Winning at All Costs John Foot,2007-08-24 The 2006 World Cup final between Italy and France was a down-and-dirty game, marred by French superstar Zidane's head-butting of Italian defender Materazzi. But viewers were also exposed to the poetry, force, and excellence of the Italian game; as operatic as Verdi and as cunning as Machiavelli, it seemed to open a window into the Italian soul. John Foot's epic history shows what makes Italian soccer so unique. Mixing serious analysis and comic storytelling, Foot describes its humble origins in northern Italy in the 1890s to its present day incarnation where soccer is the national civic religion. A story that is reminiscent of Gangs of New York and A Clockwork Orange, Foot shows how the Italian game -- like its political culture -- has been overshadowed by big business, violence, conspiracy, and tragedy, how demagogues like Benito Mussolini and Silvio Berlusconi have used the game to further their own political ambitions. But *Winning at All Costs* also celebrates the sweet moments -- the four World Cup victories, the success of Juventus, Inter Milan, AC Milan, the role soccer played in the resistance to Nazism, and the great managers and players who show that Italian soccer is as irresistible as Italy itself.

Square Peg, Round Ball: Football, TV and Me Ned Boulting,2022-04-14 SHORTLISTED FOR THE SUNDAY TIMES SPORTS BOOK AWARDS 2023 - SPORTS ENTERTAINMENT BOOK OF THE YEAR 'What Ned hasn't seen on a sports TV channel isn't worth knowing about.' Gabby Logan 'From falling out with Mourinho to flying with Gerrard, this is a wonderful journey through football.' Henry Winter *Square Peg, Round Ball* is a candid, insightful reminiscence on a life in football. Although best known as ITV's commentator on the Tour de France, Ned Boulting has spent most of his professional life covering football. Follow Ned's journey from football supporter to reporter – from criss-crossing the country in a banger of a car hoping for a word or two from the latest big signing, to the glamour of the Champions League. Ned really has been there, done that, and got the Sky Sports jacket to prove it. Witnessing the shenanigans, the machinations and the idiocy of football at close quarters Ned shares his best stories with affection. Whether it's treading mud into Steven Gerrard's pristine white carpets, or nearly being pushed into oncoming traffic by a menacing Vinnie Jones, or being chased away from Roman Abramovich's house by some scary looking men on quadbikes – Ned has made a fool of himself to bring us the best tales from his experiences in 90s and 2000s football.

Lower-Middle-Class Nation Nicola Bishop,2020-12-10 *Lower-Middle-Class Nation* provides an unparalleled interdisciplinary cultural history of the lower-middle-class worker in British life since 1850. Considering highbrow, lowbrow, and middle-brow forms across literature, film, television and more, Nicola Bishop traces the development of the lower-middle-class from the mid-19th century to the present day, tackling a number of pressing, consistent concerns such as automation, commuting, and the search for a life/work balance. Above all, this book brings together ideas about class, nationhood, and gender, demonstrating that a particularly British lower-middle-class identity is constructed through the spaces and practices of the everyday. Aimed at undergraduate, postgraduates and scholars working in media and social history, literature, popular culture, cultural studies and sociology, *Lower-Middle-Class Nation* represents a new direction in cultural histories of work, labour, and leisure.

Global and Local Football Gary Armstrong,Jon P. Mitchell,2008-03-31 What can the history of a nation's football reveal about that nation's wider political and socio-cultural identity? How can the study of local football culture help us to understand the powerful international forces at play within the modern game? Based on long-term and detailed ethnographic research, this book uses Malta as a critical case study to explore the dynamics of contemporary football. Situated on the fringes of the EU, and with an appalling record in international competition, the Maltese are nevertheless fanatical about the game. This book examines Maltese football in the context of the island's unique politics, culture and national identity, shedding light upon both Maltese society and on broader processes, both local and global, within the international game. The book explores a range of key issues in contemporary football, such as: the dynamics of international player migration football corruption and ethics the politics of sponsorship and TV deals the global appeal of footballing brands such as Manchester United, Juventus and Bayern Munich. This book is essential reading for students and researchers working in Sports Studies, Sociology of Sport, Football, Globalisation, Politics and Ethnic Studies.

