German Rearmament and the West, 1932-1933 Edward W. Bennett,2015-03-08 This probing examination of

the period just before and after Hitler came to power corrects many misconceptions about German rearmament. Drawing on previously unexploited sources, Edward Bennett unravels German military plans and shows their implications, undermining the notion that Hitler's accession represented a radical break with Germany's past. He also lays bare the fears and rivalries that hindered the West's response, particularly at the 1932-1933 World Disarmament Conference. Originally published in 1979. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Deutsch [to] English and Französisch Friedrich Ernst Feller,1872

Gluck and the French Theatre in Vienna Bruce Alan Brown,1991 In this richly illustrated study, the Viennese reform of opera and ballet is placed in the context of Christoph Gluck's decade-long involvement with the city's first French theatre, established in 1752. Following a detailed examination of the institutional and cultural frameworks of theatrical life in Maria Theresia's capital (drawing upon important new documentary sources), and of

the interaction between Parisian and Viennese repertoires, each of the areas of Gluck's activity in the Burgtheater--concerts, opera-comique, and ballet--and their products are examined in turn. Such masterworks as *Orfeo ed Euridice* and *Don Juan* are shown to be intimately connected with the regular musical repertory of the French theatre, which was itself rich in innovation; in addition, a large number of works by Gluck (and his colleagues) are identified and analyzed here for the first time.

Expletive and Referential Subject Pronouns in Medieval French Michael Zimmermann,2014-09-12 Medieval French, usually analyzed as a null subject language, differs

considerably from modern Romance null subject languages such as Spanish in the availability of non-expressed subject pronouns; specifically, it shows characteristics reminiscent of non-null, rather than null subject languages, such as the expression of expletive subject pronouns. The central goal of this book is to put forward an account of these differences. On the basis of the analysis of an extensive, newly established data corpus, the development of the expression of both expletive and referential subject pronouns until the 17th c. is determined. Following a thorough discussion of previous approaches, an alternative approach is presented which builds on the analysis of Medieval French as a non-null subject language. The non-expression of subject pronouns, licit in specific contexts in non-null subject languages, is shown to be restricted to configurations generally involving left-peripheral focalization. These configurations – and, concomitantly, non-expressed subject pronouns – are finally argued to be eventually lost for good in the wake of the initial observation by 17th c. writers of pertinent instructions campaigned for in highly influential works of language use.
