Aquatic and Wetland Plants of Northeastern North America, Volume II Garrett E. Crow,C.

Barre Hellquist,1999-06-10 This is by far the best and most comprehensive manual and illustrated guide to native and naturalized vascular plants—ferns, conifers, and flowering plants—growing in aquatic and wetland habitats in northeastern North America, from Newfoundland west to Minnesota and south to Virginia and Missouri. Published in two volumes, this long-awaited work completely revises and greatly expands Norman Fassett's 1940 classic *A Manual of Aquatic Plants*, yet retains the features that made Fassett's book so useful. Features include: * coverage of 1139 plant species, 1186 taxa, 295 genera, 109 families * more than 600 pages of illustrations, and illustrations for more than 90% of the taxa * keys for each species include references to corresponding illustrations * habitat information, geographical ranges, and synonymy * a chapter on nuisance aquatic weeds * glossaries of botanical and habitat terms * a full index for each volume Wetland ecologists, botanists, resource managers, public naturalists, and environmentalists concerned with the preservation of wetland areas, which are increasingly threatened, will welcome this clear, workable, and comprehensive guide.

Acting, Archetype, and Neuroscience Jane Drake Brody,2016-10-04 How do we move actors into the less accessible regions of themselves and release hotter, more dangerous, and less literal means of approaching a role? Superscenes are a revolutionary new mode of teaching and rehearsal, allowing the actor to discover and utilize the primal energies underlying dramatic texts. In *Acting, Archetype, and Neuroscience* Jane Drake Brody draws upon a lifetime's experience in the theatre, alongside the best insights into pedagogical practice in the field, the work of philosophers and writers who have focused on myth and archetype, and the latest insights of neuroscience. The resulting interdisciplinary, exciting volume works to: Mine the essentials of accepted acting theory while finding ways to access more primally-based human behavior in actors Restore a focus on storytelling that has been lost in the rush to create complex characters with arresting physical and vocal lives Uncover the mythical bones buried within every piece of dramatic writing; the skeletal framework upon which hangs the language and drama of the play itself Focus on the actor's body as the only place where the conflict inherent in drama can be animated. *Acting, Archetype, and Neuroscience* weaves together a wealth of seemingly disparate performance methods, exciting actors to imaginatively and playfully take risks they might otherwise avoid. A radical new mixture of theory and practice by a highly respected teacher of acting, this volume is a must-read for students and performance practitioners alike.

A Bibliography of Greek New Testament Manuscripts James Keith Elliott,2015-03-20 The Bibliography is a comprehensive listing of books and articles concerning some 3,500 Greek New Testament manuscripts,

Not My People David Ian Starling,2011 After a survey of recent approaches to the study of Paul's use of Scripture, the four main chapters explore the use of Isa. 54:1 in Gal. 4:27, the catena of scriptural texts in 2 Cor. 6:16-18, Hos. 1:10 and 2:23 in Rom. 9:25-26 and Isa. 57:19 in Eph. 2:17. In each case, the ancient writer seeks to place the letter in its historical context and rhetorical situation, identify the significance of any conflation or modifications that have taken place in the citation

process, analyse the citation's function within its immediate context, compare its use by Paul with the various ways in which the text is interpreted and appropriated by other Second Temple writers, and evaluate the main proposals offered as explanations for the riddle posed by the citation. That done, he offers his own account of the hermeneutic at work, based on an analysis of the explicit and implicit hermeneutical pointers through which the letter guides its readers in their appropriation of Scripture. This book compares the hermeneutical approaches of the four letters and draws conclusions concerning the interplay of continuity and discontinuity between Scripture and gospel in Paul's letters and the relationship between grace and Gentile inclusion in his theology.