German Football Alan Tomlinson,Christopher Young,2006 This unique collection of essays by German and British academics examines the history and significance of football in German culture and society.

Programmes! Programmes! Cliff Hague,2021-08-16 *Programmes! Programmes! Football and Life from Wartime to Lockdown* is a fascinating archaeological dig through a collection of 2,000 programmes. From the bleak wartime era when players had to shelter from air raids and depend on army leave, to tragedies and the 'Slum Game', through to the glitz of today's global stars, noodle partners and fan-owned, community-based clubs - every aspect of football's evolution, its highs and lows can be found in match-day programmes, along with a dose of bad poetry, adverts for sex magazines, boy bands who never made it and explanations of a 'magic sponge' for American fans. There are unforgettable games, World Cup winners, schoolboy internationals destined for stardom and others whose glimpse of glory proved fleeting. The stories play out against a backdrop of technological, economic and social change in Britain and beyond, rekindling the memories of generations of fans. *Programmes! Programmes!* is a 'must' for lovers of football nostalgia, with fascinating, funny and quirky tales galore.

Modernity Britain David Kynaston,2014-12-02 The late 1950s and early 1960s was a period in its own right-neither the stultifying early to midfifties nor the liberating mid- to late-sixties-and an action-packed, dramatic time in which the contours of modern Britain started to take shape. These were the “never had it so good” years, in which mass affluence began to change, fundamentally, the tastes and even the character of the working class; when films like *Saturday Night and Sunday Morning* and TV soaps like *Coronation Street* and *Z Cars* at last brought that class to the center of the national frame; when Britain gave up its empire; when economic decline relative to France and Germany became the staple of political discourse; when “youth” emerged as a fully fledged cultural force; when the Notting Hill riots made race and immigration an inescapable reality; when a new breed of meritocrats came through; and when the Lady Chatterley trial, followed by the Profumo scandal,

at last signaled the end of Victorian morality. David Kynaston argues that a deep and irresistible modernity zeitgeist was at work, in these and many other ways, and he reveals as never before how that spirit of the age unfolded, with consequences that still affect us today.

The Activity Year Book Anni Bowden, Nancy Lewthwaite, 2009-03-15 Engagement in meaningful activity is an important aspect of human existence, regardless of one's cognitive abilities. Even in the later stages of dementia, people can still be engaged in activities at a level that allows them to be successful. In fact in these later stages, where cognitive abilities may be waning, the need for activity becomes greater, as cognitive stimulation helps preserve what skills remain. For care staff looking after older people, many of whom may have some degree of dementia, coming up with ideas for activities of a suitable level to keep their residents engaged and stimulated can be challenging. The Activity Year Book solves this problem, offering week by week themed activities. From Valentine's Day quizzes to Bonfire Night word searches, it has activities relating to every important date in the calendar, and also encourages reminiscence and discussion around these events. This book will be invaluable to care staff looking for a simple way of improving the lives of their residents, week by week, all year round.

Culture and Content in French Aurélie Chevant-Aksoy, 2022-03-16 Instructors in today's language classrooms face the challenge of preparing globally competent and socially responsible students with transcultural aptitude. As classroom content shifts toward communication, collaboration, and problem solving across cultural, racial, and linguistic boundaries, the teaching of culture is an integral part of foreign language education. This volume offers nontraditional approaches to teaching culture in a complex time when the internet and social networks have blurred geographical, social, and political borders. The authors offer practical advice about teaching culture with kinesthetics, music, improvisation, and communication technologies for different competency levels. The chapters also explore multi-literacies, project-based learning, and discussions on teaching culture through literature, media, and film. The appendices share examples of course syllabi, specific course activities, and extracurricular projects that explore culinary practices, performing arts, pop culture, geolocation, digital literacy, journalism, and civic literacy.

