Language Typology and Language Universals Martin Haspelmath,2001 This series of handbooks of linguistics and communication science is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages, but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction. For classic linguistics there appears to be a need for a review of the state of the art which will provide a reference base for the rapid advances in research undertaken from a variety of theoretical standpoints, while in the more recent branches of communication science the handbooks will give researchers both an overview and orientation. To attain these objectives, the series will aim for a standard comparable to that of the leading handbooks in other disciplines, and to this end will strive for comprehensiveness, theoretical explicitness, reliable documentation of data and findings, and up-to-date methodology. The editors, both of the series and of the individual volumes, and the individual contributors, are committed to this aim. The languages of publication are English, German, and French. The main aim of the series is to provide an appropriate account of the state of the art in the various areas of linguistics and communication science covered by each of the various handbooks; however no inflexible pre-set limits will be imposed on the scope of each volume. The series is open-ended, and can thus take account of further developments in the field. This conception, coupled with the necessity of allowing adequate time for each volume to be prepared with the necessary care, means that there is no set time-table for the publication of the whole series. Each volume will be a self-contained work, complete in itself. The order in which the handbooks are published does not imply any rank ordering, but is determined by the way in which the series is organized; the editor of the whole series enlist a competent editor for each individual volume. Once the principal editor for a volume has been found, he or she then has a completely free hand in the choice of co-editors and contributors. The editors plan each volume independently of the others, being governed only by general formal principles. The series editor only intervene where questions of delineation between individual volumes are concerned. It is felt that this (modus operandi) is best suited to achieving the objectives of the series, namely to give a competent account of the present state of knowledge and of the perception of the problems in the area covered by each volume.

Language Typology and Language Universals / Sprachtypologie und sprachliche Universalien / La typologie des langues et les universaux linguistiques. 1. Halbband Haspelmath Martin,2008-07-14 This handbook provides a comprehensive and thorough survey of our current insights into the diversity and unity found across the 6000 languages of this planet. The 125 articles include inter alia chapters on the patterns and limits of variation manifested by analogous structures, constructions and linguistic devices across languages (e.g. word order, tense and aspect, inflection, color terms and syllable structure). Other chapters cover the history, methodology and the theory of typology, as well as the relationship between language typology and other disciplines. The authors of the individual sections and chapters are for the most part internationally known experts on the relevant topics. The vast majority of the articles are written in English, some in French or German. The handbook is not only intended for the expert in the fields of typology and language universals, but for all of those interested in linguistics. It is specifically addressed to all those who specialize in individual languages, providing basic orientation for their analysis and placing each language within the space of what is possible and common in the languages of the world.

Neuhesprachliches Italienisch im Ruhrgebiet und in CataniaJudith Kittler,2015-08-31 Im Fokus dieser Untersuchung steht das neuhesprachliche Italienisch von im Ruhrgebiet ansässigen Italienern, die aus Catania stammen. Es werden Unterschiede der Sprechweisen in Lautung und Prosodie herausgefiltert und damit messbar gemacht. Die Besonderheiten der phonetischen wie prosodischen Variation werden darüber hinaus mit denjenigen einer Sprechergruppe aus der Herkunftsprovinz Catania verglichen, um dialektale, innovative sowie kontaktbedingte Merkmale des Italienischen in der Migration beschreiben zu können. Auf der Webseite des Verlages werden zusätzlich Transkriptionen und Sprechproben aus dem RuhrCat-Korpus zur Verfügung gestellt (siehe Links im Tab Überblick bzw. Overview).

Framing History in East-Central Europe and Beyond Lit Verlag,2022-09-06 During the 1970s today's Austrian Federal Ministry of Education, Science and Research (Bundesministerium für Bildung, Wissenschaft und Forschung, BMBWF) supported the founding of the Center for Austrian Studies at the University of Minnesota in Minneapolis and the Austrian Chair at Stanford University in California. These foundations were the initial incentives for the worldwide 'spreading' of similar institutions; currently, nine centers for Austrian and Central European studies exist in seven countries on three continents. The funding of the Ministry enables to connect senior scholars with young scholars, to help young PhD students, to participate in and to benefit from the scientific connection of experienced researchers, and to get in touch with the national scientific community by 'sniffing scientific air', as the Austrians like to say. Furthermore, it aims to avoid prejudices, and to spread a better understanding and knowledge about Austria and Central Europe by promoting scientific exchange. This volume contains the annual reports (2018/2019 & 2019/2020) of the center directors and the papers of their PhD students, which discuss various topics on mostly (East-)Central European history from several perspectives and in different centuries. Ferdinand Kihnel, Postdoc researcher at the Institute of East European History, University of Vienna Nedžad Kuš, PhD candidate at the Institute of East European History, University of Vienna Marija Wakounig, Professor at the Institute of East European History, University of Vienna

Fachdidaktik Italienisch Christine Michler,Daniel Reimann,2019-09-09 Der Italienischunterricht in Deutschland hat in den vergangenen Jahrzehnten einen erheblichen Aufschwung erlebt: Italienisch wird in zahlreichen Bundesländern v.a. als dritte und spätest beginnende Fremdsprache unterrichtet und kann als fortgeführte Fremdsprache auch als Abiturfach gewählt werden. Bis heute gibt es indes noch keine monographische Einführung in die Fachdidaktik Italienisch, die in der ersten und zweiten Phase der Lehrerbildung als Grundlagenwerk eingesetzt werden kann. Diese Lücke schließt dieser Band, der bildungspolitische Grundlagen des kompetenzorientierten Fremdsprachenunterrichts ebenso berücksichtigt wie empirische Erkenntnisse der Fremdsprachenforschung. Dabei wird insbesondere auf die für den Unterricht relevanten Spezifika der italienischen Sprache wie auch auf Besonderheiten des Italienischunterrichts als dritte und spätest beginnende Fremdsprache eingegangen. Zahlreiche Unterrichtsbeispiele schlagen die Brücke zwischen Theorie und Praxis.

The Development of Grammar Esther Rinke,Tanja Kupisch,2011 This volume focuses on different aspects of language development. The contributions are concerned with similarities and differences between first and second language acquisition, the acquisition of sentence structure and functional categories, cross-linguistic influence in bilingual first language acquisition as well as the relation between language acquisition, language contact and diachronic change. The recurrent topic of the volume is the link between linguistic variation and the limitation of structural variability in the framework of a well-defined theory of language. In this respect, the volume opens up new perspectives for future research.

Italienisch am Río de la PlataDaniel Veith,2008 Argentinien ist seit über 150 Jahren Ziel italienischer Einwanderung, was zu einem Aufeinandertreffen der italienischen und spanischen Sprache führte. Der Band widmet sich der Analyse dieses in der bisherigen Fachliteratur nur wenig beachteten Sprachkontakts. Nach einem Blick auf die historischen Aspekte der Kontaktsituation werden die Ergebnisse einer soziolinguistischen Enquete vorgestellt, die 2005 im Großraum Buenos Aires durchgeführt wurde. Das besondere Augenmerk der Studie richtet sich hierbei auf den italienischen und spanischen Sprachgebrauch der Immigranten und deren Nachfahren in zweiter und dritter Generation, die Verankerung der italienischen Sprache im Kulturleben am Río de la Plata sowie die spanischen Interferenzen im Italienischen der Italo-Argentinier.
