Saudi Arabia Grace Edwards, 2023-12-19 Written by a female Middle East expert, Bradt's Saudi Arabia is the first English-language travel guide from a mainstream publisher that focuses exclusively on the Kingdom, which has now opened for general tourism as part of rapid political, economic and social reforms. With detailed advice on what to see and do, listings for accommodation and restaurants, guidance on cultural etiquette and advice for women and other diverse travellers, this book provides the practical information adventurous tourists need to explore this new, exciting destination. Saudi Arabia will appeal to adventure travellers, offering activities ranging from pristine, world-class scuba diving to mountain-trekking. With dramatic scenery including a desert that stretches for hundreds of kilometres (where you can camp like a Bedouin) and several accessible nature reserves, visitors looking for undisturbed landscapes are spoilt for choice. Culture vultures will appreciate pre-Islamic rock art, Nabatean heritage, Mada'in Saleh (the sister city to Jordan's Petra in Jordan) and six UNESCO World Heritage Sites rarely visited by international tourists. Particularly after sundown, when Saudi Arabia truly comes alive, urbanites can explore the cities of Riyadh and Jeddah, where shopping opportunities range from traditional souqs to top-end malls where the wealthy go to see and be seen. Gastronomists can enjoy varied cuisine, from fine dining worthy of a Michelin star to traditional meals served on the floor, shared by all and eaten by hand. This guide dispels misinformation by providing an unbiased, up-to-date and comprehensive resource that accurately reflects what Saudi Arabia now offers visitors from all backgrounds. Most outsiders know little about the Kingdom other than from typically negative media coverage, so may be pleasantly surprised at its rich history and youthful population eager to extend hospitality to guests respecting their culture and traditions. A comprehensive guide combining detailed travel information about the entire Kingdom (from the Northern Borders to Asir, and from Hejaz to Eastern Province) with a chapter explaining some of the main practices of and reasons for the hajj and umrah pilgrimages, plus contextual insights covering cultural etiquette, reforms and women travellers, Bradt's Saudi Arabia is the perfect companion for people who thrive on off-the-beaten-path travel.

Working and Living in Saudi Arabia Grace Edwards, 2021-01-18 Working and Living in Saudi Arabia' provides valuable cultural and practical business information necessary for all professionals working and travelling to Saudi Arabia, including those who may be working and living in other Middle East countries.

The Bro Code of Saudi Culture Abdul Al Lily, 2018-09-01 Every culture is governed by an internal code of conduct, and this publication captures the code of Saudi culture. Most Saudi norms have long been unwritten and only orally communicated among citizens. As a result, visitors to the country have been unable to read about these norms. For this reason, this book spells out these norms in bold print. It provides bite-sized descriptions of 'the Saudi'. It is informed by around 2,000 interviews with Saudis and expats. It is the first to talk about the culture in a purely descriptive (and therefore non-judgemental) manner. Writings about Saudi culture tend to be too serious; however, this publication is meant not to be taken too seriously. It is, rather, intended to be entertaining (and, surely, informative). It is written mostly on the toilet (and is, likewise, meant to be read on the toilet). It

avoids being biased, recording both 'negative' and 'positive' norms. It tries to avoid using such sensitive words as 'religion' and 'politics', considering that it is written entirely for cultural orientation (not for religious or political matters). The book is the first to be written by a male Saudi who was born and raised in the country, who is still based there, who is a former officially-recognised 'imam' (i.e. a worship leader) and who comes from a working-class family. Yet, he is a traveller, professor and Oxford graduate. He has been with people from different ethnicities. He has published in different languages and with globally known publishers. Hence, he has shown an ability to communicate with international readers and convey information to foreign mentalities.

Pulling People out of People on the Axis of Evil Bernd Schumacher M.D., 2018-10-08 Bernd Schumacher, M.D., who grew up in Germany and worked as a medical doctor in the Middle East and the United States of America, looks back at the highs, lows, and the lessons he learned while living an exciting, international life in this autobiography. As a boy, he grew up with a fascination with the American dream, decorating his room with the American flag, models of an Apollo Rocket and the lunar lander. His wallpaper featured the Manhattan Skyline, with the Twin Towers still intact, of course. After immigrating to the United States, he met his future wife, and they enrolled at Loyola University Stritch School of Medicine in Maywood, Illinois, in 1986. After medical school, it was on to residency, with some time spent collecting model trains along the way. In 2000, he moved to Saudi Arabia, and there his working hours were much more regulated. He had lots of household help, including a gardener and a woman to help with the children and the household. The author's experiences have taught him to empathize with the plight of others. In recalling his life, he argues that the global village concept is inevitable but that we must strive to preserve local cultures.

