Memories of a Bygone Age Prince Arfa, 2016-11-15 Set against the backdrop of Iran's struggle against the rising powers of Russia and Britain, the memoirs of Mirza Riza Khan Arfa'-ed-Dowleh—otherwise known as Prince Arfa (1853–1902)—are packed with picaresque adventures as the prince tells the story of his rise from humble provincial beginnings to the heights of the Iranian state. With this translation, his incredible story is brought to life for the first time in English. Prince Arfa writes with arresting wit about the deadly intrigues of the Qajar court. Lamentingly, but resolutely, he chronicles the decline of Iran from a once great empire to an almost bankrupt, lawless state, in which social unrest is channelled and exploited by the clergy. He describes the complex interactions between Iran and Europe, including an account of Naser-od-Din Shah's profligate visits to Britain and France; the splendor and eccentricities of the doomed Tsar Nicholas II's court; the Tsar's omen-laden coronation; and his own favor with the Tsarina, who would grant him concessions on matters of vital importance to his

country. The result is a memoir of extraordinary political intrigue.

Rebuilding Life after Brain Injury Sheena McDonald, Allan Little, Gail Robinson, 2019-04-09 Rebuilding Life after Brain Injury: Dreamtalk tells the survival story of Sheena McDonald, who in 1999 was hit by a police van and suffered a very severe brain injury. Sheena's story is told from her own, personal standpoint and also from two further unique and invaluable perspectives. Allan Little, a BBC journalist and now Sheena's husband, describes both the physical and mental impact of the injury on himself and on Sheena. Gail Robinson, Sheena's neuropsychological rehabilitation specialist, provides professional commentaries on Sheena's condition, assessment and recovery process. The word Dreamtalk, created by Allan to describe Sheena's once hallucinogenic state, sets the tone for this book. It humanises and contextualises the impact of brain injury, providing support and encouragement for patients, professionals and families. It presents exclusive insights into each stage of recovery, spanning coma, altered consciousness, post-traumatic amnesia and rehabilitation; all showing how she has defied conventional clinical expectations and made an exceptional recovery. This book is valuable reading to those who have suffered a brain injury and also to professionals such as neurologists, neuropsychologists, physiotherapists, occupational therapists and speech therapists working in the field.
