*Digital Watermarking* Ingemar J. Cox,2005-02-22 This book constitutes the thoroughly refereed post-proceedings of the Third International Workshop on Digital Watermarking, IWDW 2004, held in Seoul, Korea in October/November 2004. The 22 revised full papers presented together with 3 invited papers were carefully selected from over 60 submissions during two rounds of reviewing and improvement. The papers are organized in topical sections on systems, theory, authentication and steganography, cryptography, and methods.

**Hidden Pictures** Carolyn Keene,2020-01-14 Nancy, Bess, and George must find the truth behind a photographic mystery in this nineteenth book of the Nancy Drew Diaries, a fresh approach to the classic mystery series. Nancy and her friends are spending the weekend in a small mountainside town called Shady Oaks. The local museum is displaying a never-before-seen collection from famous nature photographer, Christopher DeSantos. So the usually sleepy town is now filled with tourists. But it's not just the dramatic lighting of the old black and white photographs that people have come to see. Newspapers all over the country have picked up the story of two visitors who went missing in Shady Oaks only to turn up in the old DeSantos photographs, seemingly frozen in time. What's more, there was a rumor that DeSantos was cursed by his former partner after a disagreement. Now everyone is wondering if the legend is real. Nancy, Bess, and George are convinced that there is another explanation to be found. But it quickly becomes clear that someone is making sure they don't find it. Can these three teenage sleuths solve this mystery before it's too late?

**Hidden Dimensions in the Professional Development of Mathematics Teachers: In-Service Education for and With Teachers** B. Roesken,2011-07-23 Professional development is often determined by black and white thinking. Either issues are considered as being good or bad, or statements like teachers should or teachers must are transported. However, it is easily forgotten from which perspective the judgment is taken, surely it is not the teacher's one. Profoundly respecting and cherishing the teachers and their needs, allows for arriving at a vision of professional development that is for and with teachers, instead being simply about them. This book presents the field of mathematics teacher professional development both from a theoretical and an empirical perspective. In particular, the initiative Mathematics Done Differently that has been run in Germany is presented, in whose context the data of the empirical study was gathered. The empirical findings led to postulating a model describing teachers' individual growth pathways and to providing implications for constructing practices that are based on what teachers really need.

**Think in 4D** Erica Heinz,2023-10-10 Think in 4D, a book about digital product experience design, shows readers how to think holistically, creatively, and critically to create savvy, successful sites and apps. It pushes the tech industry to think beyond 2D designs and 3D experiences to 4D impacts. Over five hundred illustrations and forty exercises help any student, professional, or entrepreneur level up. Erica Heinz shares evergreen

principles and refined methods drawn from twenty years of experience as a digital design consultant and as a teacher of a variety of undergraduate and graduate design courses in New York City. Think in 4D unites behavioral psychology, business strategy, visual principles, research methods, and human-centered design practices to provide a pithy, visual cheat sheet for hundreds of design ideas. It is an essential handbook for any digital citizen. PLEASE NOTE: Due to the complex design of this book, the ePub is delivered as a fixed layout (print replica) file. The text is not reflowable. Part I, FRAMEWORK outlines the easy-to-remember 4D thinking model. Four phases (threads, impressions, interactions, and memories) and three dimensions (2D, 3D, and 4D) split the complexity of digital product design into manageable yet integrated parts. The method has seven key tenets — prototype, lower the fidelity, work backwards, work in circles, use principles, use metrics, and co-create — that focus and speed work. Part II, PRACTICE, provides guidelines for putting the model into action. The four phases and three layers yield twelve chapters spanning 2D (words, layouts, symbols, and images), 3D (inclusivity, flexibility, usability, and personalization), and 4D (relationships, patterns, paths, and moments) focus areas. Each chapter includes key questions, cognitive principles, examples, exercises, and user research tips. Each phase ends with a larger design challenge and critique outline for a key deliverable (concepts, flows, screens, or links). Part III, CRAFT, refines the practice with ways to advance both creative and conceptual skills. Prototyping is the tangible craft, so the book shares ways to sketch, wireframe, and play more effectively. Thinking is the invisible craft, so the book shows readers how to deconstruct, frame, research, diverge, converge, differentiate, and think in 4D. [A]n erudite, savvy book that communicates difficult, technical ideas with accessible, largely jargon-free prose. For both the seasoned veteran of interactive design and the unpolished newcomer, this is an invaluable resource. An impressively thorough and clear introduction to a still-new discipline. —Kirkus Reviews “You could choose to work on a digital product without reading Think In 4D, but that would be a mistake. Heinz has brought together the best methods, perspectives, and lessons to form the best guide to applying design principles today.” —Randy J. Hunt, CPO at Morning “I’ve never felt more confident in being able to start from nothing. This book totally changed my communication tactics, moved ambiguous product conversations forward, and got stakeholders aligned and inspired about what we’re building and why.” —Erin Nolan, Product Design Lead at Coinbase

**Image and Ideology in Modern/Postmodern Discourse** David B. Downing, Susan Bazargan, 1991-09-27 This book addresses the function and status of the visual and verbal image as it relates to social, political, and ideological issues. The authors first articulate some of the lost connections between image and ideology, then locate their argument within the modernist/postmodernist debates. The book addresses the multiple, trans-disciplinary problems arising from the ways cultures, authors, and texts mobilize particular images in order to confront, conceal, work through, or resolve contradictory ideological conditions.

