The Portable Atheist Christopher Hitchens,2007-12-10 Christopher Hitchens's personally curated New York Times bestselling anthology of the most influential and important writings on atheism, including original pieces by Salman Rushdie and Ian McEwan From the #1 New York Times best-selling author of *God Is Not Great*, a provocative and entertaining guided tour of atheist and agnostic thought through the ages--with never-before-published pieces by Salman Rushdie, Ian McEwan, and Ayaan Hirsi Ali.Christopher Hitchens continues to make the case for a splendidly godless universe in this first-ever gathering of the influential voices--past and present--that have shaped his side of the current (and raging) God/no-god debate. With Hitchens as your erudite and witty guide, you'll be led through a wealth of philosophy, literature, and scientific inquiry, including generous portions of the words of Lucretius, Benedict de Spinoza, Charles Darwin, Karl Marx, Mark Twain, George Eliot, Bertrand Russell, Emma Goldman, H. L. Mencken, Albert Einstein, Daniel Dennett, Sam Harris, Richard Dawkins, and many others well-known and lesser known. And they're all set in context and commented upon as only Christopher Hitchens--political and literary journalist extraordinaire (Los Angeles Times)--can. Atheist? Believer? Uncertain? No matter: *The Portable Atheist* will speak to you and engage you every step of the way.

Against Religion: The Atheist Writings of H.P. Lovecraft H. P. Lovecraft,2010 Collection of letters and essays on religion, atheism, and related subjects.

The Portable Atheist Christopher Hitchens,2007-11-06 Presents excerpts on the subject of religion from the writings of such notable non-believers as John Stuart Mill, Karl Marx, Charles Darwin, Mark Twain, H. L. Mencken, Albert Einstein, Richard Dawkins, and Salman Rushdie.

Every Day Is an Atheist Holiday! Penn Jillette,2013-10-29 From Emmy Award-winning, world-famous magician Penn Jillette comes an irreverent, hilarious, and provocative book of essays--the perfect gift for the skeptic in your life. Let's be honest--nobody has more fun than atheists. Don't believe it? Well, consider this: For non-believers, every day you're alive is a day to celebrate! And no one celebrates life to the fullest like Penn Jillette, the larger, louder half of legendary magic duo Penn & Teller, whose spectacularly witty and sharply observant essays in *Every Day Is an Atheist Holiday!* will entertain zealots and skeptics alike. Whether he's contemplating the possibility of life after death, deconstructing popular Christmas carols, or just calling bullsh*t on Donald Trump, Jillette does not fail to shock and delight his readers. And as ever, underneath these rollicking rants lie a deeply personal philosophy and a generous spirit, which find joy and meaning in family, and peace in the simple beauty of the everyday. *Every Day Is an Atheist Holiday!* is a hysterical affirmation of life's magic from one of the most distinctly perceptive and provocative humorists writing today.

The Atheist's Fatal Flaw Norman L. Geisler,Daniel J. McCoy,2014-06-10 Most critiques of atheism focus on refuting head-on the claims of atheists. Instead, this unique book faithfully represents what atheists say they believe and stands back to watch as the natural inconsistencies in that worldview inevitably rise to the surface. Norman L. Geisler, the apologetic giant of our time, is joined by Daniel J. McCoy, highlighting two inconsistencies in particular. First they examine the atheist's assertion that God cannot exist because there is evil in the world and that if God truly existed, he would intervene. These same people then turn around and say any intervention on God's part would impose upon human autonomy, and thus would be unjust. Second, these very interventions that would be considered immoral if imposed upon the earth by God are lauded when they stem instead from some human institution or authority. Geisler and McCoy highlight this kind of doublethink step by step, showing readers how to identify such inconsistencies in atheistic arguments and refute them--or rather show atheists how they refute themselves.

The Age of Atheists Peter Watson,2014-02-18 The distinguished historian and author of *The Medici Conspiracy* examines atheism as a modern intellectual achievement that has motivated individuals to pursue invention and self-reliance, citing the accomplishments of secular philosophers, scientists and artists who have worked in the absence of religious belief.

