Home Security System Diy Pro Using Android and Ti Cc3200 Simplelink Robert Chin,2016-08-18 This book shows you how to build and modify your own wifi camera based commercial quality portable wireless security, surveillance, and spy system appropriate for use at home, or during travel. This system uses only an Android cell phone or tablet(operating system 2.2 and above), a TI CC3200 Launchpad or ArduCAM CC3200 UNO, and a TI Camera Booster Pack with MT9D111 digital camera or just an ArduCAM MT9D111 digital camera if you are using an ArduCAM CC3200 Uno which has a built in camera interface. This book shows you how to build and modify your own alarm system that detects the motion of an intruder, calls out to an emergency phone number and sends emergency text messages using an Android cell phone or just alerts you to the intruder using an Android tablet. This alarm system is compact enough to also provide portable security for travelers using hotels and motels or you can use this as a hidden spy camera system. You can also use the security system for high quality continuous real time surveillance of your property. The live video feed is shown on the Android device. The camera can be set to only record pictures where there is movement so you can easily view any saved images to determine what kind of intruder was detected. The image data is stored locally on the Android device and does NOT require payment of storage fees as with some home security company plans. This book will also go into the technical details of the hardware set up as well as the author created Android and TI CC3200 SimpleLink software. With these technical details you will be able to customize and expand these systems to suit your specific needs for your own personal use. This book also serves as a quick start guide for people interested in learning how to program wifi communication between an Android and a TI CC3200 Simplelink device. Who is this book for? This book for people that: * Want a quick start guide to wifi communication between an Android device and a TI CC3200 Simplelink device using a camera. * Travel often and need a low cost, no contract, portable security solution when living in motels and hotels. * Want to secretly monitor a wife, husband, girlfriend, boyfriend, employee, co-worker and/or other people or even animals without their knowledge and have real time notifications sent to your cell phone. Key Feature Summary: * Shows you how to build and modify your own portable wifi camera based commercial quality wireless home or portable security, surveillance, and spy system with real time emergency notification phone call out and text message notifications to your main cell phone. * The home security system presented in this book is easy to assemble and does not require the use of breadboards or soldering. * Follow the detailed Hands on Example and install the pre-made software created by the author on your Android and TI CC3200 SimpleLink devices and get a working commercial quality video surveillance system, or an intruder alarm system up and running quickly

* This book explains the author created source code for the Android and TI CC3200 SimpleLink devices so you can customize the home security system yourself for your own specific needs for personal use. Table of Contents:
Chapter 1: Introducing the ArduCAM CC3200 UNO Chapter 2: TI CC3200 SimpleLink Programming Language Basics Chapter 3: The Android Controller and Wifi Communication Chapter 4: The CC3200 and Wifi Communication Chapter 5: Motion Detection Using a Camera Chapter 6: The Android Wireless Security System Design Chapter 7: The CC3200 Simplelink Wireless Security System Design Chapter 8: Hands on Example: Building an Android and ArduCAM CC3200 UNO Security System Chapter 9: Deploying your GotchaCAM Wireless Intruder Alarm and Surveillance System

Action with the Elderly Kenneth M. G. Keddie,2013-10-22 Action with the Elderly: A Handbook for Relatives and Friends contains practical advice that will help the elderly citizens adjust in this mobile, technological, and rapidly changing society. This handbook describes the services it offers as complementing the qualities of a good doctor, the good priest, the good neighbor, and even the qualities of the good parent. The text addresses the value of independence in old age, with some case studies to drive the point. The book explains rendering help in a personal way through visits, conversation, or reading; the text likewise offers tips on helping in practical ways such as cooking, memory compensation, and offers of appropriate and nourishing food. The book lists and explains other ways of caring such as maintenance of the home, appropriate health concerns, and communications. The text lists organizations and persons responsible for the elderly. The family doctor, voluntary organizations, and churches all contribute to the well-being of the elderly. The book then discusses the problems of the elderly such as psychological changes or bereavement. This handbook also offers advice on how to deal with serious mental disturbances, for example, depression, delirium, paranoia, or senility. This book will prove its worth to relatives, friends, caregivers, voluntary workers, social workers, religious ministers, and administrators of home for the aged institutions.
