[Textastrophe: A Collection of Hilariously Catastrophic Text Pranks](#) Matt Andrews, 2015-02-17 Once upon a time, prank phone calls were the best way to procrastinate, but in 2015, they're so passé. Instead, Matt Andrews has mastered the art of prank texting. What happens when you offer to barter two sub-sandwiches for a used motorcycle? Who do you call when you want to build a mysterious man cave in your basement? What do you do if you need a knight in shining armor to deliver you to your high school reunion? If you've ever left a contact me pull-tab at your local grocery or posted an ad on Craigslist and received insane and unbelievable text messages in response, Andrews is very likely to blame. We'd be mad at him if we could stop laughing long enough to hit send on the exceptionally witty come back we thought of...too bad he's already moved on to his next target and deleted us from his phone, now only to be remembered in these pages of his laugh-out-loud funny book.

[Digital Culture & Society \(DCS\)](#) Ramón Reichert, Annika Richterich, Pablo Abend, Mathias Fuchs, Karin Wenz, 2016-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and practice.

[JQR](#) Joey Rodriguez, 2020-03-07 After their home is destroyed by an atomic blast, an android and his best pup set out to find his human parents and piece together the remnants of a nation-wide invasion. Lost in their own backyard, our heroes must battle unknown forces both foreign and domestic, using the skills, and wit, of their favorite Saturday matinee heroes. Spills, chills, and thrills leap from the page in the explosive saga of JQR, an adventure sure to tickle even the bravest of readers! Hardcover Synopsis: An old enemy has returned. Dormant for only two decades, the rising sun stormed the beaches and the wide avenues to avenge their defeat. Just a boy and his dog; he a nearly obsolete model, her a pure breed. Left to fend for themselves during the invasion, JoJo, as his family affectionately called him, must wrestle with his metal construction, his childish memories, and the fact that he will never become human. His father's own experiences in the Last Great War, painful and victorious, have bred fear, doubt, and distrust in them all. But the world has been far from kind, the survivors hoarding their resources, firing blindly into the atomic remains of what they had proudly cultivated. Lost now in a world he thought he knew, his family's shadows fading quickly, there is much to learn about the hierarchy of man and where a small android and his loyal best friend fit in.
