Portugal: Tenth Review Under the Extended Arrangement and Request for Waivers of Applicability of end-December Performance Criteria International Monetary Fund. European Dept.,2014-02-19 This paper discusses Portugal's Tenth Review Under the Extended Arrangement. The short-term outlook has improved and program implementation remains on track, notwithstanding another adverse Constitutional Court ruling. Stronger domestic demand is supporting a pick-up in activity and lower unemployment. The end-September 2013 quantitative performance criteria (PCs) were met, and preliminary estimates suggest that the end-December 2013 targets were also met. Risks to attaining the objectives of the program remain high. IMF Staff supports the authorities' request for completion of the tenth review and for waivers of applicability of the end-December PCs.

Reinventing the Postal Sector in an Electronic Age Michael A. Crew,Paul R.

Kleindorfer,2011-01-01 This compilation of original essays by an international cast of economists, regulators and industry practitioners analyzes some of the major issues now facing postal and delivery services throughout the world as competition from information and communication technologies (ICT) has increased. Competition has become increasingly important in the postal sector for some time in the form of alternative entrants providing mail delivery. However, the competition from ICT in the form of email and instant messaging, the Internet, Facebook and other forms of social networking and portable wireless devices such as the iPad and Kindle may be even more significant. Mail volumes are falling and the economies of scale that have made possible daily deliveries to every address are being eroded. This book assesses volume these declines resulting from this so-called eSubstituion and looks at the ways the postal sector can adapt to the rapid changes resulting from ICT. The impact of electronic invoicing on transactions mail, and the impact on bulk mail of electronic forms of advertising are examined. Strategies, including pricing and access policies, are discussed in the context of the increasing impact of ICT. A rethinking of the role of mail in an electronic age is taking place and this book provides the cutting-edge of this rethinking and the attempts of POs to reinvent themselves while continuing to meet the public s expectation of continuing ubiquitous daily deliveries of traditional mail products. Undergraduate and postgraduate students and researchers in regulation, competition law, innovation and public sector economics along with institutional libraries and industry professionals will find this volume informative and useful.

Portugal International Monetary Fund,2012-07-17 This paper discusses findings of the fourth review under an Extended Fund Facility Arrangement with Portugal. One year into the program, the authorities are making progress in reducing economic imbalances. The delicate balance between orderly deleveraging and improving competitiveness also remains in place. A turnaround in investor sentiment has nonetheless proved elusive, reflecting the formidable challenges that remain. Bank deposits remain stable and funding continues to be supported by euro system lending. Market sentiment has improved, although spreads remain high and volatile.
