Progress Notes Made Simple Lakeeya Thornton, 2019-05-29 To become and be known as a competent clinician, one must learn all components of good clinical practice. You may be great in some areas and need more supervision in others which is completely normal. One universal mountain to climb is DOCUMENTATION. One who conquers their paperwork conquers their day. Included in this e-book is a handout I created for my supervisees so they can understand the structure of a good note as well as templates that helped me buy back my time. When I bought back my time, I decreased my probability of burn out, and inherited time to work on bettering my clinical practice and become a GOAL CHASER. To get tips to bettering your clinical practice and accomplishing your professional goals, check out my e-book Goal Chaser's Guide to Clinical Practice!
