*E. O. Wilson: Biophilia, The Diversity of Life, Naturalist (LOA #340)* Edward O. Wilson, 2021-03-23 A landmark collected edition of the Pulitzer Prize-winning author and world-renowned biologist, illuminating the marvels of biodiversity in a time of climate crisis and mass extinction. Library of America presents three environmental classics from two-time Pulitzer Prize-winner E. O. Wilson, a masterful writer-scientist whose graceful prose is equal to his groundbreaking discoveries. These books illuminate the evolution and complex beauty of our imperiled ecosystems and the flora, fauna, and civilization they sustain, even as they reveal the personal evolution of one of the greatest scientific minds of our age. Here are the lyrical, thought-provoking essays of *Biophilia*, a field biologist's reflections on the manifold meanings of wilderness. Here too is his magisterial, dazzlingly informative *Diversity of Life*: a sweeping tour of global biodiversity and a prophetic call to preserve the planet, filled on every page with little-known creatures, unique habitats, and fascinating ecological detail. Also included is Wilson's moving autobiography, *Naturalist*. Following him from his outdoor boyhood in Alabama and the Florida panhandle to the rainforests of Surinam and New Guinea--from his first discoveries as a young ant specialist to his emergence as a champion of conservation and rewilding--it rounds out a collection that will inspire wonder, curiosity, and love for a natural world now rapidly disappearing. Thirty-two pages of photographs and numerous illustrations accompany these works, which are introduced by David Quammen, one of America's leading science and nature writers.

Self-theories Carol S. Dweck, 2013-12-16 This innovative text sheds light on how people work -- why they sometimes function well and, at other times, behave in ways that are self-defeating or destructive. The author presents her groundbreaking research on adaptive and maladaptive cognitive-motivational patterns and shows: \* How these patterns originate in people's self-theories \* Their consequences for the person -- for achievement, social relationships, and emotional well-being \* Their consequences for society, from issues of human potential to stereotyping and intergroup relations \* The experiences that create them This outstanding text is a must-read for researchers in social psychology, child development, and education, and is appropriate for both graduate and senior undergraduate students in these areas.

Jeremiah's New Covenant Joshua N. Moon, 2011-06-23 The struggle to read Jeremiah 31:31-34 as Christian Scripture has a long and divided history, cutting across nearly every major locus of Christian theology. Yet little has been done either to examine closely the varieties of interpretation in the Christian tradition from the post-Nicene period to the modern era, or to make use of such interpretations as helpful interlocutors. This work begins with

Augustine’s interpretation of Jer 31:31-34 as an absolute contrast between unbelief and faith, rather than the now-standard reading (found in Jerome) of a contrast between two successive religio-historical eras—one that governed Israel (the “old covenant”) and a new era and its covenant inaugurated in the coming of Christ. Augustine’s absolute contrast loosened the strict temporal concern, so that the faithful of any era were members of the “new covenant.” The study traces Augustine’s reading of an absolute contrast in a few key moments of Christian interpretation: Thomas Aquinas and high medieval theology, then the 16th and 17th century Reformed tradition. The thesis aims at a constructive reading of Jer 31:31-34, and so the struggle identified in these moments in the Christian tradition is brought into dialogue with modern critical discussions from Bernhard Duhm to the present. Finally, the author turns to an exegetical argument for an ‘Augustinian’ reading of the contrast of the covenants.
