Dph Sports Series-Snooker And Billiards Ashok Kumar,1999 In developing countries, sports development cooperation is still in the need of justification and steadfast arguments. Many people ask the question why invest in sports in developing countries for which water supply, health service and agriculture projects are much better suited? An apt reply to this question may be for many of the people of a developing country, Sports is the only Sweaty Leisure-time activity. Sports represents a moment of joy in the midst of hard poverty-stricken and dirty everyday life. Doing sports even makes one's work go more smoothly the next day. Contents: Introduction, Equipment, Playing to Win, Downturn and Revival, The Challenging Order, Cue Control and Cue Ball Control, Special Shots, The Inner Game, The Snooker Boom, Snooker Rules.

**Black Farce and Cue Ball Wizards** Clive Everton,2011-12-02 Throughout its chequered history, snooker has had more than its fair share of heroes and villains, champions and chumps, rascals and rip-off artists. In the last 20 years, every sleazy scandal imaginable has attached itself to this raffish sport: corruption, match fixing, bribery, sex, recreational drugs, performance-enhancing drugs, ballot rigging, fraud, theft, domestic violence, common-or-garden violence, paranoid politicking, dirty tricks - all against a background of inept petty tsars fixated on the pursuit, retention and abuse of power. In *Black Farce and Cue Ball Wizards*, Clive Everton recounts the glory and despair, the dreams and disillusion, and the treachery and greed that have characterised the game since it was invented as an innocent diversion by British Army officers in India in the nineteenth century. He tells the true and unexpurgated tale of snooker's transformation into a television success story second only to football and exposes how its potential has been shamefully squandered.

*Sport's Relationship with Other Leisure Industries* Dion Georgiou,Benjamin Litherland,2017-01-12 This innovative and timely volume of essays critically interrogates the shared histories between sport and a variety of leisure, entertainment and cultural pursuits. *Sport's Relationship with Other Leisure Industries: Historical Perspectives* spans the bowling greens of early modern England to the postmodern exhibition halls of contemporary Las Vegas, and considers examples from Europe, North America and India. Utilizing a range of historical methods and sources, they describe how sport has interacted with a broad range of leisure forms, including tourism, shopping, theatre, circus, carnival and film. The collection takes into account the economic, cultural, geographic and political interactions sport has forged and poses a series of questions: about how sport has been forged in contemporary consumer capitalism; about the manner in which it has been shaped by space and place; and the ways in which entrepreneurs, sportspeople and artists have represented sporting competition. The collection will help both students and scholars conceptualise sporting networks, and will be of interest to those working in multiple fields. This book was previously published as a special issue of *Sport in History*.

**Sit Down and Cheer** Martin Kelner,2012-09-27 Television and sport is the ultimate marriage of convenience. The two circled each other warily for a while - sport anxious the sofa-bound might spurn the live product, TV reluctant in a limited channel world to hand over too much screen time to flannelled fools and muddied oafs. But they got together, and stayed together, for the sake of the money, and now you cannot imagine one without the other. They are indivisible, like an old couple sitting in a teashop finishing each other's sentences, and there is little doubt which is the dominant partner. You have only to think of the recent sports stars who have left their muddy fields to don sequins, grab partners and tango their way across the stage in ultimate Saturday night television style, to see how far the two have come on their journey together. In *Sit Down and Cheer* Martin Kelner traces the development of this relationship from its humble origins in the 1960 Olympics, by way of the first-ever Match of the Day in 1964, through to the financial impact of Sky, right up to the high-tech gadgetry of our present-day viewing. Insightful and very funny, this is an entertaining exploration of two major national pastimes and not to be missed.

