartz, 2018-01-16 In Joyce Carol Oates's story "The Translation," a traveler to an Eastern European country falls in love with a woman he gets to know through an interpreter. In Lydia Davis's "French Lesson I: Le Meurtre," what begins as a lesson in beginner's French takes a sinister turn. In the essay "On Translating and Being Translated," Primo Levi addresses the joys and difficulties awaiting the translator. Lynne Sharon Schwartz's Crossing Borders: Stories and Essays About Translation gathers together thirteen stories and five essays that explore the compromises, misunderstandings, traumas, and reconciliations we act out and embody through the art of translation. Guiding her selection is Schwartz's marvelous eye for finding hidden gems, bringing together Levi, Davis, and Oates with the likes of Michael Scammell, Harry Mathews, Chana Bloch, and so many other fine and intriguing voices.

Translator's Workbench Marianne Kugler, Khurshid Ahmad, Gregor Thurmair, 2013-11-09 The Translator's Workbench Project was a European Community sponsored research and development project which dealt with issues in multi-lingual communication and documentation. This book presents an integrated toolset as a solution to problems in translation and documentation. Professional translators and teachers of translation were involved in the process of software development, starting with a detailed study of the user requirements and ending with several evaluation-and-improvement cycles of the resulting toolset. English, German, Greek, and Spanish are addressed in the contributions, however, some of the techniques are inherently language-independent and can thus be extended to cover other languages as well. Translation can

be viewed broadly as the execution of three cognitive processes, and this book has been structured along these lines: • First, the translation pre-process, understanding the target language text at a lexico semantic level on the one hand, and making sense of the source language document on the other hand. The tools for the pre-translation process include access to electronic networks, conversion of documents from one format to another, creation of terminology data banks and access to existing data banks, and terminology dictionaries. • Second, the translation process, rendering sentences in the source language into equivalent target sentences. The translation process refers to the potential of conventional machine translation systems, like METAL, and of the statistically oriented translation memory.

Voices in Translation Gunilla M. Anderman, 2007 This volume includes contributions on dialect translation as well as other studies concerned with the problems facing the translator in bridging cultural divides.

Translation Practices Ashley Chantler, Carla Dente, 2009 This cutting-edge collection, born of a belief in the value of approaching 'translation' in a wide range of ways, contains essays of interest to students and scholars of translation, literary and textual studies. It provides insights into the relations between translation and comparative literature, contrastive linguistics, cultural studies, painting and other media. Subjects and authors discussed include: the translator as 'go-between'; the textual editor as translator; Ghirri's photography and Celati's fiction; the European lending library; La Bible d'Amiens; the coining of Italian phraseological units; Michèle Roberts's Impossible Saints; the impact of modern translations for stage on perceptions of ancient Greek drama; and the translation of slang, intensifiers, characterisation, desire, the self, and America in 1990s Italian fiction. The collection closes with David Platzter's discussion of translating Dacia Maraini's poetry into English and with his new translations of 'Ho Sognato una Stazione' ('I Dreamed of a Station') and 'Le Tue Bugie' ('Your Lies').

Literary Translation Clifford E. Landers, 2001-09-13 In this book, both beginning and experienced translators will find pragmatic techniques for dealing with problems of literary translation, whatever the original language. Certain challenges and certain themes recur in translation, whatever the language pair. This guide proposes to help the translator navigate through them. Written in a witty and easy to read style, the book's hands-on approach will make it accessible to translators of any background. A significant portion of this Practical Guide is devoted to the question of how to go about finding an outlet for one's translations.

Translation, Travel, Migration Loredana Polezzi, 2016-04-08 The connection between travel and translation is often evoked in contemporary critical theory, both practices seen as metaphors of mobility and flux linked to globalized 'post-modern' society. Travel is a multiple activity, encompassing temporary and voluntary displacement, repeated movement, exile, economic migration, diaspora. Places of origin are often plural and unstable, in spite of the enduring appeal of traditional labels such as 'mother country' or 'patrie'. The multiple interfaces between translation, travel and migration are the focus of all contributions in this special issue. Starting from different points of view, and using a variety of methodologies, the authors raise fundamental questions about the way in which we perceive the link between language, national or ethnic identity, and individual voice. Topics range from the interaction between travel, travel narratives and translation in early English representations of China, to the special role played by interpreters in mediating the first contact between a literate and a non-literate culture; from the multiple functions and audiences addressed by contemporary Romani literature and its translation, to the political as well as cultural implications of translating popular music across the Bosphorus. A number of the articles focus on detailed textual analysis, covering the intersection between exile, self-translation and translanguaging in the work of Manuel Puig; the uses and limitations of translation in the works of migrant authors; or the impact on figurations of Europe of experimental work embracing polylingualism. Collectively, these contributions also underline the importance of a closer examination of our assumptions about who the translators and the interpreters are, and what roles they play in our society.

