Presto Change-O Edouard Manceau,2014-03-18 Here you'll find a magic book Where all's not what it seems. For when you turn each object round PRESTO CHANGE-O The unexpected will be seen. See the raccoon hiding in a magic cauldron? The owl pretending to be a clock? The lion masquerading as a flower? A rabbit hiding in a hot-air balloon? Kids will love working magic with just a few simple turns—and a few rhyming verses—that transform everyday objects into familiar creatures. Simple manipulations for little hands make this a literal page turner.

Networking for Digital Preservation Ingeborg

Verheul, 2006-01-01 Libraries all over the world have to deal with fast growing numbers of digital materials that need to be safeguarded. Publications in digital form, online or on CD, digitised images, and born-digital objects need to be preserved and kept accessible. Safeguarding digital heritage is a major issue, especially for national libraries, because of their legal task of preserving the national heritage of a country. This volume describes the state of the art of digital repositories, preservation strategies and current projects in the national libraries of Australia, Austria, Canada, China, Denmark, France, Germany, Japan, Netherlands, New Zealand, Portugal, Sweden, Switzerland, the UK and the USA.

Music from the True Vine Bill C. Malone, 2011-10-24 A musician, documentarian, scholar, and one of the founding members of the influential folk revival group the New Lost City Ramblers, Mike Seeger (1933-2009) spent more than fifty years collecting, performing, and commemorating the culture and folk music of white and black southerners, which he called music from the true vine. In this fascinating biography, Bill Malone explores the

life and musical contributions of folk artist Seeger, son of musicologists Charles and Ruth Crawford Seeger and brother of folksingers Pete and Peggy Seeger. Malone argues that Seeger, while not as well known as his brother, may be more important to the history of American music through his work in identifying and giving voice to the people from whom the folk revival borrowed its songs. Seeger recorded and produced over forty albums, including the work of artists such as Libba Cotten, Tommy Jarrell, Dock Boggs, and Maybelle Carter. In 1958, with an ambition to recreate the southern string bands of the twenties, he formed the New Lost City Ramblers, helping to inspire the urban folk revival of the sixties. Music from the True Vine presents Seeger as a gatekeeper of American roots music and culture, showing why generations of musicians and fans of traditional music regard him as a mentor and an inspiration.

The Seraphina, Or, Christian Library of Church Music John Winebrenner, 1862

Axmedis 2008 Paolo Nesi, Jaime Delgado, 2008 The present book covers topics both on fluvial and lagoon morphodynamics. The first part is dedicated to tidal environments. Topics include an overview of main morphological features and mechanisms of estuaries and tidal channels and a model devoted to investigate flow field pattern and bed topography in tidal meandering channels and a comparison with recent observational evidence of meanders within different tidal environments. The general failure of Bagnold hypothesis when applied to equilibrium bedload transport at even relatively modest transverse slope is demonstrated. A new model is then proposed based on an empirical entrainment formulation of bed grains.
