Cricket to Corporate Kapil Pathare,2014-11-19 Cricket has emerged as religion in the sub-continent, While in the West, strategy may have had its origins in the Military, here we can clearly see patterns that Corporate Strategy seems to emerge from Cricket. Gully Cricket is all about adapting, and the three formats of the game, viz. T20, 50-50 and Test Match demand different strategies -- from rapid to agile to sustainable. One relates to targets far better as we have accustomed ourselves to chasing and defending. Slogging is not just about working hard, but also about hardhitting. Strike Bowler is also a star performer and there are many parallels one can discover between the strategic role in a corporate and what happens in the field of Cricket. What's on paper and what happens on the field are as good as the implementation that happens on ground. Lengthy presentations, discussions are no good till it is translated into reality on the field. Similarly a player may have impressive track record in terms of an average; or centuries and half centuries scored, but the performance on the given day matters. Truly Cricket and Corporate is the Convergence point of strategy.

Cricket Today - Weekly 2017 CT Team,2018-01-20 It was an acid Test for Rohit Sharma when he was asked to lead Team India in absence of regular captain Virat Kohli. Make no mistake, Rohit Sharma has been a fantastic leader for Mumbai Indians in the Indian Premier League but captaining Men in Blue is altogether a different job and if u fail, there is no second chance. Rohit must have felt the same when Sri Lanka trounced India in the first ODI. It was a collective failure with fingers being pointed at Rohit Sharma and cricket fanatics started missing Virat Kohli. I was amazed to see Rohit Sharma's response in the second match. Batting like a true star, he clobbered Lankan bowlers to all corners, hitting fours and sixes at will. The rate at which he scored his runs was enough to shell shock his rivals. The ongoing Ashes has been a fantastic one for Australia, giving no chance to England, who are like kids playing cricket for the first time in their respective careers. A lot was expected when England left for Australia, considering the hostile rivalry between two countries. But, it has become a one sided affair with Australia leading five-match series 3-0 and a whitewash is on the cards. Senior English pros have found life miserable in front of the wicket, be it any batsman or bowler. There is more to read from cricket in this issue...

Brave New Pitch: The Evolution Of Modern Cricket Samir Chopra,2012-10-26 Cricket as we know it may soon be no more. Thanks to Twenty20, technology, media, and the sheer financial power of Indian cricket, the gentleman's game is on the brink of radical changes. Nation-based cups might give way to T20 professional leagues; umpires might be replaced by technology; and professional franchises, not national boards, might call the shots. Could cricket go the way of professional football? Will Test cricket survive in an entertainment-driven field? Will television rights deals determine the nature of the game? This upheaval has been accompanied by conflict between the old guard - England and Australia - and the new boss, India. If the spirit of cricket is to survive these changes, it requires the balancing of economic, political and sporting imperatives. The game must find a way to remain a financially solvent global sport that caters to the changing tastes of its fans and players by creatively using new media and limited-overs cricket. In Brave New Pitch, Samir Chopra takes a hard look at cricket's tumultuous present, and considers what could and should lie ahead.

Dreaming the Impossible Mihir Bose,2022-05-05 Shortlisted for the 2023 Sports Book Awards for Best Sports Writing of the Year The British, who are rightly proud of their sporting traditions, are now having to come to terms with the dark, unacknowledged, past of racism in sport – until now the truth that dare not speak its name. Conscious and unconscious racism have for decades blighted the lives of talented black and Asian sportsmen and women, preventing them from fulfilling their potential. In Formula One, despite Lewis Hamilton's stellar achievements, barely one per cent of the 40,000 people employed in the sport are of ethnic minority heritage. In football, Britain's premier sport, the number of non-white managers in the professional game remains pitifully small. And in cricket, Azeem Rafiq's testimony to the Commons select committee has exposed the scandal of prejudice faced by Asian cricketers in the game. Veteran author and journalist Mihir Bose examines the way racism has affected black and Asian sportsmen and women and how attitudes have evolved over the past fifty years. He looks in depth at the controversies that have beset sport at all levels: from grassroots to international competitions and how the 'Black Lives Matter' movement has had a seismic impact throughout sport, with black sports personalities leading the fight against racism. However, this has also led to a worrying white fatigue. Talking to people from playing field to boardroom and the media world, he illustrates the complexities and striking contrasts in attitudes towards race. We hear the voices of players, coaches and administrators as Mihir Bose explores the question of how the dream of a truly non-racial sports world can become a reality.
