**Assuming Boycott** Kareem Estefan,Carin Kuoni,Laura Raicovich,2017-10-10 Boycott and divestment are essential tools for activists around the globe. Today's organizers target museums, universities, corporations, and governments to curtail unethical sources of profit, discriminatory practices, or human rights violations. They leverage cultural production – and challenge its institutional supports – helping transform situations in the name of social justice. The refusal to participate in an oppressive system has long been one of the most powerful weapons in the organizer's arsenal. Since the days of the 19th century Irish land wars, when Irish tenant farmers defied the actions of Captain Charles Boycott and English landlords, “boycott” has been a method that's shown its effectiveness time and again. In the 20th century, it notably played central roles in the liberation of India and South Africa and

the struggle for civil rights in the U.S.: the 1955 Montgomery bus boycott is generally seen as a turning point in the movement against segregation. Assuming Boycott is the essential reader for today's creative leaders and cultural practitioners, including original contributions by artists, scholars, activists, critics, curators and writers who examine the historical precedent of South Africa; the current cultural boycott of Israel; freedom of speech and self-censorship; and long-distance activism. Far from withdrawal or cynicism, boycott emerges as a productive tool of creative and productive engagement. Including essays by Nasser Abourahme, Ariella Azoulay, Tania Bruguera, Noura Erakat, Kareem Estefan, Mariam Ghani with Haig Aivazian, Nathan Gray and Ahmet Özü, Chelsea Haines, Sean Jacobs, Yazan Khalili, Carin Kuoni and Laura Raicovich, Svetlana Mintcheva, Naeem Mohaiemen, Hlonipha Mokoena, John Pepper, Joshua Simon, Ann Laura Stoler, Radhika Subramaniam, Eyal Weizman and Kareem Estefan, and Frank B. Wilderson III.

*Intellectual Property, Pharmaceuticals and Public Health*

Kenneth C. Shadlen,S. Guennif,2011-01-01 'This impressive collection offers fascinating new perspectives on the impact of pharmaceutical patents on access to medicines in developing countries. The volume's editors have put together an important book that sets out clearly the challenges to public health in a wide range of national contexts. The book will be a valuable text for all scholars and decision-makers interested in the global politics of intellectual property rights and public health.' – Duncan Matthews, Queen Mary, University of London, UK This up-to-date book examines pharmaceutical development, access to medicines, and the protection of public health in the context of two fundamental changes that the global political economy has undergone since the 1970s, the globalization of trade and production and the increased harmonization of national regulations on intellectual property rights. With authors from eleven different countries presenting case studies of national experiences in Africa, Asia and the Americas, the book analyzes national strategies to promote pharmaceutical

innovation, while at the same time assuring widespread access to medicines through generic pharmaceutical production and generic pharmaceutical importation. The expert chapters focus on patents as well as an array of regulatory instruments, including pricing and drug registration policies. Presenting in-depth analysis and original empirical research, this book will strongly appeal to academics and students of intellectual property, international health, international political economy, international development and law.

**Rilke Shake** Angélica Freitas, 2015 Rilke Shake's title, a pun on milkshake, means in Portuguese just what it does in English. With frenetic humor and linguistic innovation, Angélica Freitas constructs a temple of delight to celebrate her own literary canon. In this

whirlwind debut collection, first published in Portuguese in 2007, Gertrude Stein passes gas in her bathtub, a sushi chef cries tears of Suntory Whisky, and Ezra Pound is kept insane in a cage in pisa. Hilary Kaplan's translation is as contemporary and lyrical as the Portuguese-language original, a considerable feat considering the collection's breakneck pace. WINNER OF THE 2016 BEST TRANSLATED BOOK AWARD! WINNER OF THE 2016 NATIONAL TRANSLATION AWARD! FINALIST FOR THE 2016 PEN POETRY TRANSLATION PRIZE! No fabled saudade here, but the sound of an ocarina underwater in the Orinoco. --Paul Hoover Wry, painfully funny and moving, Kaplan's translation captures the formal invention and deadpan beauty of the original perfectly. --Sasha Dugdale

**The Flutist's VADE MECUM** Edmund Raas, 2014-02-11 To play the flute with a clear and convincing sound depends on the understanding of the physical concepts required to make the instrument sound without using undue force and applying just the right amount of physical help where needed. Edmund Raas has explored and taught these fine-points for over 60 years. Born in Switzerland, he has been influenced by the teachings of Emil Niosi (pupil of the great Georges Barrère), Hugo Haldemann, Jean-Pierre

Rampal and Aurèle Nicolet. Besides teaching, he had the opportunity to play solo concerti and act in many chamber music groups including Renaissance and Baroque music on period instruments. From 1977 to 2005 he also acted as first flutist in the Municipal Symphony Orchestra of São Paulo, Brazil. Since his retirement from this orchestra he is pursuing a career as composer.