Atheism Michael Ruse,2015 Over the last decade, New Atheists such as Sam Harris, Richard Dawkins, and Christopher Hitchens have pushed the issue of atheism to the forefront of public discussion. Yet very few of the ensuing debates and discussions have managed to provide a full and objective treatment of the subject. *Atheism: What Everyone Needs to Know* provides a balanced look at the topic, considering atheism historically, philosophically, theologically, sociologically and psychologically. Written in an easily accessible style, the book uses a question and answer format to examine the history of atheism, arguments for and against atheism, the relationship between religion and science, and the issue of the meaning of life--and whether or not one can be a happy and satisfied atheist. Above all, the author stresses that the atheism controversy is not just a matter of the facts, but a matter of burning moral concern, both about the stand one should take on the issues and the consequences of one's commitment.

Atheism S. T. Joshi,2000 An anthology of writings on atheism, agnosticism, and skepticism by some of the world's most celebrated thinkers.

A Manual for Creating Atheists Peter Boghossian,2014-07-01 For thousands of years, the faithful have honed proselytizing strategies and talked people into believing the truth of one holy book or another. Indeed, the faithful often view converting others as an obligation of their faith--and are trained from an early age to spread their unique brand of religion. The result is a world broken in large part by unquestioned faith. As an urgently needed counter to this tried-and-true tradition of religious evangelism, *A Manual for Creating Atheists* offers the first-ever guide not for talking people into faith--but for talking them out of it. Peter Boghossian draws on the tools he has developed and used for more than 20 years as a philosopher and educator to teach how to engage the faithful in conversations that will help them value reason and rationality, cast doubt on their religious beliefs, mistrust their faith, abandon superstition and irrationality, and ultimately embrace reason.

God Is Not Great Christopher Hitchens,2008-11-19 Christopher Hitchens, described in the *London Observer* as "one of the most prolific, as well as brilliant, journalists of our time" takes on his biggest subject yet--the increasingly dangerous role of religion in the world. In the tradition of Bertrand Russell's *Why I Am Not a Christian* and Sam Harris's recent bestseller, *The End Of Faith*, Christopher Hitchens makes the ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-made wish, a cause of dangerous sexual repression, and a distortion of our origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the Hubble Telescope's awesome view of the universe, and Moses and the burning bush give way to the beauty and symmetry of the double helix.

God, No! Penn Jillette, 2012-06-05 The outspoken half of magic duo Penn & Teller presents an atheistic reinterpretation of the Ten Commandments, discussing why doubt, skepticism, and wonder should be celebrated and offering humorous stories from his own experiences.

The Happy Atheist PZ Myers, 2014-05-06 On his popular science blog, Pharyngula, PZ Myers has entertained millions of readers with his infectious love of evolutionary science and his equally infectious disdain for creationism, biblical literalism, intelligent design theory, and other products of godly illogic. This funny and fearless book collects and expands on some of his most popular writings, giving the religious fanaticism of our times the gleeful disrespect it deserves by skewering the apocalyptic fantasies, magical thinking, hypocrisies, and pseudoscientific theories advanced by religious fundamentalists of all stripes. Forceful and articulate, scathing and funny, *The Happy Atheist* is a reaffirmation of the revelatory power of humor and the truth-revealing powers of science and reason.

