**Pro-ecological Restructuring of Companies** Aleksandra Górska, 2019-04-17 This book presents a practical approach to pro-environmental challenges faced by companies in the process of restructuring. It contains a broad variety of case studies from different economic sectors, and small and large businesses, in four European countries: Ukraine, Romania, Germany and Poland. The studies are the results of surveys of companies that had either already restructured or were planning to, and reveal both the weaknesses and strengths in these practices. The book is divided into three parts: explorations of how political and legal factors are embedded in a company's strategy and how they influence the company's behaviour; analyses of companies' activities on matching restructuring with ecology; and approaches to ecoinnovations within the companies. The case studies throughout the book show that the restructuring of a company is an opportunity for the implementation of proecological action and "green" business models. The authors trust that the experiences and good practices of others will prove valuable both for future businessmen (i.e. students), but also for academics and representatives of local government, central environmental agencies, owners and managers of enterprises to be restructured.

**Mission Possible** Valeria Gontareva, Yevhen Stepaniuk, 2020-07-15 "This is an extraordinary book from an extraordinary person. This book is an insightful, candid and passionate account of her approach and policy experience. She has called it a 'Practical Manual' for reforms – it is that but also much more: a historical record of reforms against all odds." – Erik Berglof, Director of LSE Institute of Global Affairs "Many emerging economies often lack practical experience in transforming themselves into fully-functioning market-oriented economies and this Practical Manual will help you with this task. Moreover, the book is precisely about how to accomplish drastic reforms in wartime – and I truly believe that the wartime of COVID-19 is an unprecedented opportunity for reform." – Valeria Gontareva, Former Governor of the National Bank of Ukraine In addition, Valeria received a nomination for her work as the Governor of the National Bank of Ukraine in the Financial Times's Women of the Year 2019 list.

**HOME FINANCES for COUPLES.** Leo Ostapiv, 2013-08-22 Wouldn't it be great if money is the one thing you never argue about? Home Finances for Couples is a great help for a partner in a relationship, who wants to manage the family finances efficiently, move toward meeting the shared financial goals and live in financial peace with no money issues. This book will explain the basics of home budgeting in a simple manner, as there are no complicated financial terms to be afraid of.

Ideally, both partners in a relationship should read this, but even one is enough to make a difference. Home Finances for Couples contains 10 main chapters along with interviews, practical exercises, links to the best American and Canadian personal finance bloggers, visual illustrations and graphs. What Amazon customers are saying? This book will help to manage your money, and communicate about your money, in a very healthy and positive way - and that can save you a ton of frustration about money later on. I'd recommend this book to people who are planning to get married or recently got married Very easy to read and straight to the point narrative

*Advances in Intelligent Systems, Computer Science and Digital Economics IV* Zhengbing Hu,Yong Wang,Matthew He,2023-01-28 This book comprises high-quality peer-reviewed research papers presented at the 4th International Symposium on Computer Science, Digital Economy and Intelligent Systems (CSDEIS2022), held in Wuhan, China, from November 11–13, 2022, organized jointly by the Wuhan University of Technology, Hubei University of Technology, Wuhan University of Science and Technology, the Polish Operational and Systems Society, and the International Center of Informatics and Computer Science (ICICS). The topics discussed in the book include state-of-the-art papers in computer science and their technological applications; intelligent systems and intellectual approaches; digital economics and educational approaches. It is an excellent source of references for researchers, graduate students, engineers, management practitioners, and undergraduate students interested in computer science and its applications in engineering and management.

Options Trading IntroBooks,2018-02-21 Risks Vs Rewards analyzed by the Experts panels, have come up with the detailed benefits and advantage about the options trading in place of any other alternatives. Equal capital investments gave better returns to the investors in this channel. Options trading were identified in the developed world's already, as a cost efficient means to invest money. That can all be quite true, only based on the right investment strategies adopted. Higher the potential returns, then higher will be the risks in the speculation and that is the rule of thumb. Whatever level of risks one chooses to take at that moment is left to one's own discretion when it comes to options trading and that liberty based on the context, facilitates trading safer and secured ways. To shed more light on this, and to guide for better profits here is the detailed presentation dedicated to all the traders around the world.

**SCIENTIFIC TRENDS, SOLUTIONS, THEORIES AND METHODS OF DEVELOPMENT** European Conference,2023-06-22 No part of this publication may be reproduced, distributed, or transmitted, in any form or by any means, or stored in a data base or retrieval system, without the prior written

permission of the publisher. The content and reliability of the articles are the responsibility of the authors. When using and borrowing materials reference to the publication is required. Collection of scientific articles published is the scientific and practical publication, which contains scientific articles of students, graduate students, Candidates and Doctors of Sciences, research workers and practitioners from Europe, Ukraine, Russia and from neighboring countries and beyond. The articles contain the study, reflecting the processes and changes in the structure of modern science. The collection of scientific articles is for students, postgraduate students, doctoral candidates, teachers, researchers, practitioners and people interested in the trends of modern science development.

Appendix to the Journals of the Senate and Assembly ... of the Legislature of the State of California... California,1919

Proceedings of the 3rd International Conference on Building Innovations Volodymyr

Onyshchenko,Gulchokra Mammadova,Svitlana Sivitska,Akif Gasimov,2021-09-22 This book gathers the latest advances, innovations, and applications in the field of building design and construction, by focusing on new design solutions for buildings and new technologies creation for construction, as presented by researchers and engineers at the 3rd International Conference Building Innovations

(ICBI), held in Poltava – Baku, Ukraine – Azerbaijan, on June 1-2, 2020. It covers highly diverse topics, including structures operation, repairing and thermal modernization in existing buildings and urban planning features, machines and mechanisms for construction, as well as efficient economy and energy conservation issues in construction. The contributions, which were selected by means of a rigorous international peer-review process, highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaborations.