**More Thoughts of Chairman Moore** Brian Moore,2011-11-10 Pitbull is back and angrier than ever, with another collection of hilariously well-observed and rambunctiously argued grievances about the mad world of sport and beyond. Following the success of *The Thoughts of Chairman Moore, Volume I*, you might have hoped that sport's powers that be would have sat up and taken notice of its many faults and flaws. But alas no, lunacy prevails and so Brian has taken it upon himself to put forward another collection of his unique insights and not-so-unique frustrations. Uproariously funny and spot-on in its every complaint, *Volume II* is required reading for anyone who can't live without sport but who also can't help but wonder at its unbridled idiocy!

**Floodlights and Touchlines: A History of Spectator Sport** Rob Steen,2014-06-26 SHORTLISTED FOR THE WILLIAM HILL SPORTS BOOK OF THE YEAR AWARD 2014 Spectator sport is living, breathing, non-stop theatre for all. Focusing on spectator sports and their accompanying issues, tracing their origins, evolution and impact, inside the lines and beyond the boundary, this book offers a thematic history of professional sport and the ingredients that magnetise millions around the globe. It tells the stories that matter: from the gladiators of Rome to the runners of Rift Valley via the innovator-missionaries of Rugby School; from multi-faceted British exports to the Americanisation of professionalism and the Indianisation of cricket. Rob Steen traces the development of these sports which captivate the turnstile millions and the mouse-clicking masses, addressing their key themes and commonalities, from creation myths to match fixing via race, politics, sexuality and internationalism. Insightful and revelatory, this is an entertaining exploration of spectator sports' intrinsic place in culture and how sport imitates life – and life imitates sport.

Snooker's World Champions Luke Williams,Paul Gadsby,2012-10-05 The top snooker players in the world compete for several trophies every year, but one carries more prestige than all the others put together - the World Championship. No other tournament in the sport carries with it so much history, so many golden moments of spectacular success and dramatic failure. Meticulously researched and including exclusive interview material with Steve Davis, Stephen Hendry and 2005 world champion Shaun Murphy, among others, *Masters of the Baize* is a comprehensive guide to the men who have lifted the greatest prize in snooker. From the legendary Joe Davis, the first champion in 1927, to modern-day masters like Mark Williams, all the sport's world champions are put under the microscope, while the colourful careers of forgotten figures such as Walter Donaldson and John Pulman and rogue heroes like Alex Higgins and Ronnie O'Sullivan are brought vividly to life. After uncovering the inauspicious origins of the game in nineteenth-century India, the authors examine every former world champion in his own comprehensive chapter. Additionally, a special section focuses on the extraordinary popularity of Jimmy White, by far the greatest player never to have won the title and one of the most emotive names in the sport.

**NERD – New Experimental Research in Design** Michael Erhoff,Wolfgang Jonas,2018-11-05 Design has long expressed and established itself as an independent research competence – a fact that also companies, institutions and politicians have come to acknowledge. What is still needed, however, is a stronger public platform for design to confidently reflect upon this process and to establish and communicate the specific innovative and experimental dimension of design research. For this reason, BIRD, the Board of International Research in Design, has developed the New Experimental Research in Design / NERD format. The edited conference contributions of twelve young researchers from all over the world provide an impressive and diverse and insightful range of intelligent and inspiring approaches in design research, giving rise to further debate and action in the rapidly evolving field.

Alex Higgins: Snooker Legend J Hennessey,2013-05-24 When Alex Higgins' first manager, John McLaughlin, bestowed the nickname 'Hurricane Higgins' on the young, feisty snooker player he had no idea just how apt it was to prove over the next thirty years. Eye of the Hurricane details a sad but uplifting story of a man who had everything to play for but now has to play hard for anything he can get. It describes Higgins, sitting fitfully on snooker's sidelines, still has a story to tell, another controversy to spark. Author John Hennessey promises a 'wart and all' account of Alex Higgin's life and that is precisely what he delivers in this thoroughly absorbing book. . . well-told but cautionary tale of how narr ow the line is between genius and insanity 'This first proper account of Higgin's life is all the more clear-eyed for being written without his co-operation.
