Teaching English to Second Language Learners in Academic Contexts Jonathan M. Newton, Dana R. Ferris, Christine C.M. Goh, William Grabe, Fredricka L. Stoller, Larry Vandergrift, 2018-02-07 Teaching English to Second Language Learners in Academic Contexts: Reading, Writing, Listening, and Speaking provides the fundamental knowledge that ESL and EFL teachers need to teach the four language skills. This foundational text, written by internationally renowned experts in the field, explains why skills-based teaching is at the heart of effective instruction in English for academic purposes (EAP) contexts. Each of the four main sections of the book helps readers understand how each skill—reading, writing, listening, and speaking—works and explains what research has to say about successful skill performance. Pedagogically focused chapters apply this information to principles for EAP curriculum design and to instructional activities and tasks adaptable in a wide range of language-learning contexts. Options for assessment and the role of digital technologies are considered for each skill, and essential information on integrated-skill instruction is provided. Moving from theory to practice, this teacher-friendly text is an essential resource for courses in TESOL programs, for in-service teacher-training seminars, and for practicing EAP teachers who want to upgrade their teaching abilities and knowledge bases.

Vital Witnesses Mark Newman, 2014-09-29 The use of primary sources as texts in the classroom is growing. Teachers realize these vital witnesses provide opportunities to motivate students and improve

learning. They bring students closer to the people, places, and events being studied and help students improve content knowledge while building skills. Recent trends in standards, such as Common Core, and the increasing use of the Document-Based Questions also promote primary source use. The strong push to use primary sources in teaching history and social studies creates a need among teachers for more information on what they are and how they can be used effectively in the classroom. *Vital Witnesses* meets this need by providing teachers with a comprehensive guide to primary sources and their use in the classroom. Primary sources are defined, and the various types are described. Classroom-tested activities and strategies are offered to teachers for addressing the needs of all learners and for accommodating Common Core standards and the C3 Framework for State Social Studies Standards.

Discourse 2.0 Deborah Tannen, Anna Marie Trester, 2013-03-12 Our everyday lives are increasingly being lived through electronic media, which are changing our interactions and our communications in ways that we are only beginning to understand. In *Discourse 2.0: Language and New Media*, editors Deborah Tannen and Anna Marie Trester team up with top scholars in the field to shed light on the ways language is being used in, and shaped by, these new media contexts. Topics explored include: how Web 2.0 can be conceptualized and theorized; the role of English on the worldwide web; how use of social media such as Facebook and texting shape communication with family and friends; electronic discourse and assessment in educational and other settings; multimodality and the participatory spectacle in Web 2.0; asynchronicity and turn-taking; ways that we engage with technology including reading on-screen and on paper; and how all of these processes interplay with meaning-making. Students, professionals, and

individuals will discover that Discourse 2.0 offers a rich source of insight into these new forms of discourse that are pervasive in our lives.