The Translator as Mediator of Cultures Humphrey Tonkin, Maria Esposito Frank, 2010-07-22 If it is bilingualism that transfers information and ideas from culture to culture, it is the translator who systematizes and generalizes this process. The translator serves as a mediator of cultures. In this collection of essays, based on a conference held at the University of Hartford, a group of individuals – professional translators, linguists, and literary scholars – exchange their views on translation and its power to influence literary traditions and to shape cultural and economic identities. The authors explore the implications of their views on the theory and craft of translation, both written and oral, in an era of unsettling globalizing forces.

Fictional Translators Rosemary Arrojo, 2017-08-14 Through close readings of select stories and novels by well-known writers from different literary traditions, Fictional Translators invites readers to rethink the main clichés associated with translations. Rosemary Arrojo shines a light on the transformative character of the translator's role and the relationships that can be established between originals and their reproductions, building her arguments on the basis of texts such as the following: Cortázar's Letter to a Young Lady in Paris Walsh's Footnote Wilde's The Picture of Dorian Gray and Poe's The Oval Portrait Borges's Pierre Menard, Author of the Quixote, Funes, His Memory, and Death and the Compass Kafka's The Burrow and Kosztolányi's Kornél Esti Saramago's The History of the Siege of Lisbon and Babel's Guy de Maupassant Sciar's Footnotes and Calvino's If on a Winter's Night a Traveler Cervantes's Don Quixote Fictional Translators provides stimulating material for reflection not only on the processes associated with translation as an activity that inevitably transforms meaning, but, also, on the common prejudices that have underestimated its productive role in the shaping of identities. This book is key reading for students and researchers of literary translation, comparative literature and translation theory.

Becoming a Translator Douglas Robinson, 1997 Integrates translation theory and practical skills. Provides the following kinds of information for the novice translator: How to translate faster and more accurately; how to deal with arising problems; how to deal with stress and How the market works.

Children's Literature in Translation Jan Van Coillie, Walter P. Verschueren, 2014-07-16 Children's classics from Alice in Wonderland to the works of Astrid Lindgren, Roald Dahl, J.K. Rowling and Philip Pullman are now generally recognized as literary achievements that from a translator's point of view are no less demanding than 'serious' (adult) literature. This volume attempts to explore the various challenges posed by the translation of children's literature and at the same time highlight some of the strategies that translators can and do follow when facing these challenges. A variety of translation theories and concepts are put to critical use, including Even-Zohar's polysystem theory, Toury's concept of norms, Venuti's views on foreignizing and domesticating translations and on the translator's

(in)visibility, and Chesterman's prototypical approach. Topics include the ethics of translating for children, the importance of child(hood) images, the 'revelation' of the translator in prefaces, the role of translated children's books in the establishment of literary canons, the status of translations in the former East Germany; questions of taboo and censorship in the translation of adolescent novels, the collision of norms in different translations of a Swedish children's classic, the handling of 'cultural intertextuality' in the Spanish translations of contemporary British fantasy books, strategies for translating cultural markers such as juvenile expressions, functional shifts caused by different translation strategies dealing with character names, and complex translation strategies used in dealing with the dual audience in Hans Christian Andersen's fairy tales and in Salman Rushdie's Haroun and the Sea of Stories.

A Syntax-Oriented Translator Peter Zilahy Ingerman,2014-05-12 A Syntax-Oriented Translator focuses on the field of programming and the characteristics and functions of compilers and translators. The book first offers information on the metasyntactic language and the details of a parsing processor. Discussions focus on processing, recovery, and output sections, detailed flow-chart of the parsing processor, parsing form of a grammar, canonical ordering, and the metasyntactic language in general. The text then elaborates on some extensions to the metasyntactic language and metasemantic and metapragmatic language, including punctuation marks and format control, metasemantic and metapragmatic functions, basic form of the construct, and substitution MSF. The publication examines the details of an unparsing processor, as well as lists used in unparsing, subroutines, and the unparsing processor itself. The book is a dependable source of information for home compiler-writers who are interested in the use of a syntax-oriented translator.