**Nursing the Image** Julia Hallam, 2012-12-06 Ideas of 'nursing' and 'nurses' carry a powerful social charge. The image of the nurse continues to be a symbol of caring and of duty at the same time as it projects a view of femininity, 'stereotypical' in its gender relations. How has this image come to be constructed? An empirical investigation of representations of nursing practices in Britain focusing on publicity and promotional materials and their relationship to popular fictional narratives reveals a strong correlation between what are usually described as discrete forms of signification. Recruitment images, provide an important source of information and inspiration for those considering nurse training. Julia Hallam, draws from a wide range of sources including biographies, marketing and recruitment literature, popular fiction and film to explore this question. In doing so she makes an original contribution to the debates surrounding gender and occupational identity. The book will provide a valuable resource for undergraduate and postgraduate students on courses such as the social history of nursing, the understanding of health and illness, women's studies, gender studies and sociology courses.

**Computational Intelligence in Communications and Business Analytics** Somnath Mukhopadhyay, Sunita Sarkar, Paramartha Dutta, Jyotsna Kumar Mandal, Sudipta Roy, 2022-07-21 This book constitutes the refereed proceedings of the 4th International Conference on Computational Intelligence, Communications, and Business Analytics, CICBA 2022, held in Silchar, India, in January 2022. The 21 full papers and 13 short papers presented in this volume were carefully reviewed and selected from 107 submissions. The papers are organized in topical sections on computational intelligence; computational intelligence in communication; and computational intelligence in analytics.

**9/11 and its Remediations in Popular Culture and Arts in Africa** Heike Behrend, Tobias Wendl, 2015 9/11 has been described as an absolute event that radically changed the course of history. It reinforced the opposition

between Christian and Muslim worlds and led to the declaration of a unilateral war against a global network of terrorists that broke up the classical definition of war as a war between nation states. Yet, 9/11 also created responses in parts of the world that were not directly involved in the unfolding war on terror. In Africa, local conflicts were re-mapped into an emerging new geography of anger that also reflects the effects of marginalization in a globalized world. The essays of this volume explore local remediations of 9/11 in African popular culture (posters, photographs, videos, cartoons, etc.) and visual arts. They give evidence of the fundamental ambivalence towards the event of 9/11 and provide insights into the various ways distant conflicts are translated into intense proximities. (Series: African Art and Visual Cultures - Vol. 3) [Subject: African Studies, Cultural Studies, Art]

**The Image of Bar Kokhba in Traditional Jewish Literature** Richard G. Marks, 2004-05-01 Marks' painstaking investigation into the figure of Bar Kokhba in traditional Jewish literature has indeed provided a corrective to those on both sides of the Zionist political spectrum and in doing so he has once again shown that historical investigations are often quite useful in elucidating and clarifying various modern debates.-Jewish Political Studies Review This is a very significant contribution to both Jewish literature and history. The materials which Marks works through are well-known, but at many points he offers original interpretations. He provides a comprehensive synthesis of all the historical interpretations of Bar Kokhba.-Richard D. Hecht, University of California, Santa Barbara Bar Kokhba led the Jewish rebellion against Rome in 132-135 A.D., which resulted in massive destruction and dislocation of the Jewish populace of Judea. In early rabbinic literature, Bar Kokhba was remembered in two ways: as an imposter claiming to be the Messiah and as a glorious military leader whose successes led Rabbi Akiva, one of the great rabbinic authorities of Jewish tradition, to acclaim him the Messiah. These two earliest images formed the core of most later perceptions of Bar Kokhba, so that he became the prototypical false messiah and the paradigmatic rebel of Jewish history. The Image of Bar Kokhba in Traditional Jewish Literature is a history of the perceptions that later Jewish writers living in the fourth through seventeenth centuries formed of this legendary hero-villain whose actions, in their eyes, had caused enormous suffering and disappointed messianic hopes. Richard Marks examines each writer's account individually and in the context of its period, exploring particularly political and religious implications. He builds a history of images and looks at larger patterns, such as the desacralizing of traditional imagery. His findings raise timely political questions about Bar Kokhba's image among Jews today.

**Memories and Images** Donald S. Vogel, 2000 Donald Vogel arrived in Dallas at the beginning of World War II after a sojourn at the Art Institute of Chicago. The feeling of space, its clear clean atmosphere, the calm courtesy of the people and promises of growth all gave hope to a young, would-be painter. What I could not have anticipated was that there would be no gentle growth: it exploded in every direction and the money followed. Along with the wealth came East Coast art dealers who followed the oil field trails throughout Oklahoma and Texas. They brought dubious art and fake old masters, but the same growth that attracted disreputable dealers also made it possible for Vogel to be part of bringing fine works of art to Dallas, first at the Betty McLean Gallery and later at his own Valley House Gallery. In the words of Dechard Turner, The Gallery opened the doors to the highest levels of sophistication in art. Not all entered, but the triumph of the Vogel story is that many did! Already established as a painter, Vogel soon became the outlet in Dallas of art dealers in the United States and Europe. He has been an important part of the Dallas art scene for fifty-eight years. In addition to the United States, Donald Vogel's art can be found in private collections in Canada, Mexico, South Africa, Italy, Germany, England, France, Japan and twelve museum collections. His publications include books for the Amon Carter Museum, The Boardinghouse, Charcoal and Cadmium Red, and a Retrospective illustrated catalog.
