The Woman in Silk R.J. Gadney,2013-09-03 Captain Hal Stirling is flown to England from Afghanistan after a roadside bomb renders him battered and broken. Once home, he retreats to his ancestral family seat of Stirling Towers--a gothic mansion that dominates the landscape near the remote Scottish Borders--for a Christmas of quiet recuperation. But on arrival he discovers that his mother, a fanatical spiritualist, has died and been hastily buried. Isolated from the insular local community, Hal finds himself at the mercy of his mother's two mysterious nurses, the harshest winter on record and, before long, the horrific visions; experiences he attributes to his heavy medication. Yet as the December weather deteriorates, so does Hal's certainty that his home is a place of safety. Who, or what, is trying to frighten him to death?

Upgrading and Repairing Servers Scott Mueller,Mark Edward Soper,Barrie Sosinsky,2006-04-24 As the price of servers comes down to the level of desktop PCs, many small- and medium-sized businesses are forced to provide their own server setup, maintenance and support, without the high-dollar training enjoyed by their big corporation counterparts. Upgrading and Repairing Servers is the first line of defense for small- and medium-sized businesses, and an excellent go-to reference for the experienced administrators who have been asking for a reference guide like this one for a long time! It's all here in one, incredibly useful tome that you will refer to again and again. Inside is in-depth coverage of server design and implementation, building and deploying, server hardware components, network and backup operations, SAN, fault tolerance, server racks, server rooms, server operating systems, as well as SUN Microsystems servers. No other computer hardware book has ever dared tackle this enormous topic - until now!

Organic Solid-State Lasers Sébastien Forget, Sébastien Chénais, 2013-07-03 Organic lasers are broadly tunable coherent sources, potentially compact, convenient and manufactured at low-costs. Appeared in the mid 60's as solid-state alternatives for liquid dye lasers, they recently gained a new dimension after the demonstration of organic semiconductor lasers in the 90's. More recently, new perspectives appeared at the nanoscale, with organic polariton and surface plasmon lasers. After a brief reminder to laser physics, a first chapter exposes what makes organic solid-state organic lasers specific. The laser architectures used in organic lasers are then reviewed, with a state-of-the-art review of the performances of devices with regard to output power, threshold, lifetime, beam quality etc. A survey of the recent trends in the field is given, highlighting the latest developments with a special focus on the challenges remaining for achieving direct electrical pumping of organic semiconductor lasers. A last chapter covers the applications of organic solid-state lasers.
