Detroit Speed's How to Build a Pro Touring Car Tommy Lee Byrd,Kyle Tucker,2014-10-15 Trends in automotive modification come and go, some outlandish, some practical. Currently, the trend called Pro Touring, while expensive, definitely leans toward the practical. Originally a term coined for GM cars, the term Pro Touring has come to mean a style of all cars, and many eras. Pro Touring is essentially the art of adding modern technology to aged designs, creating cars that stop, start, handle, drive, and behave just as modern performance cars do. You can do this in many ways and choose from many suppliers. Detroit Speed is at the forefront of the Pro Touring movement. Both a parts manufacturer and car builder, the company is in a unique position not only to design and manufacture parts, but to build cars and test the parts for their effectiveness on the street and track. Kyle and Stacy Tucker have put their considerable skill in engineering and market savvy to create a unique company to lead the Pro Touring movement. Not only do you learn about the history of the company and how they design their performance parts, install sections cover front sub-frame assemblies, rear suspension assemblies, wheel tubs, fuel system upgrades, brake upgrades, driveline upgrades including an LS swap, cooling system upgrades, and more. The featured cars are customer builds as well as DSE test cars, which include a host of different Chevrolet products, a 1966 Mustang and a 1969 Charger. Detroit Speed's How to Build a Pro Touring Car is a vital edition to every performance enthusiast's library.

Mopar Factory Drag Cars 61-72: Dodge & Plymouth's Quarter-Mile Domination: 1961-1972 CarTech, Incorporated,2022-11-15 Blast down the quarter mile in your favorite 413 Long Ram, 426 Max Wedge, and 426 Hemi in Mopar Factory Drag Cars: Dodge & Plymouth's Quarter-Mile Domination 1961-1972! Stock-based drag racing throughout the 1960s demanded that the cars competing on the track be genuine production models and that they could be purchased by anyone. The strict regulations dictated total commitment from the manufacturers if they were to be successful. No one was more committed than Chrysler. Chrysler attacked Stock (Super Stock) drag racing in the 1960s with the same fervor as it did the NASCAR Grand National, which itself spawned the reintroduction of the Hemi engine. Its engineers designed and produced a new factory Super Stock turnkey race car most years throughout the decade and enjoyed absolute success on the track, forever cementing its legendary performance status. The introduction of Pro Stock in 1970 brought with it exciting heads-up racing with the expectation of producing multiple winners from a variety of brands. Instead, it resulted in total Mopar supremacy, as Hemi-powered Chrysler cars won 12 of the 15 national races throughout the first two years, prompting the NHRA to introduce weight breaks to scupper the Chrysler domination. The new 1972 regulations favored small-block-powered compact cars and were the first major step toward Pro Stock spiraling away from its roots and into the tube-frame silhouette formula seen today. Racing historian Steve Holmes delves into this fascinating period, capturing the careers of the Ramchargers, Melrose Missile, Bud Faubel, Dick Landy, Sox & Martin, Herb McCandless, Don Grotheer, Motown Missile, and countless others, providing a blow-by-blow account of Chrysler's factory drag car programs and the incredible cars it produced to trounce its rivals during the most epic era in Stock drag racing history.

We Were The Ramchargers David G. Rockwell,2023-07-24 With over 200 new images, the new edition of We Were the Ramchargers is perfect for drag racing enthusiasts. This book takes readers behind the scenes with the group of Chrysler engineers who, from the 1950s through the 1970s, became one of the most successful and influential drag racing teams of all time. The only team of engineers from an automobile manufacturer to drag race successfully, the Ramchargers broke the most time barriers in drag racing history and earned the most National Hot Rod Association (NHRA) Super Stock titles during the sport's golden era of factory competition. Author Dave Rockwell, a Ramcharger himself, interviewed more than 40 team members, competitors, and track operators for We Were the Ramchargers, making it the first and only book to provide inside details on all elements of the Ramchargers story. In addition to chronicling the races they won and legendary cars they developed (including the High and Mighty, 426 Hemi, and first Funny Car), Rockwell opens corporate and personal files to take readers behind the doors at Chrysler (showing, among other things, how the Ramchargers helped pioneer the platform team concept), while revealing the personalities of the men who made it all happen.
