In short, that your life can be full of joy and satisfaction. *Napoleon Hill's Keys to Positive Thinking* Napoleon Hill,Michael J. Ritt,2004-10 You can change your life with this small book. It contains the key to your success: PMA, positive mental attitude. You can achieve PMA and realize your dreams when you follow the proven principles outlined simply and clearly in this step-by-step guide.A VIEW OF THE PROMISED LANDIn the Bible we are told that just

before Moses reached the end of his life, God led him up to the top of Mount Nebo and showed the great leader the land that was going to belong to the Israelites. Before you begin this journey to take charge of your life, you, too, deserve a vision of where you are going. You are coming to the end of an old way of living and are soon to embark on a new beginning. Starting now, you will be casting off old, energy-draining, negative ways of looking at the world and replacing them with the irresistibly invigorating life that comes with a Positive Mental Attitude. Carry this image of hope with you -- the hope of what PMA will do for you. Imagine, from this day on: You will recognize that you have a God-given creative power within you. You will develop control of your emotions so that you can always direct their creative power for your own good. You will eliminate all the negative attitudes that have resulted from your ineffective reaction to past experiences. You will overcome your fears, realizing that they have a destructive influence upon your creative power if you permit them to dominate your mind. You will picture only good things happening to you so that this creative power will be expressed only within a good and positive framework. You will stop brooding over your past failures and tragedies and stop causing them to be repeated in your life. You will direct your strongest feelings and desires toward the things you really want in life. You will never knowingly use the creative power of PMA for selfish or evil purposes, knowing that the misuse of it can cause it to destroy you and all that you value. Attaining these benefits (your birthright as a human being) will be your goal from this day on. Nothing can stop you, and the only resource you need is your own commitment to making it happen.--From the Introduction

**Positive Attitude** Dan Miller, 2014-12-17 Positive mental attitude is a concept that has been developed in many areas of life as a key to success. In 1937, Napoleon Hill introduced the importance of positive thinking in the book *Think and Grow Rich*. Later on, other scholars such as W. Clement Stone found positive mental attitude as a very critical component to personal success and productivity. The right mental attitude is associated with positive characteristics such as hope, courage, faith, optimism, generosity, initiative, tolerance, kindness, tact and good common sense. Positive attitude is more of a philosophy that builds on the fact that having an optimistic disposition in any circumstance of life can help you in enhancing achievement and positive changes. It is a state of mind that tirelessly seeks for ways of victory regardless of the surrounding circumstances. Positivity by its mere definition opposes negativity, hopelessness and defeatism. To develop mental strength, you need deliberate measures and commitment. A resilient mind is one that never loses focus even when subjected to the most stressful conditions. Mental toughness will help you maneuver through stress and emerge stronger than before. A mental attitude is the bridge that connects success and failure. On one end of the bridge is failure which is characterized by negativity while on the other end it is success which is denoted by a positive attitude. At any one given time, individuals are between the two points emotionally. They are at liberty to swing towards any end but they must also be ready to bear the consequences. It is true that you can overcome negativity but you must be determined. Having a clear understanding of the end result can motivate you to changing you from negativity into positivity. It is possible to turn situations of failure into success. With a positive attitude, your setback can be a setup for a comeback. Difficult times come to each one of us without an introduction. These situations can sink us deeper leaving us more depressed and devastated internally. Being positive in life will help you to handle these circumstances and find a way around them. This is because a positive attitude gives you a unique dimension that takes into account the storm that you are currently passing through and the lull that is imminent immediately after the storm is over. With these two perspectives, you can develop a coping strategy that has both endurance and hope knowing that good times are still ahead

*Using Power of Positive Thinking* Barbara Jones, 2019-11-11 Positive Thinking is a Bunch of Crap - and Crap Makes Great Fertilizer A positive attitude may not solve all your problems, but it will annoy enough people to make it worth the effort. Herm Albright At some point in your life, you've probably heard about the power of positive thinking. Basically, this is a theory that contends if you believe good things will happen to you, there will be some sort of cataclysmic shift in the energies surrounding you which will actually cause good things to happen to you. For as many people who believe in the power of positive thinking, there are many more who believe it's all a bunch of New Age pop psychology drivel or sugar-coated Peter Pan platitudes. Here's the kicker: they're all right. You see, positive thinking is a system of beliefs. So if you believe it doesn't work-then, of course, it won't work. And if you believe it does work...well, you get the idea. For non-believers, using positive thinking is like trying to get a job after high school. You need experience to get a job, but you need a job to get the experience. It can be difficult to know where you're supposed to start. But

just like any other process, the key to making positive thinking work for you is to start small. Plant seeds, if you will, and then learn how to tend and cultivate those seeds until you have a mental garden that bears a phenomenal crop, year after year. Anything is possible with positive thinking...even if you do believe it's all a bunch of crap. Norman Vincent Peale, the father of positive thinking, once said: If you have zest and enthusiasm you attract zest and enthusiasm. Life does give back in kind. This is the essence of positive thinking. It's not so much a theory as it is a contagious disease. Just as anger and negativity spread quickly from person to person, so do humor and happiness- only good feelings spread far faster. Think about it: have you ever noticed that the quickest way to ease a tense situation is to make a joke? The instant someone laughs or smiles, a sense of relief spreads through everyone in the vicinity. Even if the angered parties don't feel better, they are at least able to discuss the problem in a detached and objective way, and get on with their lives instead of dwelling on negativity. For that same reason, solo drivers who get cut off in traffic tend to remain angry for at least the rest of the drive- because there is no one else near them to send out good vibrations and break the tension. Makes sense, doesn't it? If you've picked up this book and read this far, the seeds of belief are already there. Your next step is to clear your mind's garden of doubt and get ready to plant. You'll learn how to take all that negativity and mulch it down into fertilizer that will let your possibilities grow. Now grab your shovel, and let's head in to the garden. The biggest tree in the world grows from a seed you can hold between two fingers. Whether you think you can or whether you think you can't...you're right.- Henry Ford