Outgrowing God Richard Dawkins, 2019-10-08 Should we believe in God? In this brisk introduction to modern atheism, one of the world's greatest science writers tells us why we shouldn't. Richard Dawkins was fifteen when he stopped believing in God. Deeply impressed by the beauty and complexity of living things, he'd felt certain they must have had a designer. Learning about evolution changed his mind. Now one of the world's best and bestselling science communicators, Dawkins has given readers, young and old, the same opportunity to rethink the big questions. In twelve fiercely funny, mind-expanding chapters, Dawkins explains how the natural world arose without a designer—the improbability and beauty of the “bottom-up programming” that engineers an embryo or a flock of starlings—and challenges head-on some of the most basic assumptions made by the world's religions: Do you believe in God? Which one? Is the Bible a “Good Book”? Is adhering to a religion necessary, or even likely, to make people good to one another? Dissecting everything from Abraham's abuse of Isaac to the construction of a snowflake, *Outgrowing God* is a concise, provocative guide to thinking for yourself. Praise for *Outgrowing God* “My son came home from his first day in the sixth grade with arms outstretched plaintively demanding to know: ‘Have you ever heard of Jesus?’ We burst out laughing. Maybe not our finest parenting moment, given that he was genuinely distraught. He felt that he had woken up one day to a world in which his peers were expressing beliefs he found frighteningly unreasonable. He began devouring books like *The God Delusion*, books that helped him formulate his own arguments and helped him stand his ground. Dawkins's new book is special in the terrain of atheists' pleas for humanism and rationalism precisely since it speaks to those most vulnerable to the coercive tactics of religion. As Dawkins himself says in the dedication, this book is for ‘all young people when they're old enough to decide for themselves.’ It is also, I must add, for their parents.”—Janna Levin, author of *Black Hole Blues* “When someone is considering atheism I tell them to read the Bible first and then Dawkins. *Outgrowing God*—second only to the Bible!”—Penn Jillette, author of *God, No!*

The Faith of Christopher Hitchens Larry Alex Taunton, 2016-04-12 2016 Winner of the Gospel Coalition Book Awards At the time of his death, Christopher Hitchens was the most notorious atheist in the world. And yet, all was not as it seemed. “Nobody is not a divided self, of course,” he once told an interviewer, “but I think it's rather strong in my case.” Hitchens was a man of many contradictions: a Marxist in youth who longed for acceptance among the social elites; a peacenik who revered the military; a champion of the Left who was nonetheless pro-life, pro-war-on-terror, and after 9/11 something of a neocon; and while he railed against God on stage, he maintained meaningful—though largely hidden from public view—friendships with evangelical Christians like Francis Collins, Douglas Wilson, and the author Larry Alex Taunton. In *The Faith of Christopher Hitchens*, Taunton offers a very personal perspective of one of our most interesting and most misunderstood public figures. Writing with genuine compassion and without compromise, Taunton traces Hitchens's spiritual and intellectual development from his decision as a teenager to reject belief in God to his rise to prominence as one of the so-called “Four Horsemen” of the New Atheism. While Hitchens was, in the minds of many Christians, Public Enemy Number One, away from the lights and the cameras a warm friendship flourished between Hitchens and the author; a friendship that culminated in not one, but two lengthy road trips where, after Hitchens's diagnosis of esophageal cancer, they studied the Bible together. *The Faith of Christopher Hitchens* gives us a candid glimpse into the inner life of this intriguing, sometimes maddening, and unexpectedly vulnerable man. “If everyone in the United States had the same qualities of loyalty and care and concern for others that Larry Taunton had, we'd be living in a much better society than we do.” ~ Christopher Hitchens

The Four Horsemen Christopher Hitchens, Richard Dawkins, Sam Harris, Daniel Dennett, 2019-03-19 In 2007, Christopher Hitchens, Richard Dawkins, Sam Harris, and Daniel Dennett filmed a landmark discussion about modern atheism. The video went viral. Now in print for the first time, the transcript of their conversation is illuminated by new essays from three of the original participants and an introduction by Stephen Fry. At the dawn of the new atheist movement, the thinkers who became known as “the four horsemen,” the heralds of religion's unraveling—Christopher Hitchens, Richard Dawkins, Sam Harris, and Daniel Dennett—sat down together over cocktails. What followed was a rigorous, pathbreaking, and enthralling exchange, which has been viewed millions of times since it was first posted on YouTube. This is intellectual inquiry at its best: exhilarating, funny, and unpredictable, sincere and probing, reminding us just how varied and colorful the threads of modern atheism are. Here is the transcript of that conversation, in print for the first time, augmented by material from the living participants: Dawkins, Harris, and Dennett. These new essays, introduced by Stephen Fry, mark the evolution of their thinking and highlight particularly resonant aspects of this epic exchange. Each man contends with the most fundamental questions of human existence while challenging the others to articulate their own stance on God and religion, cultural criticism, spirituality, debate with people of faith, and the components of a truly ethical life. Praise for *The Four Horsemen* “This bracing exchange of ideas crackles with energy. It's fascinating to watch four first-class minds explore a rugged intellectual terrain. . . . The text affords a different, more reflective way of processing the truly vital exchange of ideas. . . . I commend the book to those seeking an honest reckoning with their religion—and those curious about how the world looks from a rigorously naturalistic and atheistic point of view.”—Pittsburgh Post-Gazette “The full, electrifying transcript of the one and only conversation between the quartet of luminaries dubbed the ‘four horsemen’ of the New Atheism, which took place in Washington, D.C., in 2007. Among the vast range of ideas and questions they discuss: Is it ever possible to win a war of ideas? Is spirituality the preserve of the religious? And, are there any truths you would rather not know?”—The Bookseller (UK) (starred review)