Supreme emergency Andrew Corbett, 2022-02-15 In Supreme emergency, an ex-Trident submarine captain considers the evolution of UK nuclear deterrence policy and the implications of a previously unacknowledged aversion to military strategies that threaten civilian casualties. Drawing on extensive archival research, the book provides a unique synthesis of the factors affecting British nuclear policy decision-making and draws parallels between government debates about reprisals for First World War zeppelin raids on London, the strategic bombing raids of the Second World War and the evolution of the UK nuclear deterrent. It concludes that among all the technical factors, an aversion to being seen to condone civilian casualties has inhibited government engagement with the public on deterrence strategy since 1915.

FIFA (Fédération Internationale de Football Association) Alan Tomlinson, 2014-04-03 Founded in 1904 by representatives of the sporting organisations of six European nations then expanding into the Americas, Asia and Africa FIFA has developed to become one of the most high profile and lucrative businesses in the global consumer and cultural industry. Recent years however have been characterised by a series of crises leaving the organisation open to critique and exposure, and creating a soap operatic narrative of increasing interest to the global media. In this critical new account of one of the world's most important sporting institutions, Professor Alan Tomlinson investigates the history of FIFA and the underlying political dynamics characterising its growth. The book explores the influence of the men who have led

FIFA, the emergence of the World Cup as FIFA’s exclusive product, FIFA’s relationships with other federations and associations, the crises that have shaped its recent history, and the issues and challenges that are likely to shape its future. Particular focus is given to selected moments in the post- Havelange administration and the way in which FIFA, its current president Joseph Blatter and some key close colleagues have responded to and survived successive scandals. The book provides a foundation for understanding the growth and development of what is widely accepted as the world’s most popular sport; sheds light on the shifting politics of nationalism in the post-colonial period; and reveals the opportunistic forms of personal aggrandizement shaping an increasingly media-influenced and globalizing world in which international sport was both a harbinger and an early reflection of these trends and forces. Fascinating and provocative, this is essential reading for anybody with an interest in soccer, sport and society, sports governance, or global organisations.

A Football Goalpost Killed My Son Brenda Smith,2011-06-01 DescriptionBrenda and Peter's son Jonathan was killed in 1991 by a falling homemade goalpost which fell and hit him rupturing his heart. The goalposts were made from scaffold poles that weighed 200lb or more and had been welded. The children playing were in the under 11's team and probably only weighed no more than 60-70lbs or even less. They were all members of the Football Association which is mandatory. At the time there was no legislation for safety standards for goalposts, and there still isn't, but now there are some standards that the Football Association has worked hard to achieve, and these have been copied in Ireland and Australia. The whole world needs to be aware of unsafe football goalposts, which is what Brenda has tried to achieve over the last 17 years.After Jonathan died, and also after campaigning began, another 10 children have died in the UK and others have been injured. Had legislation occurred then these deaths could have been prevented.Brenda has campaigned vigorously for 17 years in the hope of getting legislation for safe goalposts. She has come close at times to achieving this but still it evades her. In desperation, after feeling that no one else cares, even though the Football Association have supported her in getting safety measures in place, Brenda decided to write a book about the campaign and list the support that she has had from famous footballers and the media that have helped with coverage.It would have been so easy for her to sit back and say, Well, I tried! I did what I could but she didn't sit back. She pushed and pushed and pushed again to try to get somebody to take notice and realise that the deaths of these children are not just accidents, but the goalposts used are accidents waiting to happen, and the unsafe goals are still out there!!!!!!!!!!!!!!The book's aim is to make parents, carers, football coaches and schools aware of what can happen when safety is ignored. It also aims to show the Football Association that she still needs support to get legislation for safe goalposts.This is not a paranoid mother, who is frightened of sport. The family love football and support West Ham United avidly, but she wants everyone else's son or daughter to be safe when playing the game.About the AuthorMrs Brenda Smith is 53 and the mother of an autistic daughter with complex special needs. She is a wife, mother and grandmother and is employed as a Clerical Assistant with the Civil Service.Brenda lost her young son in a tragic accident involving unsafe goalposts and has campaigned for 15 years to try to get legislation in place for all goalposts to be safe in an effort to protect other children. She had lost a much loved child and been given a child that needed so much care and attention, and she always will.Brenda enjoyed writing the book and feels that if she had read a similar book it would have given her the strength and hope that she needed after she heard the news that Laura had such complex special needs.