I Can Say, "I Slept in Saudi Arabia!" Eleanor M. Hodges, 2009-06-05 I Can Say, I Slept in Saudi Arabia!, is a true story based on diaries the author kept when she lived in Saudi Arabia with her husband in the mid 1980s. It tells how she was able to go there when her husband was offered a one year contract to work for their bus company, SAPTCO, and the contract stated, No wife. This story tells how she managed to get there to live, and what she did when she got there. The chapter titles hint at the many experiences the author had; for instance, underground church services, prison ministry, safety, friends, shopping, etc. She wore the Saudi dress for women, (abaya and veil) and went out by herself and rode the bus. If you would like to know what it was like to live in Saudi Arabia back then, the land of mystique, you will enjoy this book.

Understanding OCD Leslie J. Shapiro, 2015-03-10 One of the most experienced therapists in the world for treatment-resistant obsessive compulsive disorder (OCD) explains the disorder, the treatments available, and the skills needed to overcome and outsmart OCD. This is an eye-opening study of one of the most common psychiatric ailments diagnosed today—obsessive compulsive disorder (OCD). Written by Leslie J. Shapiro, a renowned therapist at one of the most well known OCD facilities in the world, this reference shares effective treatment strategies and clinical factors for helping therapists, mental health professionals, psychology students, clergy, and others deal with patients coping with this illness. The author offers case examples from her 15 years of residential work

with patients, demonstrating how sufferers—even the most treatment resistant—can get control of the condition. Organized into three sections, this guidebook first reveals how OCD and guilt are intertwined and explores survival instincts, cultural factors, and the nature of thoughts. The second section covers aspects of the obsessive conscience such as scrupulosity, moralosity, and obsessive guilt. The book's conclusion describes effective exposure and response prevention strategies for these symptoms and examines methods of treatment that augment and help maintain recovery. An in-depth discussion on the differences between compulsive and impulsive behaviors—as well as other treatment impediments—is included.

Dare to Believe! Terence Ascott, 2021-05-06 Dare to Believe! is the breathtaking story of someone who has followed Jesus' lead through civil wars and unrest, arrests and deportation, as he sought to effectively use media in support of the life, work, and witness of the church in the Middle East and North Africa. The book journeys from the publication of a Christian newsstand magazine for the Arab world to the birth of the region's first Christian satellite and online television services--attracting millions of viewers from all faith backgrounds and ages, unlike Christian television as we may have seen it in the West. Readers will discover and be encouraged by dynamic and courageous Christian communities in the Arab world, Iran, and Turkey--some of whom date the founding

of their churches back to the first century--and how God provides for his children and his ministry, even through difficult times.

Asian American Religions Tony Carnes, Fenggang Yang, 2004-05-01 Asian American Religions brings together some of the most current research on Asian American religions from a social science perspective. The volume focuses on religion in Asian American communities in New York, Houston, Los Angeles, and the Silicon Valley/Bay Area, and it includes a current demographic overview of the various Asian populations across the United States. It also provides information on current trends, such as that Filipino and Korean Americans are the most religiously observant people in America, that over 60 percent of Asian Americans who have a religious identification are Christian, and that one-third of Muslims in the United States are Asian Americans. Rather than organizing the book around particular ethnic groups or religions, Asian American Religions centers on thematic issues, like symbols and rituals, political boundaries, and generation gaps, in order to highlight the role of Asian American religions in negotiating, accepting, redefining, changing, and creating boundaries in the communities' social life.

From Islamic Revivalism to Islamic Radicalism in Southeast Asia Kamaruzzaman Bustamam-Ahmad, 2015-04-01 This book presents an ethnographic study of the Jamā'ah Tablīgh in Kuala Lumpur, Malaysia, and Banda Aceh, Indonesia. It explores the nature of organised religious practice within this Islamic missionary group, and illustrates the situation of faith amongst the members, which is coloured by Sufist elements. A central focus of the study is an exploration of the situation of faith, or religious awareness, of members of Jamā'ah Tablīgh by undertaking a detailed examination of the aims and distinctive practices of the organisation in individual chapters. The book develops a pyramid of religious awareness which enables an understanding of the religious experiences of Muslims in terms of three aspects: sharī'ah, haqīqah (reality), and ma'rifah (gnosis). The pyramid offers a conceptual model of an internal problematic common to Muslims in relation to their beliefs, and the organisation and conduct of their daily lives. The book is particularly significant for the insights it provides into how a desire to reinstate an Islamic caliphate, as part of a return to al-Qur'an and al-Sunnah, may be realised in the contemporary period, through radical yet non-violent means, drawing heavily on the mosque-based form of government implemented by the Prophet Muhammad in Medina. This study will also prove to be useful for studies of other, non-Islamic, religious groups, where the religious person is one who submits him or herself to God. A further argument of the book is the proposal that the highest level of human being is insān kāmil (the perfect man), that is, one who has utilised his active intelligence.

