Academic & Scientific Poster Presentation Nicholas Rowe,2017-09-04 This book offers the first comprehensive guide to poster presentation at academic, scientific and professional conferences. Each chapter explores different factors that impact upon how posters function, and how they fit within today's conference practices, as well as provides guidance on how to address compilation and presentation issues with the poster medium. Drawing from fields of education, psychology, advertising and other areas, the book offers examples of how theories may be applied to practice in terms of both traditional paper and electronic poster formats. Importantly, the book offers a critical examination of how academic and scientific posters are able to achieve their potential for knowledge dissemination, networking and knowledge transfer. The many new and challenging findings provide an evidence-based approach to help both novice and experienced presenters compile effective poster presentations, and to see how poster presentations can best be used to share knowledge, facilitate networking, and promote dialogue. Additionally, educators, employers, and conference organizers may use this book to re-evaluate how conferences meet the needs of today's globally connected peer groups, and the benefit they provide at individual and group levels.

Scientist's Guide to Poster Presentations Peter J. Gosling,2012-12-06 Scientific information is increasingly being communicated at both national and international scientific conferences in the form of poster presentations. A recent international conference, for example, which involved nearly 500 delegates from over 50 different countries, included information presented in 331 posters. Recent experience has shown, however, that the presentational standard of such posters, even at the international level, varies immensely. Individuals presenting well-designed, eye-catching, and engaging posters are at a distinct advantage in promoting their scientific information. In doing so, they also promote themselves as credible scientists, as well as promoting the reputation of their establishments and countries of origin. However, producing a poster of high quality requires considerable planning and the acquisition of specific presentational skills. This book provides detailed practical guidance on all aspects of presenting scientific information in the form of posters. It is assumed that the presenter has access, either at home, at work, or through libraries, to a computer or word processor, a color printer, and photocopiers. The book is intended to help scientists to gain poster presentational skills in a manner that enables adoption of an individualistic style of presenting information in a credible fashion. The book has relevance internationally and is primarily targeted at research workers, including postgraduate students and all scientific professionals who are required to present visual communication of scientific information.

Juvenile Justice Anger Management (JJAM) Treatment for Girls Naomi E. Goldstein,Christy Giallella,Jennifer Serico,Emily Haney-Caron,Rachel Kalbeitzner,Amanda D. Zelechowski,Christina L. Riggs Romaine,Kathleen Kemp,2023 The Juvenile Justice Anger Management (JJAM) Treatment for Girls is a manualized anger management and aggression reduction treatment designed for adolescent girls and young women placed in residential juvenile justice facilities. This gender-specific treatment is an 8-week, cognitive-behavioral group intervention that consists of 16 90-minute sessions. The JJAM Facilitator Manual includes a user-friendly, session-by-session guide, along with the accompanying workbook materials for youth participants. JJAM addresses the unique gender- and developmental-needs of girls and young women in juvenile justice system, such as the link between relational and physical aggression, the importance of strengthening and repairing damaged relationships, and the need to transfer skills learned in a facility to day-to-day life in the community following discharge. Session activities elicit real-life examples from participants so that activities and content can be tailored to the characteristics, needs, and interests of the specific girls and young women in each group. JJAM was developed through a rigorous research process and is identified as an empirically based program and empirically supported treatment. Studies have shown that JJAM significantly reduced anger and aggression among girls in residential juvenile justice facilities, making it an essential resource for any clinician working on anger management treatment.

London, 1984 Stephen Brooke,2024-01-22 In London in 1984 two very different cities came into conflict, one rooted in radical politics and the other shaped by Margaret Thatcher and the Conservative government. This was a city poised between two eras and identities, remoulded in conflicting ways by social democracy and neoliberalism. Using a wide array of sources, many of which have never been used before, London, 1984 explores the radical history of the capital in this tumultuous era, from a major anti-Apartheid march in central London to an alternative childcare centre in Dalston, a protest staged on the Thames against Docklands development to tensions on housing estates in the East End and Tottenham around racial violence and policing, a raid on a gay bookshop in Bloomsbury to the Greater London Council's attempt to build a challenge to Thatcherism from County Hall, Lambeth, and controversial and well-known historical actors, such as Ken Livingstone and Margaret Thatcher, to the compelling stories of numerous less famous Londoners who also sought to influence the shape and nature of their city. This is a story of struggles within the corridors of power, but it is also one of those on the ground, waged through popular culture, activism, and in daily life. In so doing, London, 1984 offers a panoramic, timely, and revealing portrait of the city in a pivotal decade in its modern history. These years saw deep problems of racial violence, policing, and poverty, as well as other controversies and struggles—over feminism, gay and lesbian rights, anti-racism, jobs and economic strategy, neoliberalism and the nature of the state, and global issues, such as Apartheid, nuclear weapons, and Northern Ireland. Across these, and the stories of those who lived, shaped, and fought them, we see the roots of London and Britain today.

Posters Elizabeth E. Guffey,2014-10-15 From band posters stapled to telephone poles to the advertisements hanging at bus shelters to the inspirational prints that adorn office walls, posters surround us everywhere—but do we know how they began? Telling the story of this ephemeral art form, Elizabeth E. Guffey reexamines the poster’s roots in the nineteenth century and explores the relevance they still possess in the age of digital media. Even in our world of social media and electronic devices, she argues, few forms of graphic design can rival posters for sheer spatial presence, and they provide new opportunities to communicate across public spaces in cities around the globe. Guffey charts the rise of the poster from the revolutionary lithographs that papered nineteenth-century London and Paris to twentieth-century works of propaganda, advertising, pop culture, and protest. Examining contemporary examples, she discusses Palestinian martyr posters and West African posters that describe voodoo activities or Internet con men, stopping along the way to uncover a rich variety of posters from the Soviet Union, China, the United States, and more. Featuring 150 stunning images, this illuminating book delivers a fresh look at the poster and offers revealing insights into the designs and practices of our twenty-first-century world.