**Confessions of a Public Speaker** Scott Berkun, 2009-10-20 In this hilarious and highly practical book, author and professional speaker Scott Berkun reveals the techniques behind what great communicators do, and shows how anyone can learn to use them well. For managers and teachers -- and anyone else who talks and expects someone to listen -- *Confessions of a Public Speaker* provides an insider's perspective on how to effectively present ideas to anyone. It's a unique, entertaining, and instructional romp through the embarrassments and triumphs Scott has experienced over 15 years of speaking to crowds of all sizes. With lively lessons and surprising confessions, you'll get new insights into the art of persuasion -- as well as teaching, learning, and performance -- directly from a master of the trade. Highlights include: Berkun's hard-won and simple philosophy, culled from years of lectures, teaching courses, and hours of appearances on NPR, MSNBC,

and CNBC Practical advice, including how to work a tough room, the science of not boring people, how to survive the attack of the butterflies, and what to do when things go wrong The inside scoop on who earns \$30,000 for a one-hour lecture and why The worst -- and funniest -- disaster stories you've ever heard (plus countermeasures you can use) Filled with humorous and illuminating stories of thrilling performances and real-life disasters, Confessions of a Public Speaker is inspirational, devastatingly honest, and a blast to read.

*Tropical Forest Ecology and Management for the Anthropocene* Grizelle González,Ariel E. Lugo,2019-12-18 This Special Issue looks forward as well as backward to best analyze the forest conservation challenges of the Caribbean. This is made possible by 75 years of research and applications by the United States Department of Agriculture, International Institute of Tropical

Forestry (the Institute) of Puerto Rico. It transforms Holocene-based scientific paradigms of the tropics into Anthropocene applications and outlooks of wilderness, managed forests, and urban environments. This volume showcases how the focus of the Institute's programs is evolving to support sustainable tropical forest conservation despite uncertain conditions. The manuscripts showcased here highlight the importance of shared stewardship and a long-term, hands-on approach to conservation, research programs, and novel organizations intended to meet contemporary conservation challenges. Policies relevant to the Anthropocene, as well as the use of experiments to anticipate future responses of tropical forests to global warming, are reexamined in these pages. Urban topics include how cities can co-produce new knowledge to spark sustainable and resilient transformations. Long-term results and research applications of topics such as soil biota, migratory birds, tropical vegetation, substrate chemistry, and the tropical carbon cycle are also described in the volume. Moreover, the question of how to best use land on a tropical island is addressed. This volume is intended to be of interest to all actors involved in long-term sustainable forest management and research in light of the historical lessons and future directions that may come out of a

better understanding of tropical cities and forests in the Anthropocene epoch.

**Singing to the Plants** Stephan V, Beyer, 2010-01-15 In the Upper Amazon, mestizos are the Spanish-speaking descendants of Hispanic colonizers and the indigenous peoples of the jungle. Some mestizos have migrated to Amazon towns and cities, such as Iquitos and Pucallpa; most remain in small villages. They have retained features of a folk Catholicism and traditional Hispanic medicine, and have incorporated much of the religious tradition of the Amazon, especially its healing, sorcery, shamanism, and the use of potent plant hallucinogens, including ayahuasca. The result is a uniquely eclectic shamanist culture that continues to fascinate outsiders with its brilliant visionary art. Ayahuasca shamanism is now part of global culture. Once the terrain of anthropologists, it is now the subject of novels and spiritual memoirs, while ayahuasca shamans perform their healing rituals in Ontario and Wisconsin. *Singing to the Plants* sets forth just what this shamanism is about-- what happens at an ayahuasca healing ceremony, how the apprentice shaman forms a spiritual relationship with the healing

plant spirits, how sorcerers inflict the harm that the shaman heals, and the ways that plants are used in healing, love magic, and sorcery.