Infidel Behind the Paradoxical Veil Jeanette M. English, 2011-02 Most Western non-Muslim women couldn't envision surrendering their freedom and being forced to comply with Saudi women's entrapped customs which have existed for the past 1,400 years. Did you know that Saudi Arabia's religious police, known as the Mutawa, can take any woman to jail for not covering her hair or wearing an abaya? How would you imagine yourself living a life being compelled to abide by the power and values of men: not being able to drive, talk with your driver, shop alone without a male escort, leave the country without a male escort, or be seen alone with a non-related male? INFIDEL

BEHIND THE PARADOXICAL VEIL - A Western Woman's Experience in Saudi Arabia is a personal story of startling encounters such as mentioned above while Jeanette English lived in Riyadh, the most restrictive city in Saudi Arabia, where women who by Shariah law and culture are considered to be the weaker sex. Jeanette candidly unmasks a unique experience which exposes the enigmatic issues affecting Saudi women. Their struggle for equality and freedom of choice is a hot topic with an accelerating interest in the subject of male dominance over them, stirring an intrinsic controversy over which many Westerners are confused. This is a timely book offering extraordinary insight into the real Saudi woman before, during and after the author's year in Riyadh which will turn a few cynical heads toward understanding the issues and challenges in their achieving fair treatment, particularly now in the 21st century. Forced to wear the hijab, Jeanette read the Quran and, in learning about Islam and talking with Saudi women, was able to look behind the veil which many Westerners can only read about. Most authors and journalists who write on this subject have not lived her experience.

Flying in the Land of Sand and Sun James D. Fox, 2013-02 A pilot retires after 38 years from the world's largest oil company. He accepts a job in another country halfway around the world. His experience flying the cream of business jets is just what his new employer is looking for. He finds it necessary to adapt to his new environment and new associates. The new employer is General Arab Medical Service who supplies workers for the Saudi Arabian Military service. The job entails flying not only high ranking military, medical evacuation, but also members of the Royal Family. The missions are with a mixed crew of copilots, nurses/hostess, doctors, and engineers. Their nationalities are from all over the world. You need to know that in aviation, the world language is English. The mixup due to language difficulties are mostly humorous, but in at least one case almost deadly. A young man from Texas can be surprised from what he finds the people and customs are in New York on his first visit. A young man from New York can find the people and customs in Texas as surprising. A friend and I were standing on a sidewalk looking in a show window in Wichita Falls, Texas when a lady got out of her car and approached us. Young man can I ask you a question? Why yes Mam, what is it. She pointed at my feet, Don't those things hurt you're feet? She was asking about the boots I was wearing. Why no Mam they don't She turned with look of not understanding and went back to her car which I noticed was wearing Ohio license plates. That was in 1942 and I still remember what my friend and I talked about later. You reckon that lady never saw cowboy boots before? I don't know. Maybe she never saw a horse before. So many years later the same fellow sees people and customs that are completely strange. They speak English, and eat with a knife and fork (most do) and they want to imitate the western world very much. Of course I'm speaking of those that I came in personal contact with. As a reader you must remember their country was

only born in 1932. It had no means of entering seriously into world commerce until oil was discovered. Then suddenly they as a country became very rich almost over night. The King made decisions without the help of a Legislature. So, he decided where the money went. The Royal Family got an early cut and infrastructure was on the early list as well. If there was a need for a road, he just told some contractor to build the road, And make it out of concrete. That asphalt stuff just melts and runs away over here in the desert. Well, if you have roads then you need cars, so the King calls Japan and says, Send me over a boat load of those little pickups you make. Well, ok your Highness. What color do you want. I don't know, just mix them up, Ok? The Japanese boat arrived and the King tried to give them to the Bedouins from the desert. The nomads only accepted the white ones, all other colors were sent back to Japan. Everyone know that dark colors are no good in the heat. Do you find that humorous? Well, I do. But what do you expect? A tall apartment building in downtown Riyadh is standing empty on the day of my arrival and on the day of my departure. The King had it built for the Bedouins to use . . . for free. The occasion of celebrating the gift from the King, the Bedouins asked, Where do we put our camels and goats? Well, you won't need them here. The gift was rejected straight-away (as the Brits say). Do you find that interesting? Well, I do. How about this. I asked one of my Saudi copilots, What is your goal? What do you mean? I mean what are you working for. What do you hope for in the future? Oh, I see what you mean. Well, I'm saving my money to buy a camel and move out on the desert. You mean you would leave your job in aviation, living in a house with indoor plumbing, electricity, and air conditioning to move into a tent in the desert? Sure, what's wrong with that? Well, the time
