USA - Südwesten Reiseführer Michael Müller Verlag Volker Feser,2019-05-07 E-Book zur 1. Auflage 2019 Mit einem detailfreudigen Mix aus on the road und keep walking führt Volker Fesers Reiseführer die Leser durch die gesamte Bandbreite des Südwestens der USA: vom Colorado Plateau in die Wüsten und Badlands, in die Rockies und durch Kalifornien, von San Francisco über die Brandung des Big Sur und hinauf in die Sierra Nevada, ins Great Basin, nach Las Vegas, Los Angeles, Tucson oder Albuquerque. Es geht durch kultige Kieze und historische Neighborhoods, durch Canyons und Mammutwälder, zu blau gestaffelten Bergsilhouetten, feuerroten Mesas, Klippenpalästen, Ghost Towns und spleenigen Künstlerkommunen. Die Straßen, Pisten und Pfade steuern entweder in Serpentina gen Himmel oder schnurstracks in den Sonnenuntergang - durch grandiose, von kreatürlicher Stille geprägte Landschaften. Im Buch stecken nicht nur 28.000 Meilen, es ist auch gespickt mit Tipps zum Schlafen, Essen, Feiern, Fahren, Wandern, Bummeln und die Seele-baumeln-Lassen. Dazu gibt's eine chilischotenscharfe Prise Humor.

The Oxford Handbook of Fiduciary Law Evan J. Criddle,Paul B. Miller,Robert H. Sitkoff,2019-05-27 The Oxford Handbook of Fiduciary Law provides a comprehensive overview of critical topics in fiduciary law and theory through chapters authored by leading scholars. The Handbook opens with surveys of the many fields of law in which fiduciary duties arise, including agency law, trust law, corporate law, pension law, bankruptcy law, family law, employment law, legal representation, health care, and international law. Drawing on these surveys, the Handbook offers a synthetic analysis of fiduciary law's key concepts and principles. Chapters in the Handbook explore the defining features of fiduciary relationships, clarify the distinctive fiduciary duties that arise in these relationships, and identify the remedies available for breach of fiduciary duties. The volume also provides numerous comparative perspectives on fiduciary law from eminent legal historians and from scholars with deep expertise in a diverse array of the world's legal systems. Finally, the Handbook lays the groundwork for future research on fiduciary law and theory by highlighting cross-cutting themes, identifying persistent theoretical and practical challenges, and exploring how the field could be enriched through empirical analysis and interdisciplinary insights from economics, philosophy, and psychology. Unparalleled in its breadth and depth of coverage, The Oxford Handbook of Fiduciary Law represents an invaluable resource for practitioners, policymakers, scholars, and students in this essential field of law.

The Right to Privacy in Employment Marta Otto,2016-11-03 At the beginning of the twenty-first century the term 'privacy' gained new prominence around the world, but in the legal arena it is still a concept in 'disarray'. Enclosing it within legal frameworks seems to be a particularly difficult task in the employment context, where encroachments upon privacy are not only potentially more frequent, but also, and most importantly, qualitatively different from those taking place in other areas of modern society. This book suggests that these problems can only be addressed by the development of a holistic approach to its protection, an approach that addresses the

issue of not only contemporary regulation but also the conceptualization, adjudication, and common (public) perception of employees' privacy. The book draws on a comprehensive analysis of the conceptual as well as regulatory convergences and divergences between European, American and Canadian models of privacy protection, to reconsider the conceptual and normative foundations of the contemporary paradigm of employees' privacy and to elucidate the pillars of a holistic approach to the protection of right to privacy in employment.
