**The Transformative Power of Mobile Medicine** Paul Cerrato, John Halamka, 2019-01-23 The Transformative Power of Mobile Medicine: Leveraging Innovation, Seizing Opportunities, and Overcoming Obstacles of mHealth addresses the rapid advances taking place in mHealth and their impact on clinicians and patients. It provides guidance on reliable mobile health apps that are based on sound scientific evidence, while also offering advice on how to stay clear of junk science. The book explores the latest developments, including the value of blockchain, the emerging growth of remote sensors in chronic patient care, the potential use of Amazon Alexa and Google Assistant as patient bedside assistants, the use of Amazon's IoT button, and much more. This book enables physicians and nurses to gain a deep understanding of the strengths and weaknesses of mobile health and helps them choose evidence-based mobile medicine tools to improve patient care. Provides clinicians and technologists with an update on the latest mobile health initiatives and tools, including the work done at Beth Israel Deaconess Medical Center/Harvard Medical School Encompasses case studies with real-world examples to turn abstract concepts into flesh and blood examples of how mHealth benefits the public Presents drawings, graphics and flow charts to help readers visualize the functionality and value of mobile medicine

**Harnessing the Power of Technology to Improve Lives** P. Cudd, L. de Witte, 2017-09-05 The lives of people with disabilities are complex and various, and there are many situations where technology – particularly assistive technology – already makes a real difference. It is clear that smart phone and tablet computer based solutions continue to enhance the independence of many users, but it is also important that more traditional assistive technologies and services are not forgotten or neglected. This book presents the proceedings of the 14th conference of the Association for the Advancement of Assistive Technology in Europe (AAATE 2017) entitled: ‘Harnessing the power of technology to improve lives’, held in Sheffield, UK, in September 2017. This 4-day event about assistive technologies (AT) highlights the association’s interest in innovating not only technology, but also services, and addresses the global challenge of meeting

the needs of the increasing number of people who could benefit from assistive technology. The 200+ papers in the book are grouped under 30 subject headings, and include contributions on a wide range of topical subjects, including aging well and dementia; care robotics; eHealth and apps; innovations; universal design; sport; and disordered speech. The breadth of the AAATE conference reflects people's life needs and so the book is sure to contain something of interest to all those whose work involves the design, development and use of assistive technology, whatever the situation. The photo on the front cover illustrates the breadth of assistive technologies that can improve lives. Photographer: Simon Butler.

A Taste of Power Elaine Brown,2015-05-20 “A stunning picture of a black woman’s coming of age in America. Put it on the shelf beside *The Autobiography of Malcolm X*.” —Kirkus Reviews Elaine Brown assumed her role as the first and only female leader of the Black Panther Party with these words: “I have all the guns and all the money. I can withstand challenge from without and from within. Am I right, Comrade?” It was August 1974. From a small Oakland-based cell, the Panthers had grown to become a revolutionary national organization, mobilizing black communities and white supporters across the country—but relentlessly targeted by the police and the FBI, and increasingly riven by violence and strife within. How Brown came to a position of power over this paramilitary, male-dominated organization, and

what she did with that power, is a riveting, unsparing account of self-discovery. Brown's story begins with growing up in an impoverished neighborhood in Philadelphia and attending a predominantly white school, where she first sensed what it meant to be black, female, and poor in America. She describes her political awakening during the bohemian years of her adolescence, and her time as a foot soldier for the Panthers, who seemed to hold the promise of redemption. And she tells of her ascent into the upper echelons of Panther leadership: her tumultuous relationship with the charismatic Huey Newton, who would become her lover and her nemesis; her experience with the male power rituals that would sow the seeds of the party's demise; and the scars that she both suffered and inflicted in that era's paradigm-shifting clashes of sex and power. Stunning, lyrical, and acute, this is the indelible testimony of a black woman's battle to define herself. "A glowing achievement." —Los Angeles Times "Honest, funny, subjective, unsparing, and passionate. . . A Taste of Power weaves autobiography and political history into a story that fascinates and illuminates." —The Washington Post

Let's GO PIC!!! The book Marco Gottardo, 2012-09-05 This book is the culmination of Marco Gottardo's teaching and work in electronics and automation. It is the first book in a self-teaching series that affords a solid foundation in PIC microcontroller programming. The book contains a range of fully explained problems and exercises, as well as three comprehensive essays, which are milestones for any industrial automation course. Key chapters are devoted to interrupt systems, analog signals, and LCD displays. The book looks at HITECH C language on IDE MPLAB software and on Micro GT Mini and IDE hardware platforms, which can be easily ordered online. It also explains LadderPIC, a language that enables microcontrollers to be programmed in the same way as PLCs. A follow-up, Let's Make Robots!, will be published in December 2012.

**How to Break Up with Your Phone** Catherine Price, 2018-02-13 Packed with tested strategies and practical tips, this book is the essential, life-changing guide for everyone who owns a smartphone. Is your phone the first thing you reach for in the morning and the last thing you touch before bed? Do you frequently pick it up “just to check,” only to look up forty-five minutes later wondering where the time has gone? Do you say you want to spend less time on your phone—but have no idea how to do so without giving it up completely? If so, this book is your solution. Award-winning journalist Catherine Price presents a practical, hands-on plan to break up—and then make up—with your phone. The goal? A long-

term relationship that actually feels good. You'll discover how phones and apps are designed to be addictive, and learn how the time we spend on them damages our abilities to focus, think deeply, and form new memories. You'll then make customized changes to your settings, apps, environment, and mindset that will ultimately enable you to take back control of your life.
