The Voyage of George Vancouver, 1791–1795 W. Kaye Lamb, 2017-05-15 Four of the greatest maritime exploring expeditions were crammed into two decades late in the 18th century - Cook's third voyage, the French expedition commanded by La Pérouse, the Malaspina expedition sent out by Spain, and George Vancouver's Voyage of Discovery. All four visited the northwest coast of North America, but weather and circumstances prevented Cook from making more than what Beaglehole calls 'a magnificent, an epoch-making reconnaissance'; La Pérouse only touched the coast in a significant way at Yakutat Bay and Lituya Bay, and Malasina's memorable visits were to Yakutat Bay and Nootka Sound. Vancouver, by contrast, surveyed the enormous extent of coast from Lower California to Cook Inlet, and his meticulous survey literally set out on the map of the world the intricacies of Puget Sound and the western coast of mainland Canada. It was an achievement that places him with his mentor, Cook, in the first rank of marine surveyors. As a midshipman Vancouver had been with Cook when he discovered the Sandwich (Hawaiian) Islands in 1778. They attracted his interest, and the attention he devoted to the islands, their inhabitants and their political future when he twice later wintered there will surprise many. This is the first annotated edition of Vancouver's journal as he revised it for publication in 1798. The original manuscript has disappeared, but fortunately no fewer than 25 partial or complete logs or journals by other members of the expedition have survived. These supplement Vancouver's narrative at many points. It has been possible to identify virtually all the host of islands, channels and inlets that Vancouver encountered, and the provenance of most of the approximately 400 place names he bestowed, nine out of ten of which are still in use, is indicated. Book 1 of a new and annotated edition of A Voyage of Discovery ... (London, 1798). The main pagination of this and the following three volumes is continuous. The voyage to Australia and Tahiti,

Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they

simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

Understanding Match-Fixing in Sport Bram Constandt, Argyro Elisavet Manoli, 2022-08-12 Bringing together leading match-fixing researchers from different fields, this book offers new theoretical and applied perspectives on this persistent problem in sport and wider society. The book explores the foundations of match-fixing from multiple viewpoints, from sociology and criminology to policy and governance, exploring topics such as the use of network governance theory, ethics and integrity, and management aspects that position match-fixing in sport's commercial landscape. Featuring cases and data from all around the world, the book explains how match-fixing has become a prominent feature of contemporary sport, and considers the efficacy and practicability of interventions to solve these problems. This is fascinating and important reading for any advanced student, researcher, practitioner, or policymaker with an interest in sport management, sports business, sport policy, sport development, sport law, or criminology.

Negotiating Thinness Online Gemma Cobb, 2020-01-24 This book interrogates the thin ideal in pro-anorexia online spaces and the way in which it operates on a continuum with everyday discourses around thinness. Since their inception in the late twentieth century, pro-anorexia online spaces have courted controversy: they have been vilified by the media and deleted by Internet moderators. This book explores the phenomenon during its tipping point where it migrated from websites and discussion forums to image-centric social media platforms – all the while seeking to circumvent censorship by, for instance, repudiating ‘pro-ana’ or adopting hashtags to obfuscate content. The author argues that instead of being driven further underground, ‘pro-ana’ is blurring the boundaries between normative and deviant conceptions of thinness. Situating the phenomenon in relation to accepted constructions of thinness, promulgated by establishments as far ranging as medicine and women's magazines, this book asks if ‘pro-ana’ holds the potential to critique that which has long been considered normal: the culture of compulsory thinness. Engaging with debates including the current climate of postfeminism and neoliberalism, digital censorship, the pre-eminence of white, middle-class, heterofemininity, and the articulation of pain in realising the thin ideal, *Negotiating Thinness Online* examines what happens when the margins and the mainstream merge.

Memory, History, and Autobiography in Early Modern Towns in East and West Vanessa Harding, Kōichi Watanabe, 2015-09-04 Between the sixteenth and the nineteenth centuries, in both Western Europe and East Asia, towns and cities helped to shape the individual consciousness, against the background of a more traditional society in which collective values remained strong. Towns were centres of stimulus, challenge, and opportunity for residents and visitors, and the identity of the town itself, its character and history, became a strong theme in the formation of the individual. Writing and

the circulation of texts played an important part in this process. Towns created artefacts, rituals, and memories that embodied their history and identity, but individuals positioned themselves and their families in the town histories as they wrote them. The seven essays in this volume range in focus from Renaissance Venice to nineteenth-century Edo (Tokyo), and from capital cities (Seoul, London) to provincial towns in France, England, and Japan. They explore the interaction of self, family, and social group and the construction of collective memory, examining autobiographies, letters and “exchange diaries”, family narratives, and urban histories and collections. Together, they challenge the long-prevailing historiography that contrasts the emergence of the individual in European societies with the persistently traditionalist and collective character of East Asian societies in the Early Modern period.

The Cambridge Companion to Boccaccio Guyda Armstrong, Rhiannon Daniels, Stephen J. Milner, 2015-06-30 Incorporating the most recent research by scholars in Italy, the UK, Ireland and North America, this collection of essays foregrounds Boccaccio's significance as a pre-eminent scholar and mediator of the classical and vernacular traditions, whose innovative textual practices confirm him as a figure of equal standing to Petrarch and Dante. Situating Boccaccio and his works in their cultural contexts, the *Companion* introduces a wide range of his texts, paying close attention to his formal innovations, elaborate voicing strategies, and the tensions deriving from his position as a medieval author who places women at the centre of his work. Four chapters are dedicated to different aspects of his masterpiece, the *Decameron*, while particular attention is paid to the material forms of his works: from his own textual strategies as the shaper of his own and others' literary legacies, to his subsequent editorial history, and translation into other languages and media.