Religion for Atheists Alain De Botton, 2012-03-06 What if religions are neither all true nor all nonsense? The long-running and often boring debate between fundamentalist believers and non-believers is finally moved forward

by Alain de Botton's inspiring new book, which boldly argues that the supernatural claims of religion are entirely false—but that it still has some very important things to teach the secular world. Religion for Atheists suggests that rather than mocking religion, agnostics and atheists should instead steal from it—because the world's religions are packed with good ideas on how we might live and arrange our societies. Blending deep respect with total impiety, de Botton (a non-believer himself) proposes that we look to religion for insights into how to, among other concerns, build a sense of community, make our relationships last, overcome feelings of envy and inadequacy, inspire travel and reconnect with the natural world. For too long non-believers have faced a stark choice between either swallowing some peculiar doctrines or doing away with a range of consoling and beautiful rituals and ideas. At last, in Religion for Atheists, Alain de Botton has fashioned a far more interesting and truly helpful alternative.

Religion and Spirituality Eliot Deutsch,1995-01-01 Through the skillful use of a great variety of literary genres, this book explores the intimate relation and tension between religion and spirituality, evoking a wide range of responses that may awaken one to various possibilities of spiritual experience.

Mortality Christopher Hitchens,2012-09-04 Based on his columns in Vanity Fair that chronicled his year-and-a-half battle with esophageal cancer, Mortality is Christopher Hitchens at his most honest and reflective . Thoughtfully meditating on the harrowing effects of illness and treatment on the body, and on the impermanence and acceptance of a life ending, Mortality is Hitchens' magnum opus, and in true Hitchens form, he has the last word.

Atheist Universe David Mills,2004-04 Is there really a God? Or does God exist only in our heads? Is the Bible truly God's Word, or a jumble of fanciful myths? This book is your front-row ticket to mankind's most enthralling debate. An atheist for thirty years, David Mills argues that God is unnecessary to explain the universe and life's diversity, organization and beauty. This unique and captivating book rebuts every argument ever offered to prove God's existence and the Bible's credibility - arguments from logic, common sense, Christian apologetics, philosophy, ethics, history, and up-to-the-minute science. It's all here for you in one richly entertaining, comprehensive, and easy-to-read volume. Few other books provide such spellbinding inquiry and arrive at such a controversial and well-documented conclusion. The publication of David's work on the dangers and disadvantages of devout religiosity will be very useful for anyone with harmful religious beliefs. Honest, frank, and right to the point! I found it very fine reading. - Albert Ellis, Ph.D., father of modern psychotherapy, author of A Guide to Rational Living and 53 other books. I like this material very much. David Mills says very ably and clearly all that needs to be said. - Ashley Montagu, Ph.D., Harvard and Princeton anthropologist, author of The Elephant Man. (Commenting on Chapter 3) What's on the Cover? Introduction: Is This Book an Outrage? Chapter 1: Fifty Famous People Who Criticized Religion Chapter 2: Interview with an Atheist
