*Girls Magnet Instagram Profile* ARX Reads, When men talk about what, outside of personality, they find super attractive about a certain woman, the list usually involves a lot of body parts. But when women describe what they find attractive about a man, it often comes down to body language; the way he walks, the way he holds a glass, and even the way he buttons his shirt can be huge, inexplicable turn-ons. Not that a girl can't appreciate a nice set of guns, of course, or a tall frame, but more often than not, it's little gestures that can drive a woman wild. And what's funny about it is that the guy doesn't even realize he's doing something that's a turn-on, because that's just how he is naturally (which, of course, is part of what makes it so hot). Herein, allow us to present a brief list of some of the non-sexual sexy things guys do that women have revealed to be huge turn-ons. And to get the other side's perspective, check out *How to Set Up Your Instagram Profile So Girls Will Find You Attractive*
